

VOL. XX., NO. 18.

SOCIALIST SEARCHLIGHT

TURNED ON VARIOUS EVENTS OF THE WEEK.

Millionaire's "Brains" Exposed-High Spirited Saddlery Bosses and a Sequel -Theologians' Crooked Reasoning-Bobby Hunter's Ridiculous Sentimentality."

A few days ago it was Frank J. Gould who "directed the industries of this country" by having his horse Jarretierres win the French Prix Dolma Baghtche, Now it is Harry Payne Whitney who put his "brains" to use for the service of humanity by winning the Liverpool' All-Aged Selling Plate, with his gelding Jinks. Wicked Socialists, who would compel these unparalleled paragons of "ability" to go to work just like ordinary mortals!

"We are composed of a lot of high spirited men that want to have their own way, and they will not consent to let any association or any executive committee govern them." Thus spake Mr. Edward Armstrong, of the National Saddlery Manufacturers' Assoclation, at a recent conference at Chicago between members of the association and representatives of the workers. Whereupon all leather through a tedious afternoon's bickering, Mr. Armstrong and his colleagues worked every hook and crook to ram their dictates as to hours and wages down the throats of their employes. What consternation there will be in the breasts of the Armstrongs when the workmen also become "a lot of high spirited men." who "will not consent to let any association or executive committee govern them." The day is coming.

A sample of the sort of reasoning that theologians spoly against Socialism is furnished by the Cleveland "Catholic Universe" in its reasons for attacking "the crass for dirigible balloons and alrabips." The "Catholic Universe" declares it does "not think that the Creator intended that man should inhabit the air or to fly like the birds," and the paper proceeds to demonstrate its thesis with the reasoning that "else He [the Creator] would have furnished him [man] with wings," on account of which the "Catholic Universe" is of the opinion that "airships should be legally restrict ed."-Upon the same principle the Creator never intended man to travel by steamboats and steam cars, else He would have furnished man with a steamboiler in his stomach; and the Creator never intended man to have literature plentiful and cheap, else He would have furnished man with a Hos Perfected Press and Mergenthaler typesetting anatomy; and the Creator never intended millions of men to deliberate in parliaments, else He would have, furnished man with a representative government anatomical member. Furthermore, upon

be an co di th ch

H wi see the has a set to the to

cause the Socialist Movement to groan. An interesting collection for the So-

cialist to make, as revealing the purity of bourgeois lawmakers, would be a list of the legislative "jokers" just now flashing themselves on the screen with kinetoscopic rapidity. A "joker" is a clause slipped into a bill with the purpose of secretly and completely

mullifying its whole effect; or else the "joker" itself may be the main point of the bill, but concealed under mass of other verbiage of seemingly opposite purport, in order to insure its passage. The latest example is the Pickett bill in Congress, which "withdraws" certain lands from entry, but "leaves them open at all times to exploration, discovery and occupation" by the very interests the bill seems to bar out from them.

Officials of the International Association of Machinists from coast to coast are rushing to disprove the claim of Senators Hale and Gallinger that warships built in 8-hour yards cost 50 per cent. more than those built where the hours of work are unlimited. More, they are rushing to prove that warshins built in 8-hour yards and by "union" men are actually cheaper than those built elsewhere. And when all that has been nicely proven, what have the officials of the I. A. M. done but prove, over their own official signatures, that the 8-hour "union" machinist works cheaper and drives himself more intensely than the "scab" machinist?

Out of consideration for the antiimmigrationists who sail under Labor or Socialist colors, Crawford Elliott, who has just invented a cotton picker that displaces forty men each and will save the southern cotton growers \$150,000,000 a year in wages, should have withheld his invention yet awhile. Who, with such a glowing example of the true cause before him, ill take any stock in the false cry that "immigration lowers wages"?

extraordinary profoundness marks the observation made by Mr. Morrison, the Secretary of the A. F. of Li, that "in the near future there will be few employers who will not favor the A. F. of L. principle of collective bargaining." Employers hate to have to do with a lot of employes whose class instinct there is no "contract" to curb hence they dote on the A. F. of L. who furnishes the saddle, bit and bridle. That's all well known.

"It is necessary, to make them hold their shape," is the ice cream cone manufacturers' ples, when hauled up for violating the pure food law and poisening the people with boracic acid. Why must the cones hold their shapet "Because otherwise they wouldn't sell. Why must they sell? Because otherwise the ice cream cone manufacturers wouldn't make any money. So the whole thing sifts down to the poisoning of the peo-

With no more expenditure of money than a two-cent stamp-a postal card | other commodities upon supply and | process. will also do-anybody can secure for the asking, a manual prepared by the Department of Agriculture, and entitled "Economic Use of Meats in the Home."

.*

A study of the manual by the light of the alphabet of political economy justifies the substitution of a different hame for the one that the manual now bears. It should be called "Carpeting the Road to Cooliedom.' In a nutshell the theory of the manual is this: The high price of meat excludes the expensive portions of the

carcass from the table of any but the rich; but the poor do not yet need to give up meat altogether; there are cheap cuts; 'these cuts are cheap because hard to prepare; he who knows how, can render the cheap out both appetizing and palatable. The manual teaches how, Political economy teaches that the

price of labor-power, commonly called

would be tongue-tied-but Socialism would have a chance.

Clever government statisticiansbut yet not quite clever enough! Correctly they give the total of railway casualties for the year ending June 30 1909, as 8,722 killed and 95,626 injured. Cleverly they seek to conceal the number of employes destroyed and mangled by furning attention to the figures of "only" 258 passengers killed, and 10,811 injured. But there their cleverness leaves them in the lurch; for a simple operation in subtraction reveals the terrible tale of casualties to employes as follows: Slain, 8.369; other accidents, from legs torn off to fingers crushed and bodies scalded, 85.815. No wonder cleverness by the arrel is tried to conceal such a

record; no wonder either that the figures leap out through all "clever" attempts to conceal them. Speaking of the abuses to which

legro servant girls are subjected to in Toronto, the Hamilton, Ont., Herald says the treatment is more like that of plantation days than "that of free and independent wage earners." "Free and independent wage earners"! As well talk of white, shining coal, or dry, moisturcless water. The mere fact that one is a wage earner puts him at once out of the category of "free and independent." It stamps him at once as bound to and dependent upon the owner of the necessarles of life-the employer.

With dear food admittedly causing an upward jump in the infantile death rate of all highly developed countries; with the shortness of the worker's ware being admittedly the factor which renders him helpless to meet the advance in food costs; with the

NEW YORK, SATURDAY, JULY 30, 1910.

COOLIEWARDING

wages, depends, like the price of all ture puts on steam to the Coolieward

demand. Political economy also teaches that, in the long run, supply and demand equilibrate and that, consequently, in the long run, the price that commodities fetch in the market corresponds to their value, their value being determined by the amount of labor-power crystallized in the article, and socially necessary for its reproduction. These teachings of political economy combine in pointing to startling conclusions when applied to the

commodity labor-power. In the first place, improved machinery and concentration displaces Labor so plentifully that the supply in the Labor Market greatly exceeds the demand. The consequence of the excess is a lowered price of wage; and the consequence of a lowered wage in continuity is to depress the standard of living. This in itself leads Coolleward. The application of the manual of the Department of Agricul-

cialism.

economic organization.

*

What is called the "value" of laborpower is a shifting thing. It depends upon the historic circumstances These determine the standard of living enjoyed by the workers at any given time. A continued lower wage tends to depress the standard of living. There is a natural instinct to resist. The depressing process does not proceed smoothly. Schemes like that of the manual of the Department leader. of Agriculture oil the wheels of the process, and smother its operation. A

meat diet that is a meat diet in name only, would lessen resistance. The more imperceptible the lowering of the standard of living is, all the more smoothly and swiftly would the decline proceed. The manual on the "Economic Use

of Meats in the Home" is a carpet spread-and there are others-to Cooliedom.

REIMER'S GOOD WORK ADDRESSES WORKINGMEN OF BRIDGEPORT ON S. L. P. PRINCIPLES Organiser Riggs' Report on Successful Propaganda Work Done by the Mass. asked them to watch the outcome. N. E. C. Member for Revolutionary So-

W. F. OF M. CONVENTION

Arthur E. Reimer, to tour the State and speak and agitate in the principal cities. Comrade Reimer arrived in Bridgeport July 6th. An openair meeting was held in the evening on the corner of Wall and Main streets, J. T. Riggs acting as chairman. This was the best street meeting Section Bridgeport has held in years, over three hundred persons listened attentively for two hours to the facts brought out by Comrade Reimer, illustrating the class struggle, and showing the impossibility of the political organization to accomplish the emancipation in the A. F. of L. of the working class without the proper

membership two days' pay during the **3 NEW S. L. P. SECTIONS** next year. Means will be provided to take care of the Homestake miners who have been locked out for months and or YOUNGSTOWN, CANTON, AKRON, O. whom the organization has spent \$250, 000. Another effort may be made to have officers elected by popular vote,

but it will likely fail. The administration is in complete control and it was given out by a majority of the delegates to-day that they would not accept the resignation of President Chas. H. Moyer even if presented. They claim that Moyer is "one of the strongest characters in the labor moevment' and when the new department of mining is organized he may be favored as its

SOCIALIST PARTY MAYOR AND JUDGE FINES SOCIALIST PARTY AGITATOR.

Grand Junction, Colo., July 17 .- This town is a "Socialist" town. It has a "Socialist" mayor, one Thomas Todd. It is also an exceedingly "good" town, and the mayor is also "good." So are the police.

W. G. Henry, a Socialist party agitator, was arrested here, technically for "swearing on the soap box." really for herafing the police. He was taken to jail and held there over night, without bail.

On the following morning the "So cialist" mayor called at the jail, but falled to recognize his "comrade," whom he knew well and remarked to police standing around:

"If what I heard is true, and I think it is, this fellow got what he deserved. He should have got more."

Then, after that exhibition of an unprejudiced mind, he returned to the city hall and, as police judge, fined the agitator \$15. Henry refused to pay the fine, and it was remitted, informally.

The mayor then instructed the So cialist party agitator that he must not swear or attack the church, or the courts or anything else, especially the police. On these conditions he would be allowed to speak on the streets of "Socialist" Grand Junction.

Grace V. Silver. AND THIS IS PROSPERITY!

But Then, the Workers' Lot Is Not Considered.

Washington, July 25 .- Capitalist prosperity in the United States is on the in crease if the purchases abroad by Americans during the past year of works of art, diamonds, fine furs, and champagne is taken as a criterion. Whereas there was brought into this country during the fiscal year 1909 only \$3,800,000 worth of art works, there were brought in during the fiscal year just closed art works to the value of \$21,100,000. In diamonds the increase was from \$24,100,000 to \$39,800,000; and in undressed fur skins from \$11,700,000 to \$15,200,000; in dressed furs and manufactures thereof from | Akron every day. The workers in this

industry have no protection for life and mh at all. For a rubber worker to get

them class conscious.

dulging, thereby, in many insinuations Organizer John T. Riggs promptly challenged the S. P. to debate the question in behalf of the S. L. P. Section of Bridgeport. Max Levy of the S. P., re: ferred the organizer to Local Bridgeport, S. P. Comrade Reimer told the audience the challenge would be delivered and

SHAPING OF EVENTS IN THE LABOR MOVEMENT OF THE NINETIES OF LAST CENTURY WHICH GAVE RISE TO THE SOCIALIST TRADE AND LABOR ALLIANCE.

pect or support.1

as follows:

By X. L. Y., New York.

To most men enrolled in the Socialist Movement to -day, the story of the S. T. & L. A. (Socialist Trade and Labor Alliance) is a closed book, though it is only a short span since the organization was launched-fifteen years ago-and five years ago since it was merged into the Industrial Workers of the World. If, however, the story of this S. T. & L A is not generally known there are not wanting those to whom the name is familiar. There are many who occasionally hear reference made to the "S. T.

& L. A.," but too often they hear only slander, vilification, and abuse,-this from Socialist Party sources. And since the Alliance, as the S. T. & L A. was familiarly designated, was, in a sense, a child of the Socialist Labor party, the calumny heaped upon the former reacts upon the latter, and to that extent a dread and fear for the party is engender ed in newcomers to the Socialist Movement when receiving their first lessons in the history of Socialism in this coun-

This horror for the S. L. P. is patent to all; yet it is a horror akin to that which parents instil in their children to make them comply with their desires. And it may be pertinently remarked that such is the way the leaders of the S. P. look upon their membership; as a lot of children, or worse, as a lot of dupes, who should simply believe, but not question, for, to do the latter, is disconcerting, "disturbing." It might here be remarked, incidentally, that for one to accept implicitly the wildest kind of statements against another, and proceed thereupon to condemn, at all events to shut one's ears to the claims of that other person or organization, as the case may be, is decidedly one-sided, decidedly partizan, illogical, unfair, and above all. unworthy of one who would be a Socialist: The rising recruits to Socialism owe it a duty to themselves as well as the cause they hold dear, to examine the tales they hear about the Socialist Trade and Labor Alliance and of the Socialist Labor party, for the reason that to-day the Socialist Movement in this land is in a far from satisfactory state, and because there are two different tendencies in that movement.

Knowing that a prejudice exists a gainst the Socialist Labor party, and elieving that a better understanding of historical facts will aid materially to remove this prejudice and thereby help bring the opposing tendencies nearer together, the present article is written. It will not deal with the career of the S. T. & L. A. nor of the S. L. P., but will be devoted to dispelling the myths concerning the launching of the former.

The Split of 1899.

As is well-known, and as may be easi ly ascertained, in the year 1899, a split took place in the Socialist Labor party over the question of the party's attitude toward trade unionism. In 1896, that is, three years earlier, the party's national convention had endorsed the Socialist Trade and Labor Alliance by an overwhelming vote, 71 for to 6 against. Subsequently party conventions in state after state endorsed and re-endorsed the Alli-

they had mustered strength enough in [reported and among the amendments New York city to capture the national proposed was the following significant pledge for delegates: administration of the party, they made "And I further promise not to allow what was meant to be a "coup d'etat," but which ignominiously failed.

Opponents' Accusations.

prise." But first let us specifically quote

these charges. In his "History of So-

cialism in the United States," edition of

1903, p. 323, M. Hillouit makes the charge

in these words: "When the Socialist

Trade and Labor Alliance was first or-

ganized and sprung as a surprise on the

convention of 1896, some delegates had

considerable misgivings as to the innova-

tion." And N. I Stone. (S. P.) in a

pamphlet, "The Attitude of the Socialists

toward the Trade Unions," published in

1900, has a lengthier passage, which it

is well to give. It occurs on p. 6 and is

"The S. T. & L. A. was the most

"We, Socialists, love to pride ourselves

of the superior nature of our movement,

which, we say, is due to the fact that it

is not the result of a scheme hatched

out in the brain of some great mind

among us. Such a thing is impossible

with us, we claim, because there are in

the first place no 'master' minds among

us, at least to the extent of having the

power to execute anything without the

consent of the rank and file, and second,

because we believe that movements must

come as a natural product of events to

have a chance to grow and develop na-

turally. If we needed an example of a

movement that in every respect did not

come up to these requirements it was

the S. T. & L. A. It came down upon

us full-fledged from top to bottom as the

masterpiece of our 'Master Workman'

and took us by surprise; but take it did."

Now, there is no foundation in fact for

either of these accusations. On the con-

trary, the records distinctly controvert

and Stone, and knock to pieces the as-

So far from coming down "full-fledg-

ed as the masterpiece of the 'Master

closely upon the form of organization of

as a surprise," as a trick, upon the 1896 The union of the two central bodies, convention of the party, and consequenthowever, was destined to be short-lived, ly, like all "surprises," like all being and in two months, on June 15, 1890, taken unawares, was not entitled to resafter the above clause was adopted by the C. L. U., a rupture occurred, following which the Central Labor Federation was at once re-organized. We shall take up this matter of "sur-

It will be enlightening to know the cause of this rupture. 'On May Day in 1890, the Socialist Labor party, had held monster demonstration . at Union Square. The Central Labor Union had co-operated to make the celebration a success. Though a pelting rain descended, there were 20,000 people representing seventy organizations who turned out to participate. The affair was rightly considered a pronounced success. Encouraged by this signal demonstration for the International Labor Day and for the Eight-Hour demand, the joint Sections of the Socialist Labor Party in New York city (American, German, and Jewish sections), on May 22, 1890, decided to enter the political campaign for that fall. In fact, three days earlier, May 19, 1800, the American Section, S. L. P., first moved this matter at its meeting. The news at once spread in labor union circles, and a stir was quickly manifest. The move was highly welcomed by the workingmen and it was felt that Labor was at last about to take a decisive step in its own behalf politically. The political henchmen of the old parties of capitalism, however, were not inert. They were ready with a counter-move, and a week later, May 25, 1890, THE CEN-TRAL LABOR UNION DECIDED

FOR INDEPENDENT POLITICAL o giauoivota ACTION. 8 The maneuvers of these gentry had been anticipated by the English and German papers of the Socialist Labor party, the Workman's Advocate and the N. Y. Volkszeitung, (at that time the Volks-Zeitung was S. L. P.) The corrupt machinations of several C. L. U. leaders in the political campaign of 1880 were exposed by both papers. 4 . The exposure was more than the crooked pack in the C. L. U. could stand and they demanded the claims of these two men, Hillquit vengeance; they insisted that the reporters of the two labor papers be excluded sertions which they palm off as truthful from C. L. U sessions. Their first demand met with defeat, they had 31 on their side but 39 against them. But they were not to be denied; the pres-Workman," the Alliance was patterned ence of the labor reporters was a thorn in their side; it was inimical to further corrupt manipulation. So at the very by Hillquit; even, in his "History," page next meeting, June 8, 1890, the same motion to exclude was made. This time surprise," the Alliance was but the conit carried, 43-41. Thereupon many of verging of the currents which preceded the former C. L. F. delegation together with others withdrew, and on June 15, (one week after the infamous act of movements along C. L. F. lines in cities debarment) 85 delegates representing 39 farther away. The Alliance was organunions gathered at 385 Bowery to take ized to give the workers a Socialist emphatic action against these outrages labor union, a union with which they The delegates adopted the following re-

"Whereas the Central Labor Union of

disorganization and disruption through

a persistent support of dishonest schemes

and dishonest schemers; therefore be it

"Whereas, on the contrary, its course

convention in Detroit, which also refused to grant the C. L. F. a charter; it is enough to say that when the S. L. P. itself finally withdrew from the C. L. F., the A. F. of L. still refused to grant the charter.

It will be interesting next to note the trend toward a national Socialist trade union, as opposed to the pure and simple unions then in existence, a trend which culminated in the launching of the Socialist Trade and Labor Alliance. No sooner had the Central Labor Federation been re-started than it issued on July 3, 1890, this pronunciamento to the remaining organizations in the C. L. U., and called upon them to withdraw:

"For years there have been men i the Central Labor Union who, instead of attending exclusively and conscientiously to the interests of Labor, have notoriously neglected and betrayed those interests and unscrupulously acted as the direct or indirect agents of the local political parties.

"Prominent among men of this character stands James P. Archibald, who from the very seat of Recording Secretary which he still occupies, openly boasted of having received \$60 for his

services for the Democratic party. "And instead of expelling him for contempt, your delegates not only sustained him but expelled the reporters of the only labor papers of this city because these papers contended that such a man was not a fit representative of Labor" After enumerating a number of instances where the Central Labor Union disregarded the interests of its membership, the call of the Central Labor Federation concluded with the warning: Above all things exact from them (C. L U. delegates) that they shall take no part in politics, except by order of their organization when the latter shall deem it right and proper to take part as a body in a bong fide political movement of Labor, having in view the emancipation of the wage working class."7

In the preamble to the constitution of the Central Labor Federation we find this clause.

"Resolved, That every union affiliating with this Central Labor Federation of New York declares that it is opposed to the existing political parties of the capitalists, and favors independent political action 8 by organized labor."

That sounds very S. T. & L. A. like. Heading for a National Organization Closely following the formation of the C. L. F. in New York city, similar bodies were started with large followings in Brooklyn, and in Hudson County, N. J. These three formed a General Executive Board and became known as the United Central Labor Federations. A reference to this executive board, made in the minutes of the N. Y. C. L. F. meeting of June 14, 1801, shows the close connection which existed between the Federation and the Socialist Labor party. The reference is as follows:

long they shall work, and under what "The General Executive submitted a conditions, and also what fraction of the draft of by-laws for the regulation of wealth they produce they may keep for the united federations. It covers the themselves. This fraction is on the aver. matters of representation, of the conage about 20 per cent, and if the workstituent units, of moral and financial ers declare they must have more to live, aid in economic conflicts with capital, their masters rarely give it, but force and participation in political action them to strike and fight and starve. with the Socialist Labor party . . and finally, providing for the expulsion the wealth produced by a whole nation. of central organizations who endorse into the coffers of a few thousand capithe candidates of any party not a talists has resulted in our modern exbona fide labor party, or which allows treme concentration of wealth. Some any of its constituents to do so." 9 5,000 millionaires and less than a million

As can be seen from the various passages which have been quoted, foundations of a new trade union, markedly different in methods and aims from the old-style, were carefully and deliberately being laid. From that time forward, things shaped them. selves ever more favorably for the extension of the New Trade Unionism. A ceaseless, vigorous, sparkling and inspiring agitation for the new principles was carried on by the C. L. F. unions and the Socialist Labor Party. This agitation was reflected in the S L. P.'s press, The People, which, issue upon issue, published masterly articles and reports on the weaknesses, the inefficiency, and the hopelessness of trade union action only, and on the inestimable power of combining political action with economic effort. Nor was this agitation without its fruit. Within two years such a widespread sentiment for the new movement had sprung up that the Central Labor Federation of New York asmanded the formation of a national union of all central bodies throughout the country 10. The transactions of the General Executive Board of the United C. L. F.'s reveal conclusively this general desire. In one of its reports this passage occurs: "As a number of central bodies in the country had inquired as to charters to be issued by the Board, the secretary was instructed to draft a form. As the business of the Board

GERMAN OUTLOOK

By Richard Koeppel.

What! The German Outlook? Can there be such a thing as a "German Outlook" in an English speaking country like ours? Yes, there can, as will be presently shown. To be sure, the Socialist Movement will not succeed in making any considerable headway until it has reached the main body of the American working class, i.e. its English speaking portion, and trained it as the army of the second and-best American Revolution. But however formidable and strong, however wisely led an army was dead and no doubt about it. Just one German Branch was left-in Mil may be, it must and will cheerfully acwaukee, Wis. To be sure, there were cept the valuable services of brave and loval confederates who, not understandindividual German comrades in many ing the language of the army, form Sections who had remained loyal, but it was impossible for them to re-organcompanies of their own respective naize on account of lack of "timber." tionality, march separately, but fight and strike together with the army in all bat-Worst of all, the Party found itself without a German organ. tles against the common foe, placing themselves under the same command and jurisdiction which direct the move-In Cleveland, O., there was published the "Clevelander Volksfreund," a' weekly,

ments of the army. Such confederates are not only valuable but under the circumstances prevailing in the country, indispensable auxiliary troops. The German branches of the S. L. P. are such auxiliary troops. Now, then, what is the German Out-

It saved a good many young forts saved the Party from utter des-German Socialists, who came here from truction. But the German movement

the old country, from the clutches of the treacherous "Volkszeitung" and brought them into the folds of the S. L. P. It is a safe guess to say that at least 60 per cent of the Party's German membership of to-day are "newcomers," and it is just as safe an assertion to say that these comrades are a better gain to the S. L. P. than if we had succeed-

ed in getting back every one, of the "alte deutsche Genossen," who allowed themselves to be swept away by the and, at the same time, privately owned 'Volkszeitung."

paper. After an attempt to get control To-day we have, beside some "Singing of 'the "Arbeiter Zeitung" in Buffalo. Societies," twelve German Branches with two or three more in the process N. Y., had failed, the Party cast its of formation. With the exception of one or two, all these Branches are in good working shape and doing good work among the German workingmen in their respective towns. All Branches are directly affiliated with the Party and they show no desire to form a separate Federation. In fact they are, in the majority, opposed to the system of federate organization. They want to be in the S. L. P. and show by paying dues directly to the Sections of which they form a subordinate part.

Yes, comrades, the "German Outlook" is splendid, as splendid as it can be un-

individual liberty but the end of wage slavery, which makes present individual liberty for the mass only the choice between working for what they can get and stealing or starving; it means not forcing the industrious and better-skilled to "divide-up" equally with the lazy and ignorant, hut stopping this unjust "dividing up" between the producers and the owners, in which the owner has always taken the lion's share, and giving every man the full value of his labor: in brief. Socialism means not injustice and tyranny, but justice and equal liberty and opportunity for all. Abraham Lincoln said: "Inasmuch as most good things are produced by Labor, it follows that all such things of right belong to vicious system is soon abolished, before those whose labor has produced them. the masses have become too impover-But it has so happened in all ages of the ished and debased, too ignorant and disworld that some have labored, and others have without labor enjoyed a larger proportion of the fruits. This is wrong and industrial and political system. Now, should not continue. To secure to each what does Socialism propose in its stead? laborer the whole product of his labor, It proposes collective, national ownership

ance. Not only did state organizations thus place their stamp of approval upon the Alliance, they also actively furthered the propaganda for it. National organizers, state organizers, Sections, and individual members at all times urged workingmen and trade unions to organize under the banner of the new trade union. But the A. F. of L. leaders hercely resisted the advance, and stopped at nothing, fair or foul, to hinder its progress. As may be imagined, an uphill fight lay before the new organization. (Let it be understood that a stubborn contest will ever confront the effort to give the workers a sound organization, a thing which yet must be done.) Despite the storm raging around it, the Party and the Alliance forged ahead gloriously, so much so that, whereas in 1896 the party received 36,000 votes, two years later it polled 82,000. In the face of this fact of progress there were some who lamented that the party's endorsement of the Alliance was checking the growth of Socialism in the country. But there were interests in the party

centrally organized pure and simple trade unions. The affiliation, or rather amalwho could not stand the pressure. Newspapers, such as the New Yorker Volkszeitung and the Philadelphia Tageblatt, who drew largely upon the A. F. of L. unions for revenue, at first covertly opposed the Alliance, and then became more open and pronounced in their hostility to it. They gathered about themselves. a weak-hearted, weak-kneed element who shrunk before the fury which mittee had been appointed to revise the There is no need to reproduce the de-the labor fakirs raised. In July, 1899, constitution of the C. L. U. At the ses- cisive arguments which were advanced

could successfully cope with the ca ist class and eventually overthrow it. In pursuit of this object the new organization availed itself of forms and methods then in vogue in the Knights of Labor and in the Central Labor Federation, as shall be shown, and it will be seen that it was far from being the creation of one man's brain, as assiduously but falsely charged by opponents.

Events Before the Alliance.

Boring from Within and Results.

It must not be thought that it was

to the C. L. F. organisations and to

those others above mentioned that the

demand for New Trade Unionism was

onfined. The Socialists in all trade

unions, in the American Federation of

Labor as well as in the Knights of

Labor, were veritably moving heaven

and earth to line up those organiza-

tions for class conscious political ac-

tion. They succeeded to the extent of

"foreing the horse to the water, but not making him drink." Their ad-

vance was carried so far in the A. F.

of L, that at its Chicago convention,

1895, a plank, "Plank 10," was intro-

duced, which was regarded as a prac-

tical declaration for Socialism. The

the submission of that plank to a ref-

erendum vote, and despite the desper-

ste tactics of Gompers and his pals,

che clause. All that remained was for

the following year's, 1894, convention,

to stick it into the constitution, but

instead of so sticking it, the fakirs

in the convention, by a series of man-

ipulations, threw it out. That was the

high water mark of the Socialists

"boring trom within" the A. F. of L.,

this policy had reached its climax and

demonstrated that it wouldn't work.

But this occurrence gave the New Trade Unionists an additional argument against the dishenesty and corruption

of the pure and simple leaders, and

In the Knights of Labor the So-

stalist elements fared no better. They

were able to force things up to a cer-

tain point, and then the corrupt lead-

ers resorted to all the trickery and

treachery that desperadoes are capable

of. The Socialists were cheated out

of their rights, and there remained

nothing else for them to do but re-

nounce the organization. That was

The story of the Socialists' advance

in the Knights is briefly this: Pow-

derly's downfall as Grand Master

Workman was accomplished under So-

cialist leadership at the Philadelphia

Assembly in 1898. At about the same

"It is as every manager knows, a very bad state of affairs where there are no spare hands in the district, no reserves to call out and there is the constant danger that his men may be tempted away from him by some other employer who is also short handed. Dearth of labor must be regarded as a worse evil than a fair excess of it."

In capitalist society, the workers are not treated as human beings, they are mere "hands," living merchandise bought and sold in the labor-market. Wherever there has been in human society a class living in luxurious idleness there has been as its counterpart a class of slaves whose labor has produced the wealth which their masters consumed. In capitalist society the industrial wage workers pour forth their energies in the mines and the factories, on the railways and the land, their lives are converted into a swollen stream of wealth which flows to the parasitic owners of industry.

THE ARMY OF THE UNEMPLOYED

	Worse followed With Martin's ac- not "come down upon us full-fiedge	one from J. F. Tohin, the other from J. M. Barnes, both of whom spoke at the Cooper Union meeting launching the Alliance. In their letters these men claim they had no knowledge that an Alliance was ever contemplated. Reports in <i>The People</i> show a different tale. The Cooper Union meeting was held. Decem- ber 13. <i>The People</i> shows that BARNES WAS PRESENT AT A MEETING OF THE C. F. L. ON DECEMBER 8, when a report was rendered that the General Executive Board had decided to adopt the following name for the new progressive International Union: "SO- CIALIST TRADE AND LABOR AL- LIANCE OF THE UNITED STATES AND CANADA.'" See <i>The People</i> , December 15, 1895, page 4. So much for Mr. Stone and his story. It is all buncombe. Millquit's "Surprise." Let us now turn our attention to the other "historian," Mr. Hillquit. As pre- viously stated, Hillquit in his "History" page 323, alleges that the S. T. & L. A. was sprung as a surprise upon the So- cialist Labor party convention of 1896. If such a charge has any meaning at all, it means that the delegates were unpre- pared for the submittal of and action	urged combined economic and political action, and further, they supported the Socialist Labor party; the Socialist Trade and Labor Alliance likewise de- clared for that position. We have seen that as early as 1890, the Central Labor Union, through the insistence of the So- cialist members, adopted a clause where- by delegates were forbidden to allow their names to be used as asset by the old political parties; the S. T. & L. A. inserted these clauses in its constitution: "Any affiliated organization, or any of- ficer thereof, that may endorse or in any way support any candidate of any political party, other than the Socialist Labor party, shall be expelled by the General Executive Board. "Any member of the Socialist Trade and Labor Aliance who accepts nomina- tion for office from any political party, shall be immediately dropped from the roll of membership." In all essentials, the Alliance was built upon the progressive measures which had preceded it. For men to come out and claim that the matter of launching the Alliance was otherwise, is to lay-them- selves open to a total dismissal of confi- dence in them. What additional charges have been	iel De Leon" above mentioned. This report is an invaluable document, ex- posing in full the reeking corruption of a conscienceless band. It should be read by all who would understand the nature of the labor fakir. ²⁶ There is a lesson in these facts which should not be lost. The S. P. organs with their fondness of urging the policy of confining one's effort to boring from within the A. F. of L. un- ions to make Socialists out of them often argue that though the leaders are cor- rupt, it is not them whom it is sought to convert, but rather the rank and file. At best, this is a specious argument. THE LABOR FAKIRS WILL NEVER PERMIT THEMSELVES TO BE BESTED; THEY WILL DISRUPT AND START RIVAL UNIONS if the Socialists should anywhere get control. The history of the S. T. & L. A. proves this, and also that of the I. W. W. To cite only one instance in proof, the Schenectady strike of the I. W. W. in 1906 demonstrated that while the A. F. of L molders were sympathetic with the strikers, the labor lieutenants turned up and threatened a rival molders union if their union cast its lot with the I. W. W. Their threat had its effect. ²¹ See Parliaments of Labor, in The	NAME NAME NAME NAME NAME Image: A strain of the strain of

SATURDAY, JULY 30, 1910.

Be a firm believer in TIME and PATIENCE. -BUCKLE.

AN INCAUTIOUS PARSON.

Charles Stelsle, Superintendent of the Presbyterian Department of the Church of Labor, has launched upon the troubled waters of modern society a book entitled "The Church and Labor," which, if ministerialdom, especially that portion of the brotherhood that is militant against Socialism, know what is good for them, they will quickly recall. It is not that the Rev. Stelzle's book is directly in the interest of Socialism. Not that; "quite to the contrary and Indirectly, however, the otherwise." work gives mighty aid and comfort to the Socialist in that it knocks down the underpinning of the aforenamed milltant reverend brotherhood.

What is the principle upon which the capitalist pulpit takes the field against Socialism? It may be condensed in a few words: "Socialism does not hew to the line of God." A posture like that has its strength. There is a deal of strength in a position that is negative, and mystical, to boot. Spooks are proverbially invulnerable to blows. Tho' the strength of such positions can only be transitory, so long as anyone shoots from behind such shelter he is pretty safe himself from return shots. It should seem that the capitalist parson would be the last to tear down so convenient a breastwork; time enough when the breastwork dissipates by virtue of its own flimsiness-one should think. The Rev. Stelzle incautiously thinks otherwise.

"The Church and Labor" handles "the church," meaning of course the deity, in a way that leaves nothing for the capitalist parson to stand upon, nothing behind which to shelter himself. The book declares that, if the Church is to hold its place with Labor, it must take its place in the Industrial Democracy. When that is said, what is left of the allegedly sacrosanct principle behind which these gentlemen are in ambush? Nothing.

A deity that must adapt itself is contradiction in terms. The essential feature of deity is that all things must adapt themselves to it-or be forever the country is informed that the new administration is going to furnish the city with clean streets .- Dirty streets is not a cardinal feature of capitalism. The country is informed that the new administration is going to see to proper tenement-house inspection.

-Rat holes for people is not a fundamental principle with capitalism. The country is informed that the new administration will put an end to graft at the City Hall .-- Without graft capitalism could live, love,

laugh and enjoy life. The country is informed that the new administration will render the Cream City a lovely place to live in. -The rise of land values with the consequent rise in rent is no fatality to capitalism.

The new administration promises lower fares. Cheap living is not only not a thing that capitalism objects to, it positively dotes upon the same. The new administration promises

free music in the parks .-- Capitalism is no foe to music. And so forth; and so forth; and so

forth.

While clean streets, decent homes, absence of graft, a pretty city, low fares, music on tap, etc., etc., etc., are all of them things that do not deny

capitalism, neither must it be denied that they contribute to the amenities of life; that, as such, they are desirable; being desirable, they are worth striving for; and that, striven for and obtained by men who look upon them simply as stepping stones for a far more valuable goal, they are aidful in the attainment of the same. Accordingly, a program made up of such good things as the Milwaukee S. D. P. promises, may be legitimately part of a revolutionary Socialist Movement, constituting the extreme "Right Wing" to a "Center" and extreme "Left Wing" of a body on the march to the overthrow of Capitalism. The feature of the S. D. P. is that together with the whole of the S. P. it is "Right Wing" only. Thus the whole party is all "Right Wing"-a monstrous lame duck.

THE BLACKLIST ON THE ZONE. Circular No. 315, issued by the Isthmian Canal Commission, from Office of Chairman and Chief Engineer, and dated Culebra, Canal Zone, March 24, 1910, sets forth as follows:

"It is reported that employes discharged for cause by the different Central American Railroads, particularly in Costa Rica, are making a practice of coming to the Isthmus to obtain work with either the Commission or Panama Railroad. Such practice is detrimental to all concerned. Hereafter any such applicants for work on the Isthmus shall require to show their service records, and if they have been discharged for cause by any Central American railroad they shall not be employed.

"GEO. W. GOETHALS, "Chairman and Chief Engineer."

sentially the identical handful of in-

dividuals who also own da facto the

Canal industry. All the same the

whyness of the wherefore illuminates

contrasted with the goods, referred to Canalling and the like certainly is as "black," paid for services. Accordingmore obviously an "industry" than ly "black mail" in its early conception, the Army, the Navy, or even the Post Office. The Canal Zone industry is implied barter. Usage presently turned the term into one word, and, with the pre-eminently a nationalized affair. By the X-rays that it sheds the inchange, blackmail acquired a technical wards of things capitalistic are exsense-the sense of payment in cattle hibited to sight. Circular 315 anfor the service of finding and returning to their owner cattle that had strayed swers the purpose of such an X-ray. The blacklist, applied within the from the fold, or herd, into the highland brakes of Scotland. country itself, is a penal offence on the course, the statute is more honored a second. Anxious to be kept in jobs, or, rather, anxious for the returns that in the breach than in the observance. the job yielded, some highlandmen made Nevertheless, for one thing, it acts somewhat as a check: for another it a practice themselves to distrain catthing, and above all, the very enacttle, thereupon to "find" the same, and drive them back to their owners, who ment of such a statute places the seal of condemnation upon the practice of then paid the officious "finder" the blackblacklisting: it enters the blacklist on mail customary for his legitimate servthe scroll of public offences. This ices. In this second sense "blackmail" carried with it the implication of extornotwithstanding, the Chairman and Chief Engineer of such a national intion. It was from this second and peculiar sense that the word passed into dustry as the Isthmian Canal is seen calmly, coolly, and as a matter of high its present meaning, the criminal act of threatening injury unless bought off. The morality, affixing his signature to a blacklisting decree; and thereby creatspeech of the Illinois Representative Charles E. Fuller, delivered on May 14 ing not an ordinary, but an extraordinary blacklist. The blacklist, reprowhen the Sundry Appropriation Bill was bated in the country, is the blacklist before the House, justifies the conclusion set up by home concerns in aid of one that an appreciable number of Congressanother. It is an internal blacklist. men are at the highlandmen stage of And that is considered iniquitous "blackmail"-engaged in the occupation of themselves furnishing jobs to themenough. The blacklist conjured into existence by the Chairman and Enselves in order to give a color of earning gineer of the Isthmian Canal Comtheir salaries. mission is international in scope. On Representative Fuller touchingly made territory over which the United States the point that the charge of some people to the effect that "Members of Congress has jurisdiction workingmen are to be waste their time sitting around doing refused work and thus punished for having been "discharged for cause" nothing" was unjust. They did work, on foreign territory. hard work, valuable work. He who Of course the whyness of the where doubted that could convince himself of fore is that these foreign railroads his error by footing up the number of are owned by American capitalists; bills before the Congress. "During the not be obtained without committing by, not merely the same class, but 'espresent Congress there had been intro-

thought to have been pulled up by the ed pages": these had to be read, studied, A WORD FOR THE IMMIGRANT roots through the Civil War, is now a flourishing practice, instituted and enforced by the Federal arm itself, intentionally, at that.

"INCREASED EFFICIENCY."

It would seem the working class were perfectly willing to have its head cut off, provided only the ax that does it be gilded, so carefully do the capitalists hunt for honeyed terms in

which to express their increasing exploitation of the workers. One of these honeyed terms, lately to be heard on every hand, is "increased efficiency." "Efficiency" means

ability, capability, power to get things done. Who would not desire an increase in these desirable qualities! But in the capitalist's mouth. "efficlency" means something very different and vastly less innocent. The word also signifies competency to at-

tain a certain result. And what result is it, above all others-nay, exclusive of all others-that the employer seeks from his employes? Why, the production of surplus value-value over and above what it costs the workers to live while producing it,

which the employer can then pocket as "profits." Behind all talk of "increased efficlency" in the mouth of the employing class this idea lurks. Not so often is it frankly stated. Occasionally it slips out. This it did in St. Louis recently, at the annual meeting of the National Association of Cotton Manufacturers, when one Henry L. Ganth climaxed a long account of how he worked for "increased efficiency" in his cotton mill, with the statement: "About five hundred of these opera-

tives are now earning an average ot 40 per cent. more than when I began to train them, and are turning out over 100 per cent, more work." Over a hundred per cent, more work

-that means more than double the strain, more than double the intensity, more than double the physical and mental exhaustion at the close of the day's toil. For this the operatives receive an increase in earnings of forty per cent. Whence goes all the rest

of the fruit of their doubled toil, of their two days' labor in one, for only a little over the pay of one? Into the pockets of Mr. Ganth. To disguise exploitation thus intensified, under the taffyfied name of

"increased efficiency," is but to pour gilt paint upon the ax that chops wage workers into profits. So the long as by submission they invite the ax, the employer will see that they get it. So soon as they rise in intelligent revolt and establish the industrial commonwealth, the day of the ax will end.

CONGRESSIONAL GLEANINGS-OLD STYLE BLACKMAIL.

The word blackmail has acquired meaning not originally attached to it. Literally, "black" "mail" means "payment in kind," instead of payment in money, "mail," which, being bright, was

disposed of: who could justly claim Congressmen were paid for doing nothing?-So spake the cattle distraining highlandmen of Scotland when their services were impugned.

The most important statement, requisite to the vindication of the Congressmen, Representative Fuller failed to make;-the guilelessness of the bills, the purity of their origin, their necessity. Was the omission an oversight? Strike-bills, for one thing, are no un

known things. Quite otherwise and to the contrary. Only this year the Allds case turned up and, soon as disposed of, the lid was let down tight, lest the Alldses be found too numerous for "safe handling." For another thing, the trick of getting up voluminous bills, merely intended to convey an idea of activity on the part of the legislator, is known well enough to have become a subject of public satire. The trick is, on the legislative field, of a piece with the scheme of the industrious quack country doctor, who gave the children of his patients a drink that threw them into fits, whereupon he was called in to cure the kids of the fit he had thrown them into. On the "legal profession" field, the trick is one that John Ruskin brilliantly exposed in the account of the lawyer whom he em-

ployed to draw up a simple document and who filled reams of paper with useless verbiage, thus, a la capitalism, "making something out of nothing." Our legislative halls, Congress leading, are highland brakes for our political blackmailers to ply their trade in.

SERVANTS AND MENIALS.

Thes Hate and Are Hated by the Working Class.

Where a large number of menials are retained, there are many degrees among them. Each individual strives to rise, to' increase his hire, and thereby his own importance over his fellows. Success in this direction depends upon the whim of the master-that is to say, the more completely he succeeds in wiping out his own individuality and the greater his success in outstripping his fellows in this ignoble race-all the better are his prospects.

Again, the larger the income of the naster, and the greater his power 'and distinction, all the more plentiful are the pickings for his menials; this holds good especially with regard to those menials who are held for show, whose only task is to make a parade of the superfluities which their master enjoys, to assist him in squandering his wealth, and to stand true" and "loyal" by him throughout his career of folly and of crime. Accordingly, the modern servant, the breed of menials we now meet wherever large capitalists settle down, is drawn into peculiar relations of intimacy with his master, and he has, as a matter of course, developed into a secret foe of the exploited and oppressed working class;

not infrequently he excels even his master in the reckless treatment of them. The master, if he has any sense at all will not kill the hen that lays him the golden eggs; he would preserve her, not for himself alone, but also for his successors. The menial is not held back by any such considerations: like the cunuchs, he has no postelry.

The characteristics of the menial are nowever, detected not alone among the propertiless people from the lower classes, but also among those of the uppe classes. The aristocratic and the plebeian lackey go hand in hand. No wonder there is nothing the people hat more heartily than the flunkeys, the lack eys, the menial class, whatever their extraction, whose servility toward the upper and brutality to the lower ranks of ociety are fast becoming as proverbial among us as they are in older countries. The words "lackey" and menial" already convey the meaning of the very essence of vileness. NO "TRIMMING." Exploitation Can Only Cease with Establishment of the Socialist Republic. Under the rule of the capitalist system co-operative production for use cannot ecome general. It is impossible to introduce the co-operative for the purpose of supllanting the capitalist system of production while at the same time keeping the latter in force. This self-evident proposition establishes the fact that the socialist system of production must be the inevitable result of the triumph of the proletariat. Even if it were not consciously to use its supremacy in the State to recover possession of the machinery of production, and to replace the capitalist with the socialist system, it would be compelled to do so by the logic of events, although in that case the result would many mistakes, incurring much sacifice, duced in the House 25,897 bills and in and squandering much time and energy the Senate 8,219, making a total of The end of it all will be the socialist 34,116": these bills, rarely short, were system of production. Its triumph is often voluminous: the very bill then unavoidable just as soon as that of the the fact that the Furtive Slave Act, under c.naideration "contained 189 mint. I proletariat itself has become unavoidable.

Once before, when considering the unfavorable opinion that, no doubt having his eyes on the "New Yorker Volkszeitung" personnel, the Social Democratic member of the Reichstag Legien expressed upon the emigrants of Europe to America, the Daily People took occasion to point out the injustice done to our immigrants by such sweeping condemnation. The case of the United States Senator Lorimer furnishes the latest opportunity to come back upon the subject.

There are two sets of pasteboard speeches that our Republican and Democratic politicians make on immigration. One set contradicts the other. Each is used according as the maggot may happen to bite the speechmaker. On this subject it happens as on the subject of taxes. When Labor organizes itself to elect its own representatives, the politicians look sneeringly down and ask :"How dare you aspire to rule; you don't pay the taxes." When the politician wishes to ingratlate himself with the "Labor vote" in favor of some scheme where by to ease his class of the taxes it pays, then he smirks up to the workers with the words: "Upon Labor lies the burden of taxation: vote for me that I may lighten your burden." Similarly in the matter of immigration. When the object is to conceal some native depravity, the politician raves against immigration as a thing that "is dragging down" the country: when the immigrant's vote is wanted, then the cue is to laud immigration to the

skies. Which of the two lines of oratory is false, and which true?

Upon the usefulness of immigration, in the present as in the past it should be superfluous to enlarge. Without the immigrant the country would have halted in its progress. That sociologic fact is too well established, and has been too often dealt with in these columns to need repetition. What has not yet been sufficiently dwelt upon is the seemingly incredible fact that to a very perceptible extent, not the

immigrant drags down the country, but the country (through leading representatives) drags down the immigrant.

It may not be to the immigrant's credit to say that at his "native heath" he thinks of America as the sublimation of all that is lofty. Whether it be to his credit or not, the fact remains that such is the average immi grant's conception of things. It is in pursuit of such high ideals, and animated by them, that the average immigrant "pulls up stakes" at home. crosses the ocean, and lands upon our shores. It does not take long before his ideal is shattered. The shatterer is the native of distinction.

Not quite seven years ago, the contest in the House of Representatives. over the seat of an incumbent from a mining district of Pennsylvania brought forth a mass of documentary evidence convicting the incumbent of having bought the votes of Italian laborers by the droves. The afflants swore to the length of their residence in the country. Hundreds' of them had been here less than one year, some only a couple of months, none the requisite five. They swore they re ceived the money and voted, because the candidate whom they took to be a representative American, a man of wealth and position, told them "it was

To the ignorant barbarian it comes not as the white-robed evangel of love all right." Other instances of this nature will recur to any one at all informed upon events. Needless to say that in all such instances the immigrant is disillusioned. Obvious are the consequences. powder. Such is the foulness of our untrammeled capitalism, as so conspicuously illustrated in Senator Lorimer's case. that the corruption filters down to the immigrant. A mossible element of "new blood." the immigrant is decomposed speedily upon his arrival Brought face to face with native depravity, in high places, he, not instrenuous entreaties. frequently, Ah Sin-like outstrips his It was shown again when Christian corrupter. France and England joined forces with

Generously Support the Press Their Enemies, the Employers.

It is absolutely indisputable, posltively undeniable, that the position occupied, power wielded, and incomes derived, by the whole of the press of this State depend, either directly or indirectly, upon the assistance, toteration, and support of the great toiling masses.

Yet it is said that the workers are intolerant and selfish.

Surely there is nothing more needed to prove this to be a heavy, old lie than the fact that the toilers tolerate and even support that portion of the country press which fawns on, then flatters, crawls before, cringes to, and caters for the sweater and tyrant, and which follows the lead of the broadsheets of Capitalism, and clamors and cries for the jailing of oppressed workingmen who dare to demand the right to protect themselves against tyrannical taskmasters.

By the beard of Mahomet, the workers are not very intolerant or selfish, neither are they wrathful or vindictive; they are, on the contrary, slow to anger and very long-suffering. Methinks they are far, far too forgiving and generous, or long ere this they would have dealt with some of those unprincipled proprietors and country editors.

Those obedient flunkeys of Fat whose bed and bread is paid for with the workers' pennies, are like wild dogs that bite the hand that fed them. They would, if they could, deprive the worker of every right and privilege: they would deny him his manhood, destroy his independencey, and deliver him bound, body and soul, into the cormorant claws of the capitalist combine.

These pitiable pen-pushers and hysterical hypocrites who fill the columns of the country slobber sheets with despicable lying assertions, would soon make of the workingman a subservient, submissive slave, which is their Fat Master's idea of what the worker should and shall be.

For many many years these sycophantic paper men have been batting on a nice, soft, velvety wicket, while the tollers have been playing the game with their eyes shut; but the long innings are now drawing to a close. The day is not far distant when the umpire-the People-will cry "Out"; for the workers will take the field with their eyes open.

In the meantime, support the Revolutionary Socialist Press.

The Religion of Plutocracy-The Dollar Its God.

So overmastering is the influence of the modern Empire of the Money Power that it overrules religion itself, which men declare to be the supreme guide of their conduct. Our civilization professing the principles of love. returning good for evil, and self-sacrifice, presents in reality a policy, within and without which reverses these

judge down in Virginia declares that trade unions are treasonable; that they violate the land's fundamental principle of freedom; that they restrict their membership from hiring themselves out at whatever wages they please; that, consequently, they ought to be smashed. What's the matter with the fellow? Is

UNCLE SAM-No, he is not a jackass; he is simply a hired man of the capitalist class, put there by the capitalist class of labor fleecers and the labor fakirs who act as lieutenants of the capitalist class to twist the Law so as to get Labor always on the hip, and to

blind its eyes with the dust of freedom. B. J .-- In what way? U: S .- You will admit that to prevent a man from selling his vote is a restriction of his freedom?

B. J.-That it is.

U. S .- And you will admit that it is proper to put that restriction upon him lest the suffrage be utterly demoralized? B. J.-I see that.

U. S .- Accordingly: a "restriction of freedom" is not in itself wrong. It may be perfectly right. If by such restriction the welfare of the commonwealth is preserved the restriction is beneficial. B. J.-I see that.

U. S .- Accordingly, the question to be considered in each case is. not the abstract question of freedom or slavery, but the concrete question, whether a specific action is good or bad. If it is good, then to restrict it is wrong, is to interfere with freedom; if it is bad, then the restriction of it is right, because freedom aims at the happiness of the masses, no act that would interefere with that promotes freedom. B. J: nods assent. .

U. S .- Now, then, test the action of

a bona fide Trades Union by that principle. Do you not see that if one man is willing to work for lower wages than others he thereby lowers the happiness of all? If that one man chooses to cut off his own nose no one might interfere. But if the cutting off his own nose would compel others to do likewise, then his operation ceases to be his private business, and becomes the business of all others. Ain't it?

.1 B. J .- Yes, by Jove. But why, then, is that judge so dead set against it? U. S .- For the reason that I have already given you. He is not deciding an abstract question of freedom. He pretends to; but that is only swindle. What he is deciding is a concrete question of happiness.

B. J .- Why, then he should not be against it, but for it. U. S .- Not so. He is a capitalist of

UNCLE SAM AND BROTHER JONATHAN-Here's a

BROTHER JONATHAN.

he a jackass?

a misnomer; and when such a deity is itself declared to be in danger of losing hold," what the declarer does in fact is to admit he was an impostor when he presumed to speak in the name of the deity, and, in the name of that deity, uttered his anathemas. No doubt the Rev. Stelzle's conduct is

natic. No doubt he acted obedsympt ent to that evolutionary law, which he probably denies but which he unconsciously renders homage to. No doubt the evolutionary process is eating up the ground from under the Rev. Stelzles. All the same, such an uttersuce as that of "The Church and Labor" is incautious. With no mysticism behind which to shelter their grossly material interests, what is there left for the capitalist parson but to surrender at 'discretion to Socialism ?

ALL "RIGHT WING."

No same man, if he is honorable, no honorable man, if he is sane, will judge a Democrat, or a Republican, by what the other says of his party. Each must be judged by what he himself says and does. It is so with the Milwaukee Social Democratic party and its Socialist party at large. Never mind what the Milwaukee Republican and Democratic candidates said during the recent campaign in their city t the S. D. P. What did the S. D. P. Itself say, and what are it and its S. P. at large saying and doing That is more to the point.

Tram Milwaukee S. D. P.

Before the immigrant can be fairly charged with "dragging down" the country, the native in high places must be convicted of dragging down the immigrant.

The proletariat is bound to use its triumph for the abolition of its own exploitation, and that it can never accomplish without establishing the Socialist Republic. The economic and political development itself, noticeable to-day in the large capitalist undertakings-the combinations, syndicates and trusts-point the proletariat the path to Socialism and push it in that direction.

This stage of economic development which we have reached is certain to render abortive all attempts the proletariat of any country may make to move in a different direction, in case it should be disinclined to adopt the Socialist system of production.

and peace, and good will, but as the pedler of gin and calicoes, and it forces its way through dark continents, not by the irresistible power of the Gospel, but by the free use of gun-

doctrines in practice.

That the Money Power, not the Christian Church, is the ruler of the world was shown for instance, when the Christian nation of Great Britain, in order to make a market for

the pagan government of China to

put down the Taiping rebellion, which

was a Christian movement, and, but

that it was so snuffed out, would have

put China in the ranks of Christian

In its internal administration the

Money Power divides each nation into

two tribes, rich and poor. These

halves pretend to be brothers, but in

violation of every rule of brotherhood,

one lives in luxury and superfluity at

the cost of compelling the other to live

War was the trade of the Roman:

trade is the war of the Money Power.

The Roman sought to achieve his uni-

versal dominion by slaughtering his

nations.

its opium, compelled the heathen Chinese at the cannon's mouth to become opium eaters against their own most

U. S .- Now you will understand why that judge decides as he does. He is deciding in the interest of the class that he represents-the capitalist class. The interests of that class are to demoralize the working class so as to keep from them ever larger slices of the workers' product. Hence he declares that the conduct of these Unions is repugnant to freedom: and so it is-to the freedom of his fleecing class of capitalists. B. J.-But that's horrible.

U. S .- So it is: and won't be other wise until the workingmen kick these capitalists out of the public offices, and , elect the Socialist Labor Party. Then freedom will be interpreted the other way, the right way.

The New York Labor News Company is the literary agency of the Socialist Labor Party. It prints nothing but sound Socialist literature

ficial. He therefore interprets things from the standpoint of capitalist interests. The actions of these unions would cause them to receive higher wages. Now where do wages come from?

B. J.-They come from the product of labor.

U. S .- And where do the profits of the capitalist come from?

B. J.-Also from the product of labor. U. S .- Does it not, then, follow that the higher the wages of the working people, the lower must be the profits of the idle capitalist class?

B. J. (striking his forehead)-That's

THE PEOPLE PRYING THEM LOOSE. To the Daily and Weekly People :-With the assistance of Olsson and others we succeeded in landing 21 subs during the past week. Two of these are for the Jewish Party organ, one for the German, and the rest for the Daily and Weekly People. Two street meetings were held on the corner of 12th street and Pacific avenue. Olsson opcued both with a short talk. While we had a good audience at each meeting the sale of literature was only fair; 65 special issues of the Daily People were sold, and 14 pamphlets.

Two more street meetings will be held during the coming week, and we hope our literature sales will be much better. Three new members were added to Section Tacoma at the last meeting, and

another will be taken in at the next. The wage slaves in the Northern Pacific Railway shops at South Tacoma are getting a good taste of "Prosperity" just now. Some two hundred have been laid off, while those at work are only putting in 5 days a week.

Religious hypocrites are used by the company during the noon hour to chloroform the minds of these poor slaves into submissiveness and contentment while they are suffering under the yoke of capitalism and wage slavery. But the boys in the shops are catching on to these gentry, and a good number of them are now steady readers of the Weekly People.

Another week's work will be put in in Tacoma, and with the actives all hammering away a good batch of subs is Chas. Pierson. assured. Tacoma, Wash., July 15.

WAY PAVED FOR RIFLE DIET.

To the Daily and Weekly People:-There has been much indignation expressed in "labor circles" here over the threatened action of Governor Gillette, to send troops into the city to stop the prizefight. While this event has passed into history, the important significance of it has been totally overlooked.

Governor Gillette acted wholly within his rights, and could legally have sent troops into the city, even over the protest of the mayor and chief of police. The law which gave him the right was passed by the last legislature, without disturbing the "guard-'lans of labor's interests" from their worthy activities in resenting the Japs. Section 1917, political code of California, declares that the governor may send troops at the request of the mayor of a city, and withholds his right or initiative in the matter. This has been amended to give the governor the right to send troops, whenever the Governor is satisfied that the execution of civil or criminal process has been forcibly resisted in any county or city . . . or that the officers of said city . . . are unable or have failed for any reason to enforce the Socialist agitator and politician, being now a member of the Dominion technical educational commission, traveled from Toronto to Ottawa yesterday in a private car. We venture to predict that when James returns from his travels his Socialism will be of a less radical and uncompromising type than it has been."

This Simpson is a member of the so-called Socialist party of Canada. He ran for president of the Trades and Labor Congress but was defeated. He is a spare sky-pilot, and also a temperance spieler. The "Herald" is anti-Socialist and it boosts Jimmy as "uncompromising" knowing very weh that is not the case, and probably in the near future he will be hailed as a man who has seen the error of his uncompromisingness, and has become more up-to-date. The "Herald" could say that of him now, but I suppose the opportune moment has not yet

arrived to "swat" Socialism. H. Simpson. Hamilton, Ont., July 15.

PROTEST AT THE LITTLE THINGS. To the Daily and Weekly People :---The most remarkable thing about the

recent Johnson-Jeffries fight is the protests against it on account of its brutality, mainly from preachers and sentimentalists, who are always looking at these little things with miscroscopes. and who look at the maiming of the wage-slaves with blindfolded eyes.

Johnson made \$100,000 in less than six months, and is to-day happy and in good health, without any of the ailments which afflict the wage slaves. It would take a wage slave getting \$1,000 per annum 100 years to earn \$100.000; and as for the average wage slave at \$500 per annum, it would take him 200 years to earn \$100,000. In the case of child labor, the time necessary to earn this amount would run up from 300 to 500

vears. There is more brutal cruelty in wage slavery, with its broken bones, amputated limbs, cuts, bruises and violent deaths, than in all the prize fights put together .- For brutal ferocity, all the prize fights and football games put together cannot compare to the Cherry, Ill., mine disaster. With all the Cherry brutality, how many of the preachers and reformers protested, how many appealed to their respective State Governors to end this brutal, wasteful sacrifice of human life?

I may safely say, not one!

This shows that the working class has nothing to expect from these social tinkers and reformers, neither are they necessary to the working class movement. If the wage slaves wish to abolish these brutal conditions they must organize on the political and industrial field in the Socialist Labor Party for the overthrow of the capitalist political state, and in the bona fide Industrial Workers of the World to resist the encroachments of the capitalist class, to shorten the hours of labor, raise wages, or secure a general improvement of the conditions of the working class while it is marching on to

Slave No. 5. Hamilton, Ont., July 8.

its emancipation.

The second in command, Neff, got up and denounced the Weekly People as a "dirty lying sheet, which only skunks read." This torrent of foul abuse lasted for five full minutes till his steam ran low. Then the innocent bystander Even Berger, in an editorial in the got on the box and calmly and coolly Social Democratic Herald of June 9, urged his hearers to suspend judgment admits that even "some of the Aldertill they heard all about the other side. men have lost their Socialist class

And they could not refute him. This is a choice sample of I'm-a-Bummism. The whole game can be seen through by any intelligent man. The Socialist Labor Party, in exposing this bunch of contemptible imposters and frauds, is doing a valuable work. Alex. Ramsay. Duluth, Minn., July 5.

AN AMPLIFICATION

To the Daily and Weekly People:-In the Weekly People of June 11 Henry Kuhn writes of the S. L. P. vs. the S. P. In giving the career of the S. P. he leaves out one of the most important features. He mentioned only two wings of the S. P. the "Volkszeitung" and the Debs Social Democracy. The most important feature in the

career of the S. P. is the "Appeal to Reason," formerly the "Coming Nation." It is true that at the time of these three fusing the "Volkszeitung" and Debs Democracy were both organized, while the readers of the "Appeal to Reason" were not. Yet these readers were larger in number and covered a greater scope of country. These readers had no connection with the Debs Democracy of the "Volkszeitung." Previous to this fusion the "Appeal to Reason" or rather the "Coming Nation," had established a colony in. Tennessee, called the Ruskin Colony. The "Coming Nation" was moved from Greensburg, Ind., to this colony. Every student knows it sudden birth, its short life and equally sudden death. As they wanted "Socialism now," and their colony that was to deliver Socialism to-morrow had burst, all the "Appeal to Reason" readers tumbled head over heels into the fusionated S. P. They thought if they couldn't colonize Socialism, they could vote it. In my travels I have met several of these old colonists. They were a frightful motley of reformers. The colony had a crank for every cranky notion. Wayland deserted the colony to its fate of confusion. He afterwards started the "Appeal to Reason." of which he is now editor. His colonization having failed, he worked his vast number of subscribers from a frenzy of colonization to a frenzy of ballots. And now it seems he's working them to a "frazzle." The number of readers of the "Appeal to Reason" is larger than gen-

erally supposed. Though very confused, they are all enthused. Many of them seem to look upon this paper as a second edition of Moses. I find that in the states of the Mississippi valley the S. P. locals are nearly all composed of "Appeal to Reason" readers. The saddest feature is that the leaders in these locals are generally void of economic knowledge, and always imagine themselves very wise. From contact I find this element to figure the most

MILWAUKEE S. D. P. SHOWING UP ITSELF.

To the Daily and Weekly. People:-The calibre of the Milwaukee Social Democrats has again been shown by ree of their

a light upon them, but also upon the of filling in it. This doctor was applauded for three minutes, and one old members of the ward branches that nominated them for office. These pilot, who has seen considerable servward branches, again, represent the ice, was heard to say "The blessings whole Milwaukee S. D. P. of God on your head.'

The Socialist captains and pilots felt good natured and happy; the doctors had prescribed different medicines for the party, most of it to be taken beconsciousness-if they ever had any." fore eating. But the speech which While Berger confesses that much, he caused the most trouble in the conmay as well confess that some-such gress was made by a doctor of law as Mikkelson, etc.-never had any from Chicago. In fact he spoke in a way which "provoked" everybody, and It is a good thing that the S. D. P. some of the respectable captains and succeeded in this town, for already pilots said he should be put out, as he they are a mass of contradictions. If was a professional prevoker. He had ever the true calibre of the S. D. P. the nerve to call a Socialist party pilot was shown, it is being done here, by from the state of New Jersey a "grafter." He said he was drawing salary Berger is being put in a queer poand expenses from the deck hands. sition. He must try to be a Socialist, when he was selling them gold brick but will be forced to admit the failstock and bonds, which were floated by a New York promoter. One doctor By the way, the prices of commodisaid it was a dirty shame to "provoke" ties are just as high now as they were and disturb a harmonious meeting before the S. D. P. captured the city, with such charges; that even though despite their talk of reducing high prices. the deck hands were swindled on some Albert Schnabel. gold brick stock they had the consolation of knowing that the money went to a comrade and member in good STRAY LIGHTS ON THE "CONstanding in the party.

But the best work was not done by the congress as a whole but in a private meeting after the congress adjourned. The owners and editors of heard the question asked on all sides "Socialist" papers got together and and from all quarters, "What is the asked the question. "Is there anything the matter with our papers?" An editor from New York, said: "Yes." Some of the Socialist papers published and taken by the poor old patient to-day, he said, were responsible for from time to time, as well as having the horrible condition of the Socialist party. He said they gave space to on her in different states. Still the every knocker and kicker from Maine to California: that every Socialist paper which ran an open, forum column had starvation, bankruptcy and suspension staring it in the face, while such papers as the "Appeal to Reason." the Milwaukee "Herald," and "Wilshire's," which never gave an inch of space to kicks, were able to keep their heads above water and make a little money. He said that party matters could be discussed in the papers, but none but boosters should be given the floor. Those views were thorough woman that did not attend them ly endorsed by all owners and editors of Socialist papers who were present. it is safe to say that it was the best And that they put those ideas in practice was shown by the fact that not a kicker has shown his nose in the Chicago Socialist since the "congress" adfourned, so that it is impossible to tell how the medicine prescribed worked on the poor old patient, as none but favorable bulletins were sent out by the doctors from the bedside. But in all fairness it must be said that if the deckhands want to go into muckraking or bellyaching in the future, they can go into the forecastle, or lower decks and kick to their heart's content.

So there you are. W. J. McSweeney. Chicago, Ill., July 6.

EXPERIENCES IN THE STEERAGE. The other doctors applauded this, To the Daily and Weekly People :and threw off their coats and gave remedies good, bad and indifferent for Having crossed the ocean a number of an hour or more. A doctor from New times as steerage passenger, I have made York said that there were too many experiences which were anything but empty phrases used by the Socialist party, such as "Workers of all counpleasant. On my last trip and also three tries unite." etc., when in reality Marx years ago I made the voyage on the only meant that the workers should Holland-American line. The treatment unite in the union of their craft and of the steerage passengers was simply the party of their class. He said that shameful, and one, wonders how things if this was made plain to the workers,

nor who early in 1892 signed the 10 hour railroad bill, and who a few months later poured the militia of the State into Buffalo against the switchmen who struck to enforce the law which the railroads were violating.

C. K., SAN JOSE, CALIF .- Since you understand French-Koch, "Tableau des Revlutions" would be the best work to read. It virtually is a condensation of the history of Europe down to the 18th Century.

S. A., SAN FRANCISCO, CALIF .-The report of the Senate Committee to investigate prices is utterly unreliable. First of all the leading spirits on the Committee have an interest in shielding the tariff and throwing the blame on the farmer. In the second place, these same spirits realize that they cannot take the gold argument with safety. Were they to take up the argument about the depreciation of the value of gold, then they would have to make the Socialist argument of Exchange Value-a perilous argument to capitalism. The campaign of 1896 compelled the capitalists to make the argument, hence that campaign was really the most dangerous to capitalism. On the one side the Bryan free coinagists attacked the ethics of capitalism; on the other side, the topcapitalists gave up their bogus science and fied for refuge to Socialist economics against the economic absurdity of Bryanism.-Next question nex week.

"READER." PROVIDENCE R I-The St. John-Walsh-Trautman-Foote-Wilson-Heslewood, etc., concern has no more "Industrialism" in it than there is art in a pig's tail. Does the concern demand the abolition of capitalism ?--- So does more than one craft Union, here and abroad. Does the concern advocate physical force only? -So does Anarchy. A characteristic of Industrial Unionism is its form of organization-the Local Industrial Union (determined by the output of a variety of trades), and made up of branches, which, in turn, are determined by the tools used. The above named concern does not organize on these lines: it throws all trades promiscuously together: its spokesmen know nothing of "Industrialism,"

or, if they ever knew have given it up and are working for cash. Most of

to dirty water, meat more like soleleather than flesh-to eat that stuff for ten daps is a trial for the strongest stomach. The only eatable artice is potatoes. Lucky is he who has some money to buy himself some extras. For such service one has to pay \$40, besides that there is a per capita tax of \$4.

Formerly the German lines also left much to be desired, but lately a great improvement has taken place there. It is about time some other lines followed suit. Mrs. Henrietta G. Precht.

GRESS."

To the Daily and Weekly People :-

For the last year or more we have

matter with the Socialist party?"

Different opinions were given and a

great many medicines were prescribed

a few surgical operations performed

patient grew weaker, so that it was

necessary to call a consultation or

congress of Socialist doctors and medi-

cine men, who met in Chicago on the

15th of last May. A great many doc-

tors were present as well as a "pro-

voker" or two, and the trouble with

the patient was gone over and dis-

cussed for six days. Through the

courtesy of some of the doctors the

writer was permitted to attend the

sessions of the congress for three

days, and I will say that the man or

missed the treat of his or her life, as

entertainment that has ever been

pulled off in Chicago in many years.

The doctors, of course, examined

and overhauled the old Socialist party

patient and admitted that the poor old

thing was in bad shape and should

have her "immediate" demands at-

tended to right away. A patent medi-

cine doctor from Massachusetts open-

ed the congress, and called on the

doctors present to state their opinion

of the patient as to what ailed her and

how she could be recovered and gotten

on her feet. A doctor from the state

of Washington took the floor and said

the Socialist party was suffering for

more craft unionism, and "To hell with

the I. W. W."

laws. He may declare the city . . to be in a state of insurfection. and may thereupon order into the service of the state such number of the national guard, etc., etc. The Governor may, at any time thereafter, revoke the proclamation of insurrection, etc., etc."

In the event, let us say, of a car strike in any California city, if the mayor of said city refuses to allow the car company the use of the police department to break the strike, the governor then has the right to conclude that the law is not being unheld. and may forthwith send troops into that city. The railroad and other corporations whose servants frame the laws of this state evidently believe in centralization of power. It is easier for them to own a governor than the municipal officers of every city, and all that is necessary is to invest the governor with such power as will take precedence over, the power of the municipalities.

This is the purpose of section 1917, political code of the State of California, as amended in 1910. Sidney Armer.

Berkeley, Calif., July 14.

AN "UNCOMPROMISING" SOCIAL-18T."

To the Daily and Weekly People: The Hamilton Herald of July 15 says editorially:

PM-A-BUMS IN DULUTH.

To the Daily and Weekly People:-A contingent of the I'm-a-Bums has arrived here and has proceeded in its usual bombastic and noisy manner to organize a Local, No. 64, they call it. The leaders are three in number, viz: Germain, Neff and McCarty, In holding their farces, they proceed in the usual fakirish fashion. "Hallelujah" bum songs and other sickening screeches are shouted. Everything in sight is roundly abused, the Starvation Army, A. F. of L., the Japs, employment sharks, etc. Then the audience is exhorted to join the Bums, at the rate of fifty cents per month dues. A more disgraceful set than these wretches it is hard to imagine.

Last evening an innocent bystander who was somewhat posted on Labor matters, produced a copy of the Weekly People having an account of the L W. W. organization's victory in Detroit. Then the heathen raged; the vials of his wrath were poured upon the head of that "wicked owner of The People, Daniel De Leon," who, by the way, "owned 400 shares of stock in the paper," and similar statements were flung about.

Evidently someone had been passing around Wilson's Address among the faithful, and Wilson was held up to public execration as being a traitor S. P. Aldermen are already victims to the yunion because he accepted a of "parliamentarism." The action of "Jimmy Simpson of Toronto, the position of trusty in the Spokane Jail. I the three Aldermen not only throws

sion of the Common Council party?" would be heard no more. The S. D. P. administration has had some trouble in the disposal of its a full fiedged doctor but who said he city bonds at four per cent. Some of came to take notes, averred that the the trade unions throughout the country, after they saw the predicament the Administration was in, expressed their willingness to buy some of these bonds. One of these unions was a machinists' union (Manhattan Lodge No. 7), of New York city. In a letter to Mayor Seidel and the Common Council, this union lauded the new administration, and referred to past administrations and Common Councils as "grafters" and "graft administrations"; this letter is embodied in the proceedings of the Common Council. During the recent meeting of the Council Alderman Joe Carney (Democrat) made a motion to expunge from the proceedings of the Common Council the terms "grafter" and "graft administration," applied by the Manhattan Machinists' Union to past Milwaukes administrations. Carney is a smooth labor fakir, and he may have felt hurt when the term grafter was applied. He is one of the best capitalist tools in the Council. His motion was defeated. But three

S. D. F. Aldermen voted for the motion put by Carney: Reisse, Mikkelson, and L. Arnold, the latter having already served some years as Alderman. It is thus very noticeable that some

heavy; that the captains and pilots were so thick on the after deck that they were climbing the rigging, which caused a wobbling, and he said there were so many officers and pilots in the after-cabin that their legs stuck out through the windows. He said that the deck hands, whose only mission was to pay dues and assessments. were deserting so rapidly that very soon there would be nothing left aboard the old craft, but captains and pilots. He said that that was what ailed the Socialist party. This man got such a cold reception from the doctors that he was declared out of order by the chair. But a prominent doctor from Milwaukee, who had also acted as a pilot in the past, said that the Socialist party was suffering for nourishment of the right kind: that there was too much gush about class struggle and co-operative commonwealth; that the proper thing to do, he said, was to use all possible means to take the old craft to the municipal flesh pot immediately, then your captains and pilots won't have to depend on deck hands for their rations as at present. . Stand for a "city beautiful." "fair returns on investments." and a "lowering of taxes," and the business men will see that you not only eat regularly, but that the pie has plenty

ke it can go on for years w What's the matter with the Socialis remedy.

A man from Montana, who was not On boarding the ship at Antwerp we had first to pass the "doctor." From the way he acted one would take him for. old Socialist party craft was top a veterinarian rather than a physician. In his eye examination he used the instrument in a manner which made the examination actually a torture. If anyone had any disease, its transmission was very probable, as I hardly saw him cleaning the instrument once during examinations.

I have traveled to and from all the ports of Europe, but never did I find such disregard for the well-being of the third class passengers as on the Red Star Line, although it is they who bring the company its biggest profits. On no line do so many passengers die in passage as on this line, and the papers print the simple laconic item, "Mrs. Soand-So died, leaving five children," or "Mr. Such-a-One passed away this morning." Sea-sickness is a matter of short duration, provided the proper food is furnished, which isn't done; and if one hasn't any money to buy himself catables, he must either starve or force himself to swallow the inferior fare. I personally lived for five days on lunch which I purchased at Antwerp. When that came to an end and I was compelled to partake of the regular "grub," it made me so sick I thought I was going to die.

There is hardly anything fit to eat Bread, baked from inferior and mouldy flour, soup which is a poor second cousin

WEEKLY PEOPLE, SATURDAY, JULY 30, 1910.

Recent "Labor" Victory Still the Topic of Conversation-Roman Catholic Political Machine Threatens Laborites-Sentences Remitted on Workingmen Jailed for Striking.

Burwood, New South Wales, June 4 .-The recent "Labor" victory in Australia is still the enthralling topic here. The local press contains columns of controversies as to whether or not it was the result of a black Roman Catholic vote. Some deny that the "Catholic Press" guides the Catholics, or has the slightest influence. The following information is from the "Catholic Press" of May 12th, last: Total number of shareholders 161 are

made up as follows

Bishops and Priests .. 54, Laymen 107

Board of Directors :- Right Rev. Mon signor O'Brien (chairman); Very Rev. Father Moynagh, P. P.; Rev. Father O'Gorman; F. N. Maloney; John Donedan, J. P.

Excerpt from editorial of same issue: "And now we would offer Labor a solemii word of warning. The League must avoid, as they would a viper, the candidate who is tainted with sectarianism. So far Labor has been free from them but, like rats, finding 'Liberalism' sinking, they are casting their eyes in Labor's direction, hoping to find a safer asylum.

"If Labor tolerates them, and gives them the Labor ticket, then Labor signs its death warrant. We write this deliberately. The Catholic vote can be taken as easily as it is given. Only by selecting candidates of unblemished reputation-candidates independent of secret societies, Orange or Masonic-may Labor hope to look to the future with confidence "

The State elections take place in Sep tember. Premier Wade and McGower the "Labor" "leader" in the State legislature, have already entered the arena through the daily press, and are saying unkind (and true) things about each

other. On May 16 the Wade cabinet decided to raise the "salaries" of school teachers and civil servants and the "wages" of the State Police. McGowen calls this bribery. Wade promises to pass a bill before the election called "Shopkeepers' Saturday Half-Holiday Bill."

Wade appointed a Royal Commission last year on this question. The commission reported in favor, the bill never materialized, but the approaching election makes if a "vital issue."

Wade has also promised a system of railroads to anywhere and everywhere to bring the farmers' produce to market. McGowen calls Wade a political pirate for stealing planks of the "Labor" platform which have been advocated by them for years and years. The warning of the Gracchi has been in vain for these reformers.

The Wade government on the same date decided to release some of the union men imprisoned for striking. W. M. Hughes (attorney-general in the Federal "Labor" government) presented a petition for the release of Hutton (Min-Union) and B
