PROSPERITY IN DETROIT

MEANS ECONOMIC DISTRESS FOR AUTO WORKERS.

Socialist Labor Party Organizer, Re-visited Cramps, Addresses A.M. Meetings in That City—Workers Enlightened and K. L. P. Leaders Hear of Progress in Detroit, September 12.—In "Detroit life is worth living." That's the capital slogan of the city. The political situation in the city is now on such a basis that the workingmen of the city are enjoying the fruits of their struggles. A year ago, there were at least twelve or fifteen pamphlets sold at the Socialist Labor Party office. Now there are only two or three. The Socialist Labor Party is not dead, but it is in a dormant state. It is known that the Socialists have been working very hard, but the results are not yet apparent. The Socialist Labor Party was founded in 1872 by Eugene Victor Debs and others. Since then, it has been active in various parts of the country, especially in the cities of the Middle West. The party has always been opposed to the existing capitalist system and has advocated revolution as the only way to effect a变革. The Socialists believe in the abolition of private property and the establishment of a cooperative society in which the means of production are owned by the workers. The party has always been active in the labor movement and has supported strikes and other forms of industrial action. The Socialist Labor Party has always been a small party, but it has had a large influence. A CRY OF NEED

Under the same title the Berlin "Vossische" published an article last week by E. Kajane, Japanese Socialist, in which he describes the unfortunate condition of the workers in Japan, and the struggle which they must bear out. It will be observed that the general condition of the workers in the various countries of the world is a topic of common interest, and that the struggle which they must bear out is a matter of common interest.

Kajane, a former member of the Social Democratic party in Japan, has been a member of the party for a long time, and has been active in its work. He is a man of strong principles, and has always been a fighter for the rights of the workers.

He states that the working class in Japan is in a very bad state, and that the workers are forced to work long hours for low wages. He says that the workers are forced to work in factories that are filthy and unhealthy, and that they are not given proper medical care.

Kajane points out that the workers in Japan are in a worse condition than the workers in any other country in the world. He says that the workers in Japan are forced to work long hours for low wages, and that they are not given proper medical care.

MARCH OF THE CORPORATION

The INTERNATIONAL

Marching Song of the French Revolution

"Stand up! ye wretched mass who labor! Stand up! ye galleys of slave owners! The march of the corporation

The International

The last to call before the Czar, One man in the ranks, one man in the lead. Shall be the common banner! (Refrain: chorus)

There are no leaders to call upon, Nor God or Man, that leaders may be found. The rich men stand without a dollar, But they can give what is in the world.

On to the free world to free the slave In the spirit of the people everywhere, The rich men stand without a dollar, But they can give what is in the world.

This is the class war, this is the fight Our leaders only know the class war. This is the class war, this is the fight Our leaders only know the class war.

The Proctor is calling for the Light Which is in Your Keepers.

GODfrey S. E. L. P.

The time for thinking is past. We know what we want and how and why. The things we do to bring about the end of our work should be the start. We must stop worrying about how and when we can make our work bigger and better, and start worrying about how we can make our work bigger and better.

GODfrey S. E. L. P.

The men and women of the S. E. L. P. have been working hard all day to make sure that their work is done properly. They are still working hard to make sure that their work is done properly.
