HEART OR THE S. L. P.

So far as we are aware, nothing in the world has been heard of in the way of a new party in New York. It was announced, however, that several weeks ago, a group of workers decided to start a new political party, known as the "Social Labor Party." The name indicates that the party is a "labor" party, as there is no such party in the world named "Social Labor Party." The announced object of the party is to "organize" the workers of the world in order to bring about a "social" state of affairs. The party is said to have been "organized" by a group of "socialists," but it is not stated how many members there are, or where they are located. OLD STYLE UNIONISM WORTHLESS

Socialist Labor Party Only or Garantization Pointing Out Way for Workers to Achieve Lasting Results.

The solemnity of the Socialist Labor Party (S.L.P.) platform, as delivered and consistently maintained, is never indicated. It is quite a few who have the know-how to describe the labor movement as it is held to be in the hands of all labor organizations. It is a possibility that the S.L.P. is the only one of the industrial unions that is held to be in the hands of labor workers. Whether it is "wrench," "wring," "wage," "labor" or "labor," it remains for the "most effective and enlightened" of the "labor" unions to say what it is. Such is the system of rivalry and competition that is in the making because that kind of organized labor does not achieve results for the workers. The system of rivalry and competition has a way of doing this, with a new phase.

The Socialist Labor Party is the only one of the labor unions that has been able to maintain that kind of organized labor system in the making. It is the most effective and enlightened of all the labor unions in the making. This is because that kind of organized labor does not achieve results for the workers. The system of rivalry and competition has a way of doing this, with a new phase.

In the early days of capitalism in England, the government found itself in a difficult situation. It was found that the capitalists grew and the government could not do anything about it. The capitalists grew and the government could not do anything about it. The capitalists were capable of taking the power and the government could not do anything about it. STARING THE PROLETARIAT

In the Pittsburgh, Pa., "Gazette Times," a leading socialistic newspaper, in a recent issue, carried the following articles: "Out of Living" and "Out of Work." The paper is an open organ of the "Socialist League of America," and is widely read by the working classes throughout the country.

"Out of Living" reads: "In the course of the past six months, the general malaise of the working classes has shown itself in a most striking manner. The distress and suffering among the working masses are increasing to a most alarming degree.

"Out of Work," continues, "is a condition of the proletariat which has grown in alarming proportion. The labor unions have been fighting for better wages and conditions of labor, but with little success. The Employers' Association has been able to force the workers to accept lower wages and shorter hours of work. The working classes are suffering from the effects of this struggle.

"The solution of the problem lies in the organization of the proletariat. The slogan "Workers' Union" must be adopted by the working classes. The formation of such a union will be a great step forward in the struggle for a better world."

THE LIE AND THE PATRIOTISM

If China ever awakens she will have her hands full of work to do. As a matter of fact, they have a great deal of work to do. In the case of China, it is not patriotism that is the root of the trouble, but social and economic development.

From the political standpoint, the Chinese people are interested in the prosperity of their country. They want to see their country prosperous, not only for the sake of patriotism, but for the sake of their own welfare. They want to see their country prosperous because they want to see their children prosper. They want to see their country prosperous because they want to see their own country prosperous.

In the United States, the situation is different. The American people are not interested in the prosperity of their country. They want to see their country prosperous because they want to see their own country prosperous. They want to see their country prosperous because they want to see their own country prosperous.

THE LIE THAT IS NOT PRINTED

A MOUTH THAT IS NOT PRINTED

The mouth that is not printed is the first of a series of articles on the anti-socialist press. The anti-socialist press is a power of great influence in the United States. It is the tool of the rich and powerful, and it is used to spread false ideas and to undermine the strength of the socialist movement.

If the article is read with care, it will be seen that the anti-socialist press is a danger to the cause of socialism. It is a tool of the rich and powerful, and it is used to spread false ideas and to undermine the strength of the socialist movement.
