THE S.L.P.

On Deck and Moving Forward

DIX SWEEPS STATE

Democrats Win Out Almost Everywhere

With its vote showing a hearty increase in Greater New York State in last Tuesday's election, the S.L.P. indicated that it may take up a new year of propaganda for republicans in the state, in which the party and its candidates will aim to win the state for the S.L.P.

THE LACHAPELLE CASE

The Lachapelle case has been decided in the United States Supreme Court. The case was an appeal from the Superior Court of the District of Columbia, and it involved the question of the validity of a deed executed by the defendant, a corporation, to the plaintiff, a corporation, under which the defendant was alleged to have conveyed a certain piece of real estate.

The court held that the deed was valid, and that the defendant was estopped from denying the validity of the deed.

The decision of the court is important, as it will have a far-reaching effect on real estate transactions in the United States.

WOMAN UNDER SOCIALISM - By August Bebel

TRANSLATED FROM THE ORIGINAL GERMAN OF THE THIRTY-THIRD EDITION BY DANIEL DEXTER

The Woman Question is not a question by itself; it is a question in all the questions of life. Socialism is改造 society, and改造 society is改造 Woman.

"Women," the Socialist woman answers, "are not to be treated as objects; we do not want to be treated as things.

"But," the questioner asks, "what is to be done with us?"

The socialist answer is: "We ourselves are to do it."

"And what is the problem?"

"The problem is that we are not free."

"But how can we be free?"

"The only way is to educate ourselves."
Simplified and Specialized Machinery Crowding Him Out—From Fall of Labor, Workmen Will Spring Better Things

By GUSTAV BANG

The passing of the skilled workman.

The gradual passing of the skilled workman, and the reduction of all to a do-it-yourself basis, has been going on for years. The depression that has been on hand in the United States for some time has revealed the phenomenon. It has been very evident in many industries, and it is now being shown in others.

In the iron and steel industry, the division of labor has been going on for years. The laborer is now doing everything himself, from the mining of the iron ore to the making of the steel. This has been going on for years, and it is now being shown in other industries.

Some of the causes of this have been the development of new machines, and the invention of new processes. These have been applied to the iron and steel industry, and they have been applied to other industries as well. The laborer is now doing everything himself, from the mining of the iron ore to the making of the steel. This has been going on for years, and it is now being shown in other industries.

THE SAME EVERYWHERE.

Socialists may be divided, as a rule, into two classes, one consisting of the South American, the other of the North American socialist. In the South, the socialists are the workers, as a rule, and in the North, the socialists are the intellectuals. There is no question about who is the better, or whether they will ever be able to unite, for the two classes are divided by a gulf which is too wide to bridge. The South American socialist is the worker, and he should fight for the worker, while the North American socialist is the intellectual, and he should fight for the intellectual. The two classes are not equal, nor are they suited to each other. The South American socialist is the worker, and he should fight for the worker, while the North American socialist is the intellectual, and he should fight for the intellectual. The two classes are not equal, nor are they suited to each other.

WALCOTT'S SUPPRESSED SPEECH.

The Pilotsburg, Pa., "Departrick" of Socialists, on Saturday, delivered his speech before the meeting of the Pennsylvania Socialist Convention.

"The reason is that the American socialist is the worker, and he should fight for the worker, while the North American socialist is the intellectual, and he should fight for the intellectual. The two classes are not equal, nor are they suited to each other.

"The reason is that the American socialist is the worker, and he should fight for the worker, while the North American socialist is the intellectual, and he should fight for the intellectual. The two classes are not equal, nor are they suited to each other."

So, in the end, each of the two classes is the worker, and he should fight for the worker, while the other class is the intellectual, and he should fight for the intellectual. The two classes are not equal, nor are they suited to each other.

"The reason is that the American socialist is the worker, and he should fight for the worker, while the North American socialist is the intellectual, and he should fight for the intellectual. The two classes are not equal, nor are they suited to each other."
