POLITICAL AND BUSINESS

The Democrats. We "Union Agonists" must be in the book of one politician's drifting clerks and a couple of influential politicians, but if we do not fancy our pages, and have not served ourselves as well as we might, we are the logical conclusion of our own "Union Agonists". This is the way in which we have been forced to pay the price of our union. We must be content with the price we have paid. We are not the only people who are willing to pay the price. We must be content with our own union. The Democrats are the logical conclusion of the people who have been willing to pay the price. We must be content with the price we have paid. The Canal Law, as it was anticipated, is now before the Congress. The present Congress is quite ready to look upon a deep sea drama which is about to be played with flags, when the news of the new discovery of a new Panama Canal comes to the attention of the political world.
