POLITICAL AND ECONOMIC.

The growth of the Socialist vote at the last election is coming to New England with surer and wider results than those brought hitherto by the English-speaking workers. The Socialist leaders and their followers are more conscious of the needs of the masses than ever before, and are more willing and able to educate the minds of the people to the principles of Socialism. The Socialists are not only making headway in New England, but they are also gaining ground in other sections of the country.

The Socialist Bank in Boston, established in 1894, has recently been reorganized and enlarged, and is now able to offer a wider range of financial services to its members. The bank has been successful in attracting a large number of存款ors and depositors, and is now able to extend its operations to other parts of the country.

The Socialist Party in New England is also making progress. The party is now well organized, and has a large number of members. The party's program is based on the principles of Socialism, and its leaders are working hard to educate the minds of the people to the need for a radical change in the social and economic system of the country.

The Socialists are also making progress in their efforts to organize labor unions. The Socialist Labor Union in New England is now well organized, and has a large number of members. The union is working hard to educate the minds of the workers to the need for a radical change in the social and economic system of the country.

The Socialists are also making progress in their efforts to organize political parties. The Socialist Party in New England is now well organized, and has a large number of members. The party is working hard to educate the minds of the people to the need for a radical change in the social and economic system of the country.

The Socialists are also making progress in their efforts to organize educational institutions. The Socialist Educational Society in New England is now well organized, and has a large number of members. The society is working hard to educate the minds of the people to the need for a radical change in the social and economic system of the country.

The Socialists are also making progress in their efforts to organize literary and artistic institutions. The Socialist Literary and Art Society in New England is now well organized, and has a large number of members. The society is working hard to educate the minds of the people to the need for a radical change in the social and economic system of the country.

The Socialists are also making progress in their efforts to organize scientific and technical institutions. The Socialist Scientific and Technical Society in New England is now well organized, and has a large number of members. The society is working hard to educate the minds of the people to the need for a radical change in the social and economic system of the country.

The Socialists are also making progress in their efforts to organize medical and sanitary institutions. The Socialist Medical and Sanitary Society in New England is now well organized, and has a large number of members. The society is working hard to educate the minds of the people to the need for a radical change in the social and economic system of the country.

The Socialists are also making progress in their efforts to organize ethical and moral institutions. The Socialist Ethical and Moral Society in New England is now well organized, and has a large number of members. The society is working hard to educate the minds of the people to the need for a radical change in the social and economic system of the country.

EIGHT-HOUR MOVEMENT.

Some time ago I gave the readers of this paper the bad news that the Eight-Hour Movement in America, and especially in New England, was at a standstill. In the eyes of the public it seemed that the entire movement was broken up. It is becoming more and more evident, however, that the New England movement was a mere泡影, and that the war is far from being at a standstill. It would be a mistake to say that the movement is at a standstill. It is far from being at a standstill. It is far from being at a standstill. It is far from being at a standstill. It is far from being at a standstill. It is far from being at a standstill.
