Labor-Class Unconsciousness Geared to Capitalist Class-Consciousness

The Franklin Association of Fendors and the United Auto Workers Organized Against Their "Employers" From the Start of the Game they are Playing. Capitalist Class-Consciousness is the Foundation of the Class-Divide. The Labor Unions must unite to overcome the longstanding class-consciousness in their ranks to achieve victory.

The situation is as follows:

1. Most workers do not realize that they are being exploited by the capitalist class.
2. They are unaware of the need for class struggle.
3. They lack the understanding of the capitalist class's role in society.

However, this can be changed by educating workers about their rights and the necessity of class consciousness.

With this letter we must end, recognizing that the State of the Union is an economic condition. We cannot improve the situation in this country until we can make the farmers and laborers feel more secure in their homes and that we are the real owners of the country in which we live. As a result of the developments in the last few years, we are faced with a situation that requires the most careful consideration. The人民运动 is one that cannot be ignored, and we must take steps to ensure that it is not only successful but also beneficial to all concerned.
