TRUE ENOUGH IN 1757—BUT—WONT HOLD GOOD IN 1895.

A PLOWMAN ON HIS LEGS IS HIGHER THAN A GENTLEMAN ON HIS KNEES (AS GegE)

TO THE COAL MINERS OF AMERICA.

Columbus.—For the past forty years the coal has gone up repeatedly from the cost of living, wages, and interest on capital. Yet, still you have responded to the general movement, and, though you have been shut up in the mines by the speculators, you have not let your wages be reduced. The miners of the coal districts have held their ground, and you have been able to realize the value of your labor.

Knowing this well, the Socialist miners of America, in the last few weeks, have taken up the struggle against the speculators and the coal companies. They have demonstrated their determination to continue working for the interests of the working class. They have fought against the coal companies and speculators, and the strike has been successful.

The Socialist miners have made a great sacrifice for the working class, and have demonstrated their determination to continue working for the interests of the working class. They have fought against the coal companies and speculators, and the strike has been successful.

For the better understanding of the principles, methods and tactics of the S. & E. Union, the Socialist miners have laid down the standard of a fight for the future of the working class. They have demonstrated their determination to continue working for the interests of the working class. They have fought against the coal companies and speculators, and the strike has been successful.

In the matter of Socialism among the miners, the Socialist miners have made a great sacrifice for the working class, and have demonstrated their determination to continue working for the interests of the working class. They have fought against the coal companies and speculators, and the strike has been successful.

The Socialists miners are miners in the fullest sense of the word, and they have fought against the coal companies and speculators, and the strike has been successful.

The Socialist miners are miners in the fullest sense of the word, and they have fought against the coal companies and speculators, and the strike has been successful.

For the better understanding of the principles, methods and tactics of the S. & E. Union, the Socialist miners have laid down the standard of a fight for the future of the working class. They have demonstrated their determination to continue working for the interests of the working class. They have fought against the coal companies and speculators, and the strike has been successful.

To the Coal Miners of America.

Let us review these conditions, and if doing so we shall take the best course.

The3 key words on the front of the miner's cap are all against him. There are the words, "Dead Man's feet," and the words, "Dead Man's ears." The miner is in a dead man's world, and he has no power to change it. He cannot see, cannot hear, cannot move, and cannot speak. He is a slave to the coal companies and speculators, and they have the power to control him. They have the power to control his wages, his working conditions, and his health.

The Socialist miners have fought against the coal companies and speculators, and the strike has been successful. They have demonstrated their determination to continue working for the interests of the working class. They have fought against the coal companies and speculators, and the strike has been successful.
WHAT TO DO?

That's easy. The same thing you do with any other problem in your life. It's all a matter of thinking it through, down to the last detail. The more you know about it, the better you can solve it.

In this case, the problem is to make the most of what you've got. And the answer is to use your mind. Use it to think things through, to figure out what you can do with what you've got.

That's why we've put together this guide to help you get the most out of your life. It's a simple guide, but it's effective. And it's free.

So take a look at it, and see what you can do with what you've got. It might just be the answer you've been looking for.

---

COAL MINERS.

It's a tough job, but it's the one they've chosen. And it's not just any job, it's the job of coal miners. They work hard, they work long, and they're proud of what they do.

But it's not just the work that's tough. The pay is low, the conditions can be dangerous, and the future is uncertain.

So what do they do? They keep on working, and they keep on hoping. They keep on thinking about what they can do to change things.

And that's the answer. That's what they do. They keep on thinking, they keep on working, and they keep on hoping.

SOCIALLY LABOR PARTY
OF THE
UNITED STATES OF AMERICA.

PLATFORM.
The Socialist Labor Party is the only political body that advocates the
abolition of all classes, the fusion of the laboring class and the
reactionary class, the establishment of the ownership of the
means of production by the laboring class, the immediate
abolition of private property in land and factories, the
elimination of all forms of wage labor, the establishment of
cooperative societies, the prohibition of the sale of
alcohol, tobacco, and opium, the abolition of
private stockholders, the establishment of
cooperative banks, the control of
commerce and industry, the abolition of
bonds and mortgages, the
abolition of the
army and
diplomacy, the
abolition of
industrial
usury, the
