Baltimore's Municipal Fight.

With the foundations of this republic as laid, the power of the state and of the city to regulate the welfare of its citizens is a sacred trust. In the exercise of this power, the municipal government, like the state government, has a duty to perform, and the people have a right to expectation. The municipal government, like the state government, has a duty to perform, and the people have a right to expectation.

The Social Labor party of Baltimore is determined to make this city a city of the people, by the people, and for the people. The Social Labor party of the United States, and as such, is working for the disfranchisement of all classes of society, for the disfranchisement of all classes of society, for the disfranchisement of all classes of society, for the disfranchisement of all classes of society.

We have the right to know of all the people in our city, in every city of the world, every laborer's rights, and every laborer's condition. We have the right to know of all the people, and we have the right to know of all the people.

SOCIALIST LABOR PARTY
OF THE
UNITED STATES OF AMERICA.

PLATFORM.
The Socialist Labor Party at the National Convention assembled, recognizes the inalienable right of all men to life, liberty, and the pursuit of happiness. Members of the American aristocracy, who claim the right to the tax of the people, to the wealth of the people, to the power of the people, are as much under the rule of the working class as the working class is under the rule of the capitalist class. The man who demands more than his share of the wealth of the nation is as much a slave to the master as the man who toil for his wage is a slave to his master. The working class demands, therefore, as a first step towards the achievement of its aims, the abolition of capitalistic production, the practical application of the workingmen's organizations, and the complete and unconditional participation of the workers in the management of the economic affairs of society.

RESOLUTIONS.

1. The Socialist Labor Party hereby endorses the resolution of the National Labor Union declaring that the interests of the workingmen are in conflict with those of the capitalist class.
