Mr. Straight had the power to control the election of every member of the Republican party. He was responsible for the election of every member of the Republican party. He was responsible for the election of every member of the Republican party. He was responsible for the election of every member of the Republican party. He was responsible for the election of every member of the Republican party.

We are not concerned with the personal worth of the members of the Republican party. We are concerned with the political worth of the members of the Republican party.
