JAUREZ' PROHIBITED SPEECH
WAR AND SOCIALISM

The Socialist
For the Socialist Party
TOLEDO, OHIO, JULY 26, 1905.
PRICE THREE CENTS.

Jailed for Street Speaking.

The Socialist
to the German Working People to
Hear—An Historic Utterance.

The man speaking when 51 of the socialist members were arrested was Dr. Karl Kautsky, who was among those who delivered the orations. After the meeting adjourned, the police proceeded to the house of Dr. Kautsky, who was not at home, and searched it. They found a number of socialist literature, and also some of the socialist literature in the possession of the arrested members. As a result of this search, Dr. Kautsky was arrested and taken to jail.

The Nazi government has been zealous in its efforts to suppress all socialist propaganda. The arrest of Dr. Kautsky is only one of many instances of this policy. The government has also arrested a number of other socialist leaders, and has suppressed a number of socialist publications. These arrests and suppressions are in direct contradiction to the principles of democracy and free speech, and are in direct violation of the treaties of the League of Nations.

What is the cause of this suppression? The cause is the fear of Socialism. The Nazi government is afraid of the power of Socialism, and is determined to suppress it. The government is also afraid of the influence of the socialist leaders, and is determined to arrest them. The government is also afraid of the support of the working class, and is determined to suppress it.

The Socialist party is determined to stand up for the principles of democracy and free speech. The Socialist party is determined to fight for the rights of the working class. The Socialist party is determined to fight for the principles of Socialism. The Socialist party is determined to stand up for the rights of the socialist leaders. The Socialist party is determined to fight for the rights of the working class.

WHAT COMMUNITIES LOSE BY THE COMPETITIVE SYSTEM

By JACK LONDON

(Continued from Last Week.)

Commercial Legislation.

The forum of condition, enforcing its ends undeviatingly, is after all, one and the same, and it works equally well. In any given environment they decide which is to be the result, and no one can stop them. In the same environment, the result is the same, and it is the same no matter who are in power.

In the world's past, man was almost entirely the creature of his natural environment. By changing the conditions, he could change the conditions of his environment. In his natural environment he learned, and he adapted himself to it. He was a creature of his environment. In the world's present, man is almost entirely the creature of his commercial environment. By changing the conditions, he can change the conditions of his commercial environment. In his commercial environment he learns, and he adapts himself to it. He is a creature of his commercial environment.

FOR THE WORKERS

This has been a good week for the "hambid" control, but now we have a mild protest to raise in those who help The Socialist only by reading it. I have seen the following letter, which came in this morning:

"Dear Comrades: I wrote in an article of your paper, which I have not received for the past two weeks, I have not made any suspension in any of the other papers, and I would be interested to hear from other representatives. I am not able to reply to this letter, as I am in the midst of another task."

I believe Comrade A. B. Graham, the editor of The Socialist, has written an article on this subject. It is dealt with in The Socialist, and we are publishing a reply in the next issue.

CELEBRATION RECIPES

Because of the active work for socialistic conditions by Comrades L. Graham of St. Louis, Missouri, and others, we are publishing a reply in the next issue.

After the discovery, Comrade C. B. Graham, who was appointed to meet the worker's case, was sent another copy. He said so much that I do not wish to miss an issue. Only at such times do we have from other representatives. We are in the midst of another task, and we cannot accept the explanation of the editor."

THE OLD WEAPON AND THE NEW

The Chicago teamster strike was declared off last week, and the newspaperers of the city are publishing the strike. We are not yet sure that the sympathy strike will end, except by remaining. The workers are being organized by other organizations in future.

We are not sure that the sympathy strike will end, except by remaining. We are not sure that the sympathy strike will end, except by remaining. The workers are being organized by other organizations in future.

What is right for the capitalist to do, however, is usually wrong for the worker as the capitalist wants to conquer the capitalist. While the workers do not act in the interests of the capitalists, while the capitalists are not in the workers' interest, the capitalists act sympathetically when they agree to boycott or lock out.
