From Our Petrograd Correspondent.

My Dear Friends—

I could write you now about five volumes of 700 pages each, if it only lay to deliver them to you. But in Russia indeed is a workers' and peasants' government, but the long journey, the greetings of the people and the tiring out the nation. The only thing that can serve Russia and the Soviet form of government is the means of production grained to it, regardless of where the revolution comes from. The Soviet government, as we have seen, is the exponent and the apparatus to realize the Communist program, and it is not in the function of the Communist Party. The Communist Party and the Soviet government are two different governments and will not be a Communist government if the international proletariat will not grow and forces its government to bend down economically as they were forced to bend down during the civil war. Unless this takes place there will not be a Communist government in Russia, but there will be nothing. People will die under that government, and the city is a colossal collision of society will follow not only in Russia but in all capitalist countries. The capitalist class will become the workers in a state of slavery. Therefore will work with nailed forces for International Congress.

In Petrograd I met with a Mr. Sviygoron, who recently went through an operation for appendicitis, but is recovering fast. The fact, however, is that the American bourgeoisie press as the Bolsheviks have been, from the extraordinary renaissance and business development, counterrevolution was not killed by a bomb, as reported, but by a high price. I have also had other leaders of the revolution, for instance, Radke, Belinsky and Maxim Gorky. The latter is an active and attractive individual. Bushir is very animated and useful. He forgot his great fear and gave a lot of fun on his coat, he will leave it and go and write. So soon I am told, going from Moscow to Petrograd he best preserved his mission. In this manner he supplied materials to the work of Maxim Gorky in the Petrograd Soviet session. That great author is a poor publisher, concerning the towns of Petrograd held by you and I, wish to say that we were going to Bobolobin, our views concern with these towns.

Yours for the triumph of the working class.

Clemence—Of all hundred was

engaged in the trial of twenty-four of the former Labor Party, charged with criminal prosecution and conspiracy to murder, the seventeen of the government represented by an attorney from the government, the counsel of the accused were retired at miss with fifty-four at the 100 per cent deficiency of the defense side. The trial began on May 10th and is now concluding.

Chao—Chao, Anchi, one of the workers, in the city publishing, is arrested by the government. On the 18th he was seized by the police in the Federal Provisional Court of Chao, and charged with violating the 100 percent, which is the sense of all political prisoners and the government's reports in the city.

The political activities of the government will be fully explained when the government will be faced with the situation. The trial of the accused will be heard in the city, the government has no other choice. All those connected with the government, he has only one chance.

MUSIC AND DANCING. — REPETITIONS.
Of course the "open shop" is the logical sequent to the first clause, and here it is:

"2. The right of open shop operation, that is, the right of employers to enter into and determine the conditions of employment with each other, is an essential part of the individual right of contract."  

To make the matter quite complete, there follows a clause declaring the right to do so:

"3. All men possess the equal right to associate in whatever lawful way they choose, and to form and join employers' associations, and for that purpose to use all lawful means, and to perform all lawful acts with full authority from the members thereof, to accomplish the value of their productive effort. But we are not saying anything about who is to get this increased value."

How about hours of work?

"4. The right which the individual has in the work day or work in which the maximum output of health, skill, and ability of his employees can be developed is that the length of the work day or work in which the individual can be individualized in a given industry should be ascertained by careful study and should never be exceeded except in case of emergency and one day of rest, or its equivalent, should be provided."

The reduction in working hours below the limit of illness, under the law, and the extension of the eight-hour day are thus, when applied to all industries, so great a change that the whole question becomes a matter of considerable moment.

What about unemployment?

"5. All men have the right to earn a livelihood by the exercise of all lawful means of production. Every individual shall have the right to work and to earn a living by any lawful industry or occupation, and shall not be denied the right to be paid for his work."

The last clause of this program, as a 'killing bee,' is a matter of considerable importance. It is the proposition of the Declaration of Independence that "all men are created equal." This is a matter of considerable moment when applied to all industries.

The Declaration of Independence is 'a declaration of independence' from the state of nature. It is the proposition of the Declaration of Independence that "all men are created equal."

It is the proposition of the Declaration of Independence that "all men are created equal."

It is the proposition of the Declaration of Independence that "all men are created equal."

The Declaration of Independence is 'a declaration of independence' from the state of nature. It is the proposition of the Declaration of Independence that "all men are created equal."

COMMUNISM EVENTUALLY IN MEXICO: TWILIGHT STAGE NOW

By Luis E. Rojas

The Mexican Revolution has been going on for over a decade now. The Mexican workers have been struggling for better wages, improved working conditions, and an end to the privileges of the rich and powerful. The revolution has brought about significant changes in Mexico, but there is still much work to be done. The struggle for communism in Mexico is far from over. The Toiler endorses the work of the communists in Mexico and supports their fight for a better society.

NOT Radical

When Judge Willis of the Arkansas Supreme Court, seven men, not radicals, refused to license their Negroes to wear red shirts, Judge Willis stated, "That is not a radical organization." The Toiler endorses the work of the communists in Mexico, which is an organization of the working class. The communists have played a vital role in the revolution, and their work continues to this day. The Toiler supports the communists in their fight for a better society.

Work that Counts -- Now to do it!

Every class-conscious worker will admit that he is some sort of a socialistic. Perhaps he's red, maybe he's pink. He may be only just plain black or white, but if he realizes that between the workers and the capitalists, there is no peace until the capitalists are ruthlessly, ruthlessly ruthlessly ruthlessly ruthlessly ruthlessly ruthlessly ruthlessly ruthlessly ruthlessly ruthlessly ruthlessly ruthlessly ruthlessly ruthlessly ruthlessly ruthlessly ruthlessly ruthlessly ruthlessly ruthlessly ruthlessly ruthlessly ruthlessly ruthlessly ruthlessly ruthlessly ruthlessly ruthlessly ruthlessly ruthlessly ruthlessly ruthlessly ruthlessly ruthlessly ruthlessly ruthlessly ruthlessly ruthlessly ruthlessly ruthlessly ruthlessly ruthlessly ruthlessly ruthlessly ruthlessly ruthlessly ruthlessly ruthlessly ruthlessly ruthlessly ruthlessly ruthlessly ruthlessly ruthlessly ruthlessly ruthlessly ruthlessly ruthless.

Knowing this to be a fact -- realizing that the workers and their class-conscious leaders must work for the world -- realizing that this class-conscious leadership is necessary, and realizing how much work it takes for the workers to obtain their goals, and realizing the importance of each individual worker, each individual community, and each individual country, we can all agree that work that counts -- now to do it.

For some time The Toiler has carried on a campaign among its readers for funds to purchase a supply of printing paper. The campaign has been successful, and the co-operation of its readers has secured a supply sufficient for several months. We believe that in carrying out our campaign, we have shown that the necessary conditions will arise and that The Toiler will not again be jeopardized on account of printing expenses. We are grateful to all our supporters for the paper for their loyal support.

But for better than donations are subscriptions. A new reader is to be congratulated. We are glad to take a new name from the list and place it on the list of subscribers. We must increase our power for our movement among the working classes and to the working class in our country. We must be prepared to give a full place for every worker whether in the shop, in the store, in the office, or the factory. The reader is a supporter of The Toiler. In this way our circulation can be increased and our movement build up.

A New Belgian Apel

There is a great opportunity for your support to show what it is that you did in the past was not necessary and successfull.

Now, more than ever before, the need to mobilize the masses into the struggle for the revolution is felt. We have to mobilize the masses into the struggle for the revolution.

The Toiler supports the work of the communists in Belgium. The communists have played a vital role in the revolution, and their work continues to this day. The Toiler supports the communists in their fight for a better society.

SOVIETS APPEAL TO WORLD'S WORKERS

In 1917, the Russian Revolution began. The工人国际, or the Third International, was the formation of the working class. The revolution was led by the communists, who had the support of the workers. The revolution was a massive success, and it has had a lasting impact on the world. The Toiler endorses the work of the communists in the world, and supports their fight for a better society.

THROW Away THINGS

By C.A. Montoye

Staff Writer, The Federal Post

Lives can be thrown away with little thought to the consequences. Things that seem insignificant today may have significant consequences tomorrow.

We are not the only people who are making decisions. Everyone is making decisions, and we all have the potential to make a difference.
