PROGRESS IN HOLLAND

The national secretary of the Socialist party of Holland reports that the number of Socialist locals in the country at the end of 1913 was 389, a gain of 105 in one year.

The number of party members in good standing on December 31, 1913, was 25,708, as against 15,667 on December 31, 1912. This represents a gain of 10,041.

The number of Socialists in town and city councils was 247 in 1912, only 191 in 1913. There were forty Socialist members of provincial legislatures during the year just closed, while 1912 could boast of only twenty-two.

The second chamber of deputies, corresponding to our house of representatives, has a total membership of 100. In 1913 fifteen of these were Socialists, a gain of eight over those elected in 1912.

For the first time in the history of the country the Socialists succeeded in breaking into the upper chamber, which resembles the senate of the United States. Two were elected to this chamber during the past year.

SPANISH REDS GAIN

According to returns from the general elections in Spain the Socialists have undoubtedly made gains. The press reports state that eighteen Socialists and Republicans were elected. In the last parliament the Socialists had but one representative. The Socialists and Republicans have been working for the overthrow of the monarchy and the establishment of a republic. However the government forces secured a clear majority of deputies, electing 235 members. The Liberals captured 101 seats; Independents 19 and Conservatives 12.

Look strictly into the nature of the power of your Goddess of Getting On; and you will find she is the Goddess—not of everybody's getting on—but only of somebody's getting on. This is a vital, or rather deathful, distinction—Ruskin's "Crown of Wild Olive."

COMRADES OF ORIN ORGANIZE NEW LOCAL.

The state office reports the organization of a new Socialist local at Orin, Stevens county. There were eight charter members, and about twenty men have signified their intention of joining at an early date.

SOCIALISTS ORGANIZE A SOCIAL SOCIETY.

On May 3, the Socialists of Arlington and vicinity met at the Labor temple and enjoyed a program consisting of short speeches, recitations, songs and instrumental music. Between the forenoon and afternoon division of the program a delectable lunch was served. At this meeting a society called the Stillaguamish Socialist Brotherhood was organized, whose mission is to promote social intercourse among the Socialists.

The next meeting of the society will be held at Island hall to which any one desiring a good time is invited to bring a basket and attend. The following program is being arranged for Sunday, May 31st. Invitations have been sent out to those whose names appear on the program, requesting that they appear and help make the meeting a success.

FRENCH SOCIALISTS GAIN TWENTY SEATS

Add Fifty-seven Successful Candidates on Second Balloting to Forty Elected April 26.

The most striking features of the recent election in France in 252 constituencies where any candidate failed to obtain the necessary majorities at the first voting on April 26 was the success of the Socialists.

The results in 234 constituencies as announced at the Ministry of the Interior show that the United Socialists secured fifty-seven seats, winning twenty-nine new ones and losing nine which they had previously held.

Among the candidates defeated was M. Lepine, the former prefect of police of Paris.

FRENCH SOCIALISTS WIN.

The election news from France is most encouraging to all Socialists. The workers stood shoulder to shoulder on May 10 and elected fifty-seven Socialist representatives to the chamber of deputies. As they had already secured forty seats at the election held April 26, the Socialist party will be represented by ninety-seven deputies, as compared with seventy-seven in the last chamber.

The Radicals and Socialist Radicals carried twenty-four seats, and will have 203 seats in the next chamber. The chief losers were the Progressists.

A dispatch from Paris states that the great victory achieved by the United Socialist party has thrown the reaction into a blue funk, and on the other hand, has fired the revolutionary working class with the determination to gain still greater victories and finally to make "Marianne" the real red republic she was calculated to be.

The greatest satisfaction to Jean Jaures and the other leading Socialists is derived from the fact that the nearly complete count of the popular vote cast in the first balloting, April 26, shows the straight Socialist vote to have been over 1,400,000, an increase of about 20 per cent over the vote of 1910, when the Socialist candidates received 1,110,561 suffrages.

The total vote cast for all parties April 26 was 8,328,000, so the Socialists constitute about 16 per cent of the electorate.

The strength of the Socialists in the new chamber will not be fewer than 102 seats, a gain of 26 over the old chamber.

Experienced politicians believe that the situation in France is pointing in the direction of the formation of two clearly defined parties—Conservatives and Socialists, and when will come the final battle, which will establish the real co-operative republic.

Believes Seattle Could Be Concentrated in Less Space

Thorwald Siegfried, Attorney, Would Have a 60x100 Lot for Every Family on Much Less Ground

Thorwald Siegfried, Seattle attorney, believes Seattle could concentrate itself with profit. He has prepared a circular in which he sets forth his argument illustrated by the map presented herewith. The circular contains the following:

High taxes and an expensive, wasteful government find a good reason for their existence in the annexed map of Seattle and its explanation. The present city limits include 58 square miles of land area, which gives an average population of less than nine persons per acre, assuming that all of its people live within the limits. Yet the Bogue plans commission wished to extend the limits to the Snohomish County line and across Lake Washington, as shown by the outer line on one map.

The low average of nine per acre does not mean that everyone has plenty of room to live in. On the contrary, thousands are huddled in flats, tenements and incipient slums. The explanation is that 77 per cent of the city's area is entirely unused. This unused condition is true not only in the residence districts but also in the business section where many locations are occupied only by one-story shacks. Any private enterprise would be scuttled if it had to build sewers, streets, car lines, water pipes and electric wires to serve an area over three-fourths of which was to be kept idle and useless. Yet the city stagnates on under a load that attests the patience and long-suffering of the real, ultimate taxpayers of the city—the laboring men and women.

sanely used. It represents that part of the city south of the government canal and north of Hanford street, excluding tide lands, water areas and the downtown district between Denny way, Yale way and Broadway.

Possible Improvement

The black area contains about 18 square miles, less than one-third of the city, out of that area we could use about a thousand acres for parks—more than Fort Lawton, Woodland, Volunteer, Interlake, Leschi, Madrona, Denny and Kinross Parks combined; and take one-third of it for streets and alleys. In the balance we could house the 315,000 people of Seattle, in 52,500 dwellings each occupied by six people, each dwelling having a lot 60x100 feet, which is much more than the vast majority of families have or expect in a city that is 77 per cent vacant. That would not leave any to live in flats or hotels, or in Ballard, Fremont, Green Lake, University, West Seattle or Columbia.

Cheaper Conveniences for All

Seattle has 300 miles of paved and plank streets—though so that every family could have its 60-foot lot front on them; it has more than twice as much street car track, gas pipe, water pipe and electric light and telephone wire as would be necessary to serve a same, un congested distribution of its people. That means that we travel twice as far and take twice as long to do it and pay twice or four times as much, as we need to; that we build miles of sewers, streets, pole lines and pipes, and pay for them in taxes, merely as proof of our dullness in keeping 77 per cent of the city vacant for private speculation.

In addition, speculation has increased the land values of Seattle from 71 million to 281 million in the 10 years from 1901 to 1911; which means that in addition to the public taxes all of the people pay to some of them (and few they are) a private tax of from 5 to 8 per cent per annum on 210 million dollars.

If Seattle's people were concentrated as suggested, it would mean a population distributed at the average and actual rate of 30 per acre, which is not congestion. New York City has a statistical "average" population of about 27 per acre, though it contains over 50 tracts of vacant ground from 100 to 1,500 acres while its slums harbor from 750 to 1,200 people per acre; that is congestion. If New York City had a uniform distribution of 50 people per acre it would have a population of ten million and a half, almost twice its present population; that would be concentration without congestion. If the black area shown on the map were

PLATFORM OF THE SOCIALIST PARTY OF SNOHOMISH COUNTY.

(Adopted by Mass Convention of May 24, 1914.)

The Socialist party of Snohomish county in mass convention assembled hereby renews its pledge of loyalty to the working class of the world, and to the principles of the International Socialist movement as expressed in the last national and state conventions of the Socialist party.

OUR PLEDGE.

We pledge ourselves that in the event of the election of our candidates in Snohomish county that we will conduct the business of the county in the interests of the working class and it alone; that in the event of any organization of laborers or any group of unorganized workers striking to better their condition that we will use all the legal power at our disposal to assist them to defeat the employing capitalists; that we will do all in our power to abolish the contract system on all public work; and we pledge ourselves to furnish employment at union wages to the limit of the county funds; that we will abolish the present brutal system of starving prisoners; that if there must be prisoners at all they will be fed and clothed and cared for as human beings; that we will see to it that unimproved land held for speculative purposes be taxed to the limit of the law.

THE PUBLIC SCHOOL SYSTEM

The schools being the most important institutions in modern society, and of tremendous significance, we pledge ourselves to control them in the interest of the producing class, rather than, as now, in the interest of the capitalist class alone; and we condemn the present superintendent in her malicious campaign against Socialist teachers, and her arbitrary methods used in forcing consolidation on districts against the will of the patrons therein. We call attention to the fact that in spite of the political promises of our opponents to be frugal with the funds of the county, they have permitted the County Superintendent and Prosecuting Attorney to spend the public funds freely in long and fruitless campaigns to revoke the certificates of Socialist teachers whose only offense was taking the side of the workers in their struggle for better wages and decent living conditions.

ARE AGAINST FORCED FREE LABOR

We condemn absolutely the policy instituted in the city of Everett under which innocent men are condemned to forced free labor in Forest Park stockade for the crime(?) of being out of employment and seeking work in Snohomish county. We assert that the way to prevent the alleged frequency of petty thievery is to give the unemployed work at union wages, not by forcing these unfortunate victims of bankrupt capitalism to work in jail for no pay. We brand this innovation of the police department an infamous invasion of human rights, an insult and a challenge to all who must toil for wages.

MINIMUM WAGE FOR CITY EMPLOYEES

We pledge ourselves to do all within our power to aid the Everett Trades Council in its effort to provide a minimum wage law under which all persons employed directly or indirectly by the city would receive a daily wage of not less than \$3 for an eight-hour day's work.

We demand that the police power of the county be used to the utmost to protect working people in their right to free speech, to peaceable assemblage, to picket peaceably, singly or in mass, and to hold meetings and distribute literature in connection with labor disputes; and that the power of the department of health be used to prevent the housing of strikebreakers in factories and public buildings.

We demand the establishment of sufficient free dispensaries, hospitals, sanitariums and convalescent homes to accommodate the vast number of patients who are denied proper care through the prohibitive cost of private institutions.

CONCLUSION

The foregoing measures and all others that may be proposed for the benefit of the masses of the population will require the efforts, not only of city and county officials devoted to the interests of the working class, but also a strong Socialist delegation in the State Legislature. The Socialist Party does not beg for votes. It does not put its candidates forward as individual good men, but as representatives of the working class. It warns the voters that nothing can be accomplished by relying on individuals as such. It is the party that counts.

SNOHOMISH COUNTY SOCIALIST CONVENTION FULLY REPORTED BY CAPITALIST PAPERS OF EVERETT.

The following account of the Snohomish county mass convention, held last Sunday in Socialist headquarters, 1612 California street, Everett, appeared in both the Morning Tribune and the Evening Herald of May 26:

SOCIALISTS TO MAKE AGGRESSIVE CAMPAIGN

Convention Attended by 200 Held Sunday and Candidates Named for County Offices.

Socialists of the county intend to make an active campaign this summer, and on Sunday a mass convention attended by 200 assembled in the party headquarters on California street for the nomination of two candidates for each office to go before the Socialist voters of the county on referendum. The candidates receiving the highest vote in referendum will be the party candidates. Democrats will see in the list of nominees an old-time democratic shouter, H. W. Hlman, of Hartford, who has gravitated to the Socialist organization as the agency through which to achieve whatever it is that he thinks should be achieved. The list of nominees is: For commissioner, first district—J. E. Wrage, Arlington; Ole Larsen, Silvana. Commissioner, third district—H. W. Hlman, Hartford; W. S. Kellar, Monroe.

Senator, thirty-ninth district—Thomas Jensen, Silvana; J. W. Morris, Arlington. Representative, forty-ninth district—W. G. Grimm, Silvana; E. B. Caswell, Arlington; A. H. Coburn, Arlington; W. Roselema, Birmingham. Representative, forty-eighth district—J. Olinger, Everett; J. M. Salter, Everett; J. McCullough, Bothel; C. E. Briggs, Edmunds. County superintendent of schools—Mrs. Mary McNamara, Marysville; R. W. Thompson, Monroe. Sheriff—B. A. Burton, Arlington; H. F. Leister, Edmonds. County auditor—H. Krott, F. G. Crosby, Everett. County assessor—Hans Soley, A. B. Davies. County clerk—Frank Cort, Everett; V. M. Sill, Edmonds. County treasurer—Flora Bartlett, Edmonds; William Anderson, Everett. County engineer—left vacant. Coroner—W. S. Keyser, Everett. Resolutions were passed condemning government action in the Colorado trouble, the Mexican war, objecting to the policy of the police department in arresting "men out of work" and criticizing Superintendent Lizzie Jones for alleged unfair treatment of Socialist teachers. The Everett organization voted to take control of the Commonwealth,

WHAT SOCIALISM IS.

American Year-Book, Cyclopaedia and Atlas.

No word has been more abused and misunderstood than the word Socialism. The Socialist is not an anarchist, they are opposed in theory and practice. The Socialist does not propose to destroy the family, abolish religion or divide up property, nor does he seek to carry out his ideas by riot and bloodshed.

In a single phrase, Socialism means public ownership of the means of production and working class control of the government, a chance to work for all who will, and to all workers the full value of their product.

The typical Socialist is a rather quiet and thoughtful workman, serene in time of trouble and self contained in the day of victory. He realizes that the world will move on very well after he is dead, but remembers that while he lives it is his business to help the world move. He considers himself an ally of eternal laws of nature and is proud to do his little part in the great cause.

Century Dictionary: "Socialism is any theory or system of social organization which would abolish entirely, or in great part, the individual effort and competition on which modern society rests, and substitute for it co-operative action; would introduce a more perfect and equal distribution of the products of labor, and would make land and capital, as the instruments and means of production, the joint possession of the members of the community."

FOR YOUR OWN BENEFIT.

Comrades not receiving the paper regularly can do us no greater service than to report the matter to us. We trace up these cases until the difficulty is located. Remember, that a mailing list cannot be perfectly re-adjusted in a day, and not at all without the co-operation of our readers.

The Socialist paper. It will be published under the name of the Washington Socialist and the expectation is to make it the state organ.

It will be remembered that the Socialists had majorities in a number of precincts of the county at the last election. The characteristic of the party is persistence, and the organization just effected is notice to the other parties that they must fight if they hope to break into the Socialist precincts in the coming election.

As part of the summer campaign a number of lectures on Socialism will be given in the People's theater. Emil Seidel, who served one term as Socialist mayor of Milwaukee, will speak Thursday evening on the Socialist administration and what it accomplished in that city.

Mother Jones will also speak in Everett at an early date.

CAPITALIST PRESS LIES

Plute Press Lied Concerning the Milwaukee Socialist Vote—Lies Are Exposed.

By Carl Ulonska.

Again the lies of the capitalist press in polluting working class news are exposed and again the imperative necessity of the working class supporting their own press is shown. We must support the press that represents our class and our interests.

The recent Milwaukee election returns, as given throughout the country by the kept press stated that the entire Socialist ticket in Milwaukee had been defeated by 8,554 votes and that Seidel's vote was less by 1,053 than at the city election of 1912, and then in flaring type announced that the non-partisan vote had increased tremendously. Returns at this time showed that Mayor Gerard A. Bading defeated Seidel by approximately 7,000 votes against 12,977 votes in the election held two years ago. Final returns show that the non-partisan vote in Milwaukee decreased instead of increased—a decrease of over 5,000 votes. Yet in spite of these figures the plute press lied and in glaring headlines announced that Socialism had been annihilated in Milwaukee. Further returns show that the Socialist vote in Milwaukee has not decreased but increased.

In the recent municipal election the Socialist vote increased from 41.2 per cent to 43.2 per cent. The vote of the entire Socialist ticket in Milwaukee.

Calls it "Forgotten News."

The Public in commenting on the distorting of the Milwaukee election returns by the Associated Press, raps the kept press of the country severely in doing what it calls "forgetting the news," and concludes, "Yet the Associated Press claims it was libeled when the Masses charged it with suppressing news."

It is claimed that evidence gathered by the Masses, showing how the Associated Press lied and tainted the news, was the chief cause of the Associated Press abandoning the suit against the former.

Workers Must Support Own Press. The lies of the capitalist press in tainting and polluting working class news shows clearly that the capitalist class are using the press to keep the working class in mental enslavement and to bear down the yoke of industrial slavery. The master class realize the power of the press and they are using it (as might be expected) to perpetuate their class in power. We must do likewise if we wish to establish our class in power.

CHICAGO DAY BOOK ASKS SOME PERTINENT QUESTIONS.

This is what the Chicago Day Book says about Hearst and his fellow conspirators against the Mexican people:

The real purpose of the rich Americans who have been turning every trick possible to bring about a war with Mexico is made clear by the editorials in the newspapers of W. R. Hearst, the brazen mouthpiece of special privilege.

I don't know how many men will give up their lives, gladly, although I don't believe any well man gives up his life gladly. Many will enlist gladly; they will go to war gladly. But only a few, if any, of them will expect to give up his life.

Very few of those who will go to war will know—perhaps they wouldn't care if they did know—that back of all this war of conquest is the money-madness, the cunning greed, the desperate avarice of big gamblers who have invested millions in Mexico—men who have bought Mexican land for a song, and expect to reap an enormous harvest by having this government pacify and police "barbarous" Mexico, so that mineral wealth can be dug from the mines and agricultural wealth reaped from the soil.

Take Hearst, for illustration. He owns vast tracts of land in Mexico that were bought for a song. There couldn't be much profit in that investment so long as the Mexicans were at war among themselves. There can and will be, however, enormous profit if this country annexes Mexico and keeps a big army in that country for many years to keep the peace while Hearst and his pals cultivate that land.

Every American boy killed during an invasion of Mexico may mean several dollars in Hearst's pocket. It may mean like profit for Harrison Gray Otis of the Los Angeles Times.

Every American life sacrificed in pacifying and conquering Mexico may mean thousands of dollars in the pockets of the Guggenheims and Rockefellers.

When Hearst says these American boys will give up their lives gladly to add to the "greatness and territory of their country and to the permanent welfare and happiness of the land that is to be conquered," do YOU think Hearst is thinking of any land but the acres he himself owns?

Do YOU think he is thinking of the welfare and happiness of either the American or the Mexican people, or of the happiness of Hearst himself over more millions jingling in his own pockets?

How are we going to make the Mexican people happy by killing them? And how will we make American soldiers happy, or their folks back home happy, by sending them into that country to be killed off by thousands by disease and Mexican bullets?

Suppose we do annex all of the many millions of acres of land in Mexico, how many acres will YOU get? How many acres will YOUR country get?

Won't Hearst and Otis and Taft and Rockefeller and Guggenheim and all of the others who have got in on the ground floor, own all then that they owned before they brought on this war?

And suppose we do pacify the Mexican people, will we see that the land taken from them by the favored Mexicans and Americans is given back to them?

If we are to be the great pacifiers of this continent, why not pacify Colorado, Michigan, West Virginia and every other state in the union where the poor are dispossessed of the land and then held in industrial bondage?

Our forefathers, or somebody's forefathers, fought to free this country from British rule. How free are we now?

We say the union army saved this glorious union—but for whom? Whose is it now? How much of it belongs to YOU?

Receiving a new truth is adding a new sense.—Liebig.

DEATH.

(By Clarence Church.)

He lay dying on his bed—that great expensive bed with the golden knobs crowning the four posts of hand-carved oak. His cheek was worth millions of dollars; he owned hundreds of thousands of acres of timber lands, a hundred thousand men toiled in his mills and mines, and he wedded his trees. He was a BIG MAN.

Yet he was dying! All his money, all his timber, all his mines and mills and men couldn't keep him alive. The greatest doctors in the world couldn't keep the breath of life in him.

And as he lay there on that beautiful bed, dying, he thought of all he had done, and a wretched look of despair came over his withered face. After all these years of grab, what had he accomplished? Nothing!

The men who toiled and sweated in the darkness and dampness of his mines; the women who were obliged to forsake their homes and babies to slave in his factories and shops; the little children who had bent their poor little backs over his looms; who had had their young lives stunted and deformed, torn away from home and school, and the fresh air, to sweat 'mid the grind and roar and rush of this man's machinery: All these it were, who, goaded on by the iron hand of want and hunger, had done it all. They must work to eat! And so he became rich and "great."

And what had he done? What useful function had he performed in the interests of humanity? NOTHING!

He saw now how empty it all was. He had been a robber, a tyrant, perhaps a murderer.

The great dark cloud of death was closing in around him. He felt Death's chilly fingers upon his forehead. Death was close, was wrapping the folds of its terrible cloak about him, smothering him.

Money! How useless! How dirty! How awful!

The roar of machinery, the hack-back of axes biting into the trees, the moans of tired men, the curses of the oppressed, the white slaves of industry; the wail of mothers, the cries of little children—what a maddening, horrifying din they made in his weary ears.

The men who had taken their slender pay-envelopes at his mills and mines and factories; the women who had ground away day after day in his sweat shops; the children who were grown prematurely old in his service—not one of all this great army was here near his death bed. Beside him now were only those whose hands were itching for his dirty gold, whose only love was the love for filthy lucre.

They drew near unto the old man who was breathing his last.

"All empty! All empty—and—vain," murmured the dying man. Those waiting did not understand.

HOW MUCH OF "OUR COUNTRY" BELONGS TO THE WORKERS.

Very clearly and at a glance do certain statistics gathered by the United States treasurer show the arrangement of the society in which we live. These figures indicate that:

20 people in the United States possess incomes of \$10,000,000 or over.

200 people possess incomes of \$1,000,000 to \$10,000,000.

500 people possess incomes of \$500,000 to \$1,000,000.

10,000 people possess incomes of \$50,000 to \$100,000.

21,000 people possess incomes of \$30,000 to \$50,000.

75,000 people possess incomes of \$20,000 to \$30,000.

200,000 people possess incomes of \$5,000 to \$10,000.

While 500,000 people possess incomes of \$1,000 to \$5,000.

Typical Wage is \$480 a Year.

Also and likewise 18,341,380 persons, or three-fourths of the wage-earning population, earn an income averaging \$480 a year.

There, wage-earner, are the facts. Do your own figuring and draw your own conclusions. Is it any surprise to hear that two-fifths of the men in the United States are not married because they do not make enough to keep a family? The answer to this is so easy that we will not give it to you.

98,000,000 PEOPLE IN UNITED STATES, SAYS CENSUS BUREAU

The continental United States now has a population of more than 98,000,000 while the country with its possessions has more than 109,000,000 people. Oregon has 783,279 and Washington 1,405,865.

Estimates for cities under 100,000 have not yet been announced. Portland is given 260,601; Seattle, 313,029; Tacoma, 103,418.

I have been long accustomed, as all men engaged in work of investigation must be, to hear my statements laughed at for years before they are examined or believed; and I am generally content to wait the public's time.—Ruskin's "Crown of Wild Olive."

Adventures of a Socialist

IT WAS a bright, sunny day, so

I COAXED

PAT NOLAN,

ORA GRASS and

CHARLIE OTT to desert

CENTRALIA, and take a stroll

OUT INTO the country, along the banks of the

CHEHALIS river.

AND SO AWAY we went,

CHATTING AS Socialists are wont to do,

GIVING THE Capitalist system hell;

WHEN CHARLIE spied a bird's nest,

IN WHICH were four, fuzzy little "babes"

AND WE ALL sat down a few feet away

AND WATCHED the mammy and pappy birds

PACKING FOOD to those hungry little atoms,

ONLY STOPPING for an occasional moment, to eye us or sit on a twig

AND sing a song to let us know how bright the world looked to them.

"HAPPY BIRDS" said

ORA "they have no landlord demanding rent."

"NO," SAID CHARLIE, "There's no fat capitalist sitting around

TAKING four-fifths of what they collect and calling it

PROFIT.

ALL AT ONCE the birds set up a tremendous twittering,

AND WITH every sign of fear and anger

WOULD DASH at the base of the bush on which their nest was built.

SUDDENLY Pat let out a yell and, grabbing a stick

MADE SHORT work of a snake

THAT WAS just starting to crawl into the bush

TO MAKE a meal of the baby birds.

"THERE'S your John D. Rockefeller," said Pat, as he threw the

DEAD SNAKE into the road,

AND, PRAISE the Lord, I'm proud I killed it.

"PAT," said I, "That snake was only obeying a natural law.

ARE YOU not ashamed of your bloody deed?"

PAT LOOKED at me and answered,

"MY

CONSCIENCE

ACQUITS ME."

What the Wage Slave Gains by Victorious Capitalist War

MOTHER JONES.

(By Ellis Harris.)

Dear Mother, ours, your martyrdom Shall prove the fool's undoing. The clarion call, the beat of drum, The minds of men imbuing, The minds of men and women too, With hearts too brave to tremble, Best comrades, stanch and loyal as you, Who to our cause assemble.

O no, our hearts no blood lust crave, But shall we shun the battle And bear the yoke as cringing slaves, Dumb as the driven cattle, Where "patriots," sleek scoundrels, teach Of "Freedom, like no other," To jail and gag, from right of speech,

A conscientious mother?

This with the stars and bars above, The flag we term "Old Glory," The flag that should inspire with love, But tells another story: Of traitors, shielded neat it well; Of Mammon's tools, base yeomen, That rather seem the spawn of hell Than manly sons of women.

So let us now, her martyrdom Shall prove the fool's undoing, The clarion call, the beat of drum, The minds of all imbuing, With sense to hear and sense to see, And hearts too brave to tremble, Best comrades, stanch and loyal as she, Who to our cause assemble. —New Times.

FREE LEGAL DEPARTMENT OF THE WASHINGTON SOCIALIST

Answers will appear in the legal column of the Commonwealth as soon as possible after receipt of the inquiry, and no charge will be made the applicant for advice.

Heretofore it has not unfrequently happened that comrades in trouble sought the advice of the editor of this paper. But your editor is not a lawyer, nor has he the time to devote to such matters.

LEGAL DEPARTMENT

Q. Kindly answer the following question through the columns of the Washington Socialist. Has a board of directors of a school district of the third class the right or power to make extensive improvements on the school buildings of the district without letting a contract or putting the matter to a vote of the voters or patrons of the school?

A. The board of directors have right to make repairs; but the making of extensive improvements, such as the building of an addition or extension to the present building, or the building of a basement, cannot be considered as making repairs.

The law further provides: "Whenever any board of directors shall be authorized by the electors of their district, to erect a school building, it shall be the duty of such board, before entering into any contract for the erection of any building, to obtain the approval of the county superintendent, of the plans and specifications for the building to be erected, including also the heating, lighting, ventilating and safety thereof."

The law contains nothing more in regard to the letting of contracts by a board of directors of a district of the third class than contained in the section quoted above.

Q. I am a subscriber to the Washington Socialist and want your advice on the following questions through its columns.

I sold a tract of land in Snohomish county on a real estate contract. The contract was drawn on a printed blank and is recorded. It calls for the party of the second part to pay all the taxes and assessments that may be levied on said land, which said party of the second part is willing to do.

A. There must be some mistake about the treasurer refusing to take tax money. Usually he doesn't care who pays the taxes, just so they are paid.

"And he taught, saying unto them, is it not written, My house shall be called of all nations the house of prayer? but ye have made it a den of thieves."

The best Coffee for the money is our Favorite Blend, 3 lbs. for \$1.00 or 1 1/2 lbs. for 50 cents. M. H. Clausen, 2812 Rockefeller. Telephones 581.

"THE COLONEL AND HIS FRIENDS" The Washington Socialist over-loaded with the above famous play, which was refused permission to appear in the city of Seattle. You can get it for 15c per copy of the Wash. Soc. Adv. Dept., 1612 California Street, Everett, Wn.

THINK THIS OVER

HOW SOCIALISTS SEND CAPITALISTS TO CONGRESS.

By Theodore Teep. At the last presidential election the Socialist party cast 901,873 votes and elected twenty-six Democratic and Republican congressmen.

That may be surprising but it is true. Socialists voted for Socialists but other parties used the votes. As a result twenty-six Republican and Democratic congressmen are holding jobs which they would not be holding had those 901,873 Socialist voters and their families never lived.

The twenty-six Socialist congressmen were legally counted out because we still cling to an ancient and discredited system of representation. The remedy for this great wrong is proportional representation.

Table showing election results: Democratic 6,293,019; Republican 3,484,956; Progressive 4,119,507; Socialist 901,873; Prohibition 297,928; Soc. Democratic 29,259.

Total 15,036,542 A total of 435 congressmen were elected. That equalled one congressman for each quota or unit of 34,566 votes if we figure on the basis of the presidential vote.

The actual representation of the various parties and what their representation would have been under a proportional system is as follows:

Table comparing Actual and Proportional representation for various parties like Dem., Rep., Prog., Socialist, Soc., and Prohl.

If the Socialists and their families were not counted and if the basis of representation were the same as it is now, there would be only 409 congressmen. It is very clear then that the other parties are getting the actual benefit of Socialist votes.

This injustice can be remedied by adopting a system of proportional representation. Everybody who wishes to help in this matter should drop a card to Senator Robert Owen, requesting a free copy of the senate document entitled "Effective Voting."

Particular attention should be given to the Hare system which is sometimes known as the single transferable vote. That method is very effective in the election of city councils, where the proportional system will probably be introduced first.

JERUSALEM AND NEW YORK

"And they came to Jerusalem, and Jesus went into the temple, and began to cast out them that sold and bought in the temple, and overthrow the tables of the money-changers, and the seats of them that sold doves;

"And he taught, saying unto them, is it not written, My house shall be called of all nations the house of prayer? but ye have made it a den of thieves."

"And the scribes and chief priests heard it, and sought how they might destroy him; for they feared him, because all the people were astonished at his doctrine."

"And he taught, saying unto them, is it not written, My house shall be called of all nations the house of prayer? but ye have made it a den of thieves."

Automobile and Gas Engine hand-books at Hill's Book Store, 2929 Colby Ave.

WHAT SHOULD WE EXPECT OF THE FOURTEENTH LEGISLATURE?

The use of troops to coerce the working class has been common in every age and country.

Recent examples are the extermination of the peons in a Mexican valley to create a Hacienda and the massacre of Siberian gold miners. But in this country we are told that we are equal; that there are no classes; that each citizen is an American sovereign, etc.

We must not accept this condition of things as a fixed feature of capitalism from which there is no escape. Public sentiment is becoming more and more opposed to violence and military action in social crisis.

The national executive committee has summoned a militia conference to meet at Washington, D. C., next winter. What can we do, here, in Washington state to further the purposes of the conference locally?

Our state is ahead of many in that our state constitution forbids (Art. I, Sec. 24) "individuals or corporations to organize, maintain nor employ an armed body of men," but this does not rid us of the militia danger.

What should we expect of the fourteenth legislature? Not a chance to introduce some bills and make a few speeches. Not a chance to operate a hot-air plant.

Referendum Candidate for Representative, 48th District. J. N. McCULLOUGH.

WORKERS NOT ROBBED BY HIGH COST OF LIVING.

The average wage-earner is not hurt by the high cost of living, but by the competition for jobs, there being more willing workers always than the capitalist system can employ.

With every advance in the development of machinery unemployment has increased, and the worker is year by year able to purchase less and less of the product of his own labor.

An examination of the reports of the United States Census Bureau shows that there is a glaring inequality between the average value of the workers' products and the average wages paid.

In 1850 the average wage was \$247, and the value of the product per worker was \$812. The difference between the wages paid and the value of the produce was therefore but \$565.

Statistics showing the continual increase in the value of product per worker do not make the exact amount of this "progressive" robbery of the wage slave apparent, owing to the increasing cost of material.

Table with 7 columns (years 1850-1910) and 4 rows (Average wage, Value of product per worker, Difference between average wage and value of produce, Value added to raw material by average worker in manufacture).

STUDY OF CRIME.

There was introduced in the house of representatives on January 7, "a bill to establish a bureau for the study of the criminal, pauper and defective classes."

The bill creates some salaried offices, the incumbent of which will study criminals as though they were of a different species than the rest of us.

One feels tempted on observing suggestions of that kind to inquire whether it would not be a good idea to create a commission to study the "criminologists" and learn why they do not see that existing economic conditions have more to do with crime than any abnormal characteristics of criminals.

With conditions such that all can not honestly earn their living, some will resort to dishonesty in preference to starvation or beggary. Fear of poverty will drive many to crime who are not suffering from actual need.

Instead of bills creating commissions to study the existing evils, what is needed is a bill to apply knowledge already acquired toward removing the cause of poverty.

The average Russian day laborer is said to have only about four cents a year for spending money.

MINIMUM WAGE OF \$8.50 NOT ENOUGH, SAY COMMISSIONERS.

Men Say Yes; Women Say No. Last Friday evening there was a conference in Olympia of three laundry owners, three laundry girls and three representatives of the capitalist class generally, met to determine just what is the lowest cost of living of laundry girls.

Those who voted for the \$8.50 wage were: Rev. R. H. McGinnis, Tacoma; Judge E. M. Day, Bellingham; Frank Nixon of the Raymond steam Laundry, Raymond; W. J. Doust of the Cascade Laundry, Spokane, and A. Jacobsen of the Rainier Laundry, Seattle.

Those who voted against it were: Mrs. R. C. McCredie of Sunnyside, president of the State Federation of Women's clubs, and three laundry workers—Miss Johanna Hilts and Mrs. Hilda O'Connor, of Seattle, and Mrs. Julia A. Wilson of Spokane.

Some 25 to 30 laundymen had come to Olympia to coach their representatives. They caucused till 3:30 in the morning Thursday, and with them the object of the minimum wage law was interpreted to mean: "What is the irreducible minimum upon which a girl can exist from week to week?"

Miss Hilts estimated \$4 a year for petticoats. Nixon wouldn't allow more than \$2. Two of the girls went as high as \$12.50 per year for hats, and Miss Hilts came down to \$10.

Still Nixon wouldn't allow more than \$8. The girls asked \$10 a year for amusements. Nixon allowed but \$5. And then came the question of room and board.

Mrs. O'Connor, who already gets more than the minimum law is expected to give the girls, was pleading, nevertheless, for her sisters slaving at the mangle.

AND NIXON'S VOUCHER FOR ONE MEAL AMOUNTED TO \$2.40. This is just 40 cents more for one meal than Mr. Nixon was willing to grant his wage-slaves for a week's board.

There will be another meeting called about June 1.

HERE WE ARE WITH A SIX-PAGE PAPER!

Now We'll Give You "All the News That's Fit to Print."

With this issue The Washington Socialist, the very active and immortal "soul" of the deceased Commonwealth, enters upon its career as a six-page weekly.

The comrades in every nook and corner of the Evergreen State are showing by their renewed interest and heightened enthusiasm that they have rested on their oars long enough, and that they are now determined to take control of the Ship of State in the interests of the working class, and guide it speedily into the haven of the Co-operative Commonwealth.

All signs point to a great awakening of the workers, not only of this state, but throughout the entire country, to the realization of the fact that none of the old parties is willing, or even able, to pass any legislation, or administer the laws already in the statutes, in the interest of the wage-earners.

Our answer to the effort of the capitalist class to still one mouthpiece of the exploited masses, the Commonwealth, is the present sixpage Washington Socialist!

Comrades of Washington, keep up the good work you have been doing for the past five months; even do a little aggressive campaigning for subscriptions, and then see what kind of a paper we will give you in return for your loyalty and co-operation.

ON THE OTHER HAND!

We feel pretty good over the support that we have so far received. But, on the other hand, we confess right here and now that we must depend absolutely on our readers for the maintenance of the Washington Socialist as a six-page paper.

So, comrades, it's up to you.

NOTHING TO DO WITH THE LARGER EDITION.

The fact that the Washington Socialist was taken over by the comrades of Snohomish county, last Sunday at the mas meeting, has nothing to do with the enlargement of the paper.

Work for the greater Washington Socialist!!!
