Denouncing Imperialist War preparations, and the murder of the Jobless veterans in Washington, many thousands of workers thruout the coast and Rocky Mountain regions, demonstrated on August 1st, the anniversary of the beginning of the world war. Meetings in many cities had to take place despite arrests, the refusal of the police to grant a INT. LABOR DEFENSE

permit. All the meetings adopted resolutions, protesting against the Washington murders, against the shipington murders, against the shipments of munitions to Japan, and also demanding the release of the remaining Imperial Valley prisoners, and Tom Mooney who is beginning the seventeenth year in San Quentin.

In addition to the organizations usually represented, a new and a very rapidly growing one took prominent part—The Workers Ex-Servicemen's League.

### Hoover's Bloody Thursday Challenge to All Workers

The Hoover Hunger Government launched a murderous attack against the unemployed veterans. > It is also a fact that the President delayed the attack for a week. This delay was forced by the fact that that 25 marines of those called out to attack on July 21st, threw down their guns. Hoover wasn't sure of his forces. This should prove that the American armed forces, the same as in Czarist Russia, or China, could be won for a united front with the workers.

DIXON, Calif.-Three fruit workers were found guilty at Dixon, Calif., because they were leading a hunger march of 300 starved workers and children encamped in the Hooverville along the creek near Winters. Altho 10 were arrested, only four leading workers were held, and charged with "inciting to riot." The three workers, members of the Agricultural Workers Union were sentenced to 3 months in prison or \$180.00 fine.

The trial lasted three days. It was held amidst a shower of protests from all parts of the State. The court room was crowded with hundreds of enraged workers. # SAN FRANCISCO DEMANDS ISSUED

TO MARCH SEPT, 12 Farmers and Agricultural Workers To Take Part

During the month of September a series of County Hunger Marches will take place thruout California, under the Auspices of the Unemployed Councils, and The Workers Ex-Servicemen's Leagues.

The hunger marches are to include workers in the cities, poor farmers and agricultural workers. A provisional state Hunger March Committee has established headquarters at 1507 Eddy street, San

Francisco. Provisional county committees are being set up in Oakland, Sacramento, Stockton, Fresno, Bakersfield, San Bernardino, Los Angeles, San Diego; Santa Clara and Monterey County; marches will take place during the latter part of October. Conferences are now taking

place to mobilize for the marches. The State Committee announces that immediately after the County Marches a State Conference will take place, composed of representatives from all counties, to organize a State Hunger March, to Sacramento in January, when the State Legislature opens.

A call issued for a conference to be held in San Francisco on August 21st at 1507 Eddy street, states in part:

The Workers Ex-Servicemen's League and the Unemployed Councils of San Francisco are calling a United Front Conference of workers and farmers organizations to organize the largest Hunger March ever held in San Francisco, in order to bring about the necessary mass pressure for adequate relief.

Pending enactment of unemployment insurance, the following are the demands:

1. Immediate cash payment of the bonus by taxing the rich.

# Agricultural Workers Union Organizing Many New Locals

### CONCENTRATE ON SANTA CLARA AND PAJARO VALLEY

Filipino and Mexican Workers Join

SAN JOSE, Cal.—Since the conference of the Agricultural Workers Union held in San Jose on July 18th, considerable progress has been made in the organization of new locals and strengthening of the union. New locals have been organized in Sunnyvale, Rocklin and Milpitas. The workers are responding well especially in East San Jose. Definite steps are being taken to launch new locals in Watsonville

Below in part is the resolution adopted at the conference at which there were delegates from many parts of the agricultural fields of California.

#### LOWEST WAGES

"Side by side with the approaching of the fourth year of the crisis, wages are the lowest ever recorded in California. The average wage paid for picking potatoes is \$1.25 per day (\$1.00 for board). Orange picking in the South was done mostly by city workers who were paid off only in groceries. Average wages in the southern part of the state were 171/2 to

"At the present time when the season is just starting in San Jose, workers are receiving as low as 5 cents a box for cutting cets. Thousands of agricultural workers are starving along the highways and in the jungles at the present time. Despite these facts, we have been unable to organize these workers into our union or to lead them in struggle against unemployment. Despite the fact that there were many spontaneous strikes in the past year, we have been unable to take the lead in these strikes and develop them into real mass struggles.

"1500 pea pickers struck in Half Moon Bay against the low wages and the miserable conditions (42c a sack and 17c a hamper). This strike could have been the basis for a real struggle of the AWIL but we failed to reach them until it was over. (The fact that we were able to organize a local of 35 members in spite of terrlieve in our organization). In Watsonville 100 workers struck in the lettuce field and we were not able to give them leader-

### IMMEDIATE TASKS

"Our first task must be to elect and stabilize a real leadership in the field to be able to meet the growing needs of the workers. We must set up a center in San Jose as our immediate field of concentration in the Pajaro and Santa Clara Valleys at the same time not neglecting the sections where we have an organizational foot hold.

"Special attention should be taken to drawing the women and Filipino and young workers into our union, winning them over on the basis of struggle against their special grievances such as less pay, more speed up and discrimination on the job, an energetic fight should be waged against child labor, which is more pronounced this year than ever before. Youth Sections must be organized. Youth and women directors must be elected. The Americans, Filipinos, women and youth must be drawn into leadership. A collective leadership must be established instead o the individual organizer having to do most of the work as has

MUST FIGHT DISCRIMI-NATION

"Discrimination and racial prejudice must be fought bitterly by the union. The practice of the bosses, using race against race must be smashed thru our exposing of this boss trick to keep workers divided. Our basic form of organization is farm and cannery committees, which should take up all the immediate grievances of the workers on the job and bring our slogans and demands to the forefront, rallying the workers in a militant struggle around these issues."

"Due to the low wages and drastic wage cuts which have

I. L. D. Calls for Wide Protest Against Terror

Japanese imperialism, bent upon carrying out its leadership in the world imperialist attack upon the Soviet Union, has started a bitter attack upon the Communist Party of Japan and the Revolutionary Trades Unions as a preliminary to carrying thru the Japanese militry program beginning with interven tion in Manchuria.

202 Communists, including members of the Central Committee have been convicted, one being condem ned to death. International Labor Defense, in conjunction with the Japanese Aliance of America has called for organization of a world wide cam paign of protest against the per secution of Japanese workers and cablegrams demanding the release of the Communists have been sent to the Japanese emperor.

In Los Angeles a committee of lifty workers and intellectuals, representing various workers' organ zations in that city presented a protest against the arrest and convictions of the Japanese Communists to the Japanese consul.

The initiation for employed shall be 50 cents, for unemployed 10 cents. The dues for employed shall be 30 cents per month, for unemployed 5 cents per month. Membership books to cost 5 cents to all members.

"Our immediate task is to unite the broad masses for agriculture and cannery workers employed and unemployed in a struggle for employment insurance and immediate relief. We must unite with the workers of the large cities in organizing county-wide hunger marches, calling on the small farmers for support. Where there are no Unemployed Councils we must take the initiative in organizing the unemployed there by drawing them in and strengthening our union."

### MOONEY BEGINS 17TH YEAR IN SAN QUENTIN

Warns Workers of Impending World War; Calls for Struggle

Calls for the Defense of the Soviet Union

SAN QUENTIN, Calif., August 1. the time the workers poured out on the streets to protest the new the workers to stand shoulder to shoulder in the fight against war and for his release.

Mooney's anti-war message follows in part:

"It was during the period when the United States was preparing for the last world slaughter that I was framed. Like the majority of the working men of San Francisco and the United States. I was opposed to sending the working class to the trenches to kill and be killed so that Wall Street might coin dividends. (It will be re membered that Woodrow Wilson was elected President on the basis of the election slogan of 1916: 'He kept us out of war.') This in addition to my general militant activity on behalf of labor, was the reason for my being framed for the July 22, 1916 Preparadness Day disaster—a stupid and terrible crime against humanity.

"The imperialist governments are feverishly preparing a new blood bath. Already armed to the teeth, they continue to pile up armaments. The armed forces of imperial Japan are preparing to attack and destroy the glorious achievements of the only workers' and farmers' govern ment in the world — the Soviet Union. The Japanese imperialists are wading through the blood of slaughtered Chinese and Manchurian workers and peasants, and stand at the gates of Siberia.

"On August 1, the militant and revolutionary workers of the world must raise a tidal wave of protest or insurance company. and accept the challenge thrown down to them by my continued imprisonment, and demand my unconditional freedom."

Only in the land of the Soviets de the workers fully enjoy the real benefits of social insurance laws and are taken care of in times of sickness, death, accidents and unemployment. The bourgeoisie of the United States, who knows no limit in increasing the military budget, continues, with the active cooperation of the American Federation of Labor, to oppose the introduction of Social Insurance. The American bourgeoisie has enough to spend for the army, fleet, spies and prisons; it willingly feed and sustans politicians and gangsters, but re fuses to pay the bonus to the war veterans, and forces 15 millions of unemployed to hunger, misery, and suffering.

When a workers is sick or dies or loses his job, it is nobody's business, nobody is interested in his plight. Only through determined struggle for the introduction of social insurance at the expense of the government and the bosses, will it be posible for the workers to improve their position.

I. W. O. is actively supporting the struggles of the working class. For example: during the strike of the coal miners in Pennsylvania and Ohio, the I. W. It is in the interests of every worker to join the ranks of the Order, popularize among the broad masses of workers the aim and purpose of the Order and do all to help the growth of the I. W. O.

#### PARTY MUST HELP

It should be one of the important tasks of the Party, revolutionary trade union and other proletarian mass organizations to participate in the work of this Order. Such cooperation is badly needed by the California branches of the International Workers Order. The membership in this state is still small in numbers; it did not succeed to penetrate into the broad masses of the proletariat, into the industries and shops. Isolated and burdened by the important routine of their daily tasks, without the necessary help of the Party and the revolutionary trade organizations, and without wide popularity among the workers, the I W. #### TOWARDS REVOLUTIONARY INTERNATIONALISM

Truly the class lines are being drawn on a world scale. Under the leadership of the Communist International, the revolutionary workers are strenghtening their own international ties. ### SACRAMENTO VETS DITCH DETECTIVE AT SALT LAKE CITY

SALT LAKE CITY.-We organ ized as unemployed at Sacramento, Calif., to go to Washington, D. C., to back up the Ex-Servicemen, and left July 6 over the Southern Pacific and made camp with Bonus Marchers, but were slured (shoved around) and moved camp. Elected John W. Brown as captain and found that he was an Ex-Bull.

When the people of Sparks found out who we were they treated us fine and gave us plenty of grub and the railroad men assisted us as much as possible. While at Sparks I was elected as transportation man and when leaving Sparks, discovered several new men with us and we elected sergeants for each carload, but discovered two men supposed to be back from Washington, D. We reorganized and I went to see Mr. Jay the U. P. trainmasters clerk and he asked for credentials from the American Legion as the unemployed cannot ride the U. P. trains. Then went to see U.S.L. yardmaster and he informed us as to train for Salt Lake City, and 22 of us came over and went to the Workers Center and reorganized and the writer was elected chair-

It seems that the American Legion of Ogden met Brown on in formation received from Reno, Nev and helped him and his part of the gang to go East direct by U. We are now resting at the Work ers Center at Salt Lake City and will proceed over the D. R. G. as soon as possible.

### Citizens' League Urges Farmers To Layoff Workers

YAKIMA, Wash. - Here is how he Progressive Producers of Wash ington are working to help the Starvation Plan of the Hoover Government. The Unemployed Citizens' League has been reorganized under the name of the Progressive Producers of Washington and its purpose is to further weaken and starve the masses.

I have been working hard having for a farmer in this valley for the sum of one dollar a day. Not long ago a representative of the Progressive Producers' League came out to the farm where I was working and told the owner that he had plenty of good mechanics and other workers who were willing to do any kind of work for exchange of a hog, beef, or whatever the farmer could give them

This yellow labor faker further explained to the farmer that he shouldn't pay money when he could The Unemployed Councils at this get the work done for the exchange of a little produce.

> But the farmer refused, saying: "No. I will pay all that I can to these workers because I know that these men really need the money. But the faker was not satisfied He was eager to see all workers starved to forced labor without pay. Accordingly on the next day another fellow, who looked to be just such a faker as the first, came to ask this same farmer for potatoes for the Producers' League. Neither man who came out to the farm looked as though he had ever worked. The P. P. L. is being led and controlled by just such rotten wage-cutters and fakers. more are on the verge of ruin. F. B. Headley, chief of Nevada Experiment Station, in a letter to Farm Bureau News organ, shows a report of a study of 39 farms in 1931. All were operated at a net loss of \$246 each, with no allowance for unpaid family slavery or living expenses. He concludes by saying that steps must be taken to obtain relief markets, stabilization of

tion, First and Pedro, was broken up and the speakers, including two Japanese comrades, were arrested. In the afternoon a demonstration

took place outside the Olympics ticket office at Eighth and Spring streets. The demonstration was under the leadership of the Young Communist League. Police pulled down the speakers slapping one of the girl speakers. Hundreds of leaflets were thrown into the air de nouncing the Olympics as part of

the war preparation. Despite all the tricks of the Goodyear Rubber Co. Bosses to keep their workers away from the meeting outside, 100 workers listened. The "Red Squad" was there and prevented the meeting from taking place at the factory gates, so it took place across the street which was already outside the city limits, and altho the sheriff of the other county was there, the meeting was not molested.

The scene of the Goodyear plant was repeated at the Hammond Lumber Co. Open air meetings were also held at Whittier and Arizona, Brooklyn and Ford, Cornwell and Brooklyn, 43rd and Central and at the Plaza.

### COMRADE FOSTER'S CRITICS

Like a cageful of irritated rattlesnakes, the bourgeoisie through its "left" press have set up a loud, long howl against Comrade Foster.

In the last week alone the "socialist" New Leader, the Trotskyist Militant, the A. F. L. Tacoma Labor Advocate and a number of other alleged newspapers have written at length on this question.

The Tacoma Labor Advocate is characteristic of all the rest. It declares that

#### Neither as a political nor as spiritual leader did Foster's visit to Tacoma awaken much interest.

But this unimportance does not prevent them from devoting three solid columns of a small four-page paper to a heap of the vilest abuse and calumny. The burden of their whine is that in his speeches Comrade Foster did not show consistent revolutionary ideas in the thirty years of his activity in the labor movement.

One gets suspicious when A. F. L. fakers, "socialist" preachers and Trotskyist renegades begin to worry about the revolutionary consistency of Communists. Maybe these gentlemen never heard that actions speak louder than words. Suppose Comrade Foster did change his position several times before he joined the Communist Party, that way is the road of struggle to becoming a Leninist. That Comrade Foster has always been a staunch fighter for the working class is clear from his splendid work in organizing and leading the strikes of the stockyards workers in Chicago, the steel workers, the lumber workers, the coal miners, etc.

Comrade Foster is now the militant working class candidate for president. To his long list of credits we can now add his setting a fine historic precendent in having James Ford, a Negro, for a running mate.

In these two candidates the workers and poor farmers have ardent champions indeed. The ultimate guarantee lies however, not in individuals, splendid tho they be, but in the Comunist Party, its principles and program, whose candidates they are.

A vote for Foster is a vote against hunger, terror and

A vote for Foster is a vote for the platform of the Communist Party!

### FARMERS! DON'T SIGN THE RAISIN POOL!

The biggest land grab since the Southern Pacific robberies won it the name of the "octopus" is being attempted in Fresno County, under the guise of building a Rasin Pool. The farmers are asked to sign contracts which provide:

point 1.—that the farmer must turn all his crop over to the pool.

point 2.—the pool decides what price it wants to

point 3-12.—the farmer has deducted from the price he gets many overhead charges for fat salaries plus his pro-rata share of \$150,000.00 annually to pay the Farm Board for debts contracted by previous pools.

point 6-7.—If the pool refuses to buy his dehydrated grapes and he can get permission to sell them elsewhere he must pay 25c to \$1.00 per ton graft to the pool.

point 8.—the pool automatically and for no reason at all acquires a prior lien on the farmer's land as soon as he signs the agreement.

point 9.—Should the farmer not deliver his crop to the pool he must pay a fine of 3c a pound (with raisins selling at about  $2\frac{1}{2}$ c now).

Every weapon not excluding terror has been used to make the farmers sign up. Because the United Farmers League, at 606 Fulton street, Fresno, carried on a campaign against the pool, the police announced an "investigation." The Bank of America has been signing up land without the farmer's consent. Up till August 1st, the expiration time for signing the agreement, only 48% was signed up-85% of the acreage is needed to make the pool effective. The time has now been extended to Aug. 20th.

RAISIN FARMERS! Don't sign up! The Raisin Pool means peonage for you.

### **BLOWING SMOKE INTO OUR FACES**

It is safe to say that the cost of the Shrine Convention in San Francisco and the Olympic Games in Los Angeles will run into tens of millions of dollars. The temporary wooden stadium in San Francisco alone cost over \$100,000, and was paid for out of the city funds.

### AND WHO WILL BENEFIT?

The capitalist press says it will help bring back prosperity. As a matter of fact the soup lines are longer, evictions are increasing, and the total number of workers out of jobs in the Pacific coast states was greater for June than for May, and there is already evident a further increase for July.

The only real beneficiaries have been the rich hotel proprietors, the railroad companies, and the advertising corporations. The amount of money that seeped through to the workers was so small as to be of no account. As against that the city treasuries paid huge sums to the promoters of the ballyhoo and passed on the expense in the form of increased taxation and reduced reilef.

The claim that the Olympics and the Shrine conventions are heralding prosperity is just blowing smoke into the faces of the starving unemployed. But the masses of workers must not allow that to be cloud their vision. Now, especially now, we must take up the drive for increased relief and unemployment insurance, through militant demonstrations and greater organization.

"Without Revolutionary Theory There Cannot Be Revolutionary

Workers Schools are opening up in many cities along the coast. It is the duty of every revolutionary worker to attend the classes so as to be better able to take part in the struggles before us.

# Trotsky's New Book Re-arms the Bourgeoisie

By SAM DARCY

(Conclusion)

Trotsky's dishonesty has been repeatedly shown so that it is almost institutionalized. Comrade Zinoviev points to one outstanding Trotsky's article, "Lessons on October." he wrote:

"We have seen there (in Germany) in the second half of the past year a classical demonstration of the fact that a most extraordinary favorable revolutionary situation of world importance can be missed."

Trotsky makes this belittling statement of our Party in Germany in face of the fact that he himself. in the thesis which he drew up with Comrade Radek in January 1924, nine months previous, wherein he said:

"If the Party (of Germany) had declared the revolt in October (last year) as the Berlin comrades have proposed it would now be lying with a broken neck."

#### LENIN ON TROTSKY'S BOMBAST

Lenin characterized Trotsky's defense of the Mensheviks against the Bolsheviks at the London Party Congress as follows:

"This is not a standpoint based on principles, it is the lack of principle characteristic of the 'Center'—and at the same time, naturally, of its defender, Trotsky."

In 1911, in the struggle against the liquidators, Lenin wrote an appeal to all party organizations:

"Such people as Trotsky, with his puffed-up phrases on the Russian Social Democratic Labor Party, with his kow-towing to the liquidators who have nothing whatever in common with the R. S. D. L. P., are now the disease of the age."

### Further, Lenin wrote:

"The real liquidators conceal themselves behind their phraseology and make every endeavor to frustrate the work being done by the anti-liquidators, that is the Bolsheviki. . . Trotsky and the Trotskyists and opportunists like him are more harmful than all the liquidators because the convinced liquidators state their views openly and it is easy for the workers to recognize the errors of these views, but Trotsky and those similar to him deceive the workers, conceal the evil and make it impossible to expose and remedy it.

Control of the Contro

Everyone who supports Trotsky's group supports the policy of ies and deception of the workers, the policy concealing liquidatory aims."

Still further, Lenin speaks of Trotsky as "this poor hero of example: In September 1924, in phraseology." In 1911 Lenin, criticizing Trotsky's articles sent for publication to the International,

> "Trotsky clings to the Mensheviki and hides behind particularly high-sounding and hollow phrases."

We could fill volumes with quotations from Lenin where he ex- sists of denying the role of the poses Trotsky's "Right politics dis-Bolshevik Party and belittling the guised in Left phraseology," and shows Trotsky's "liquidatory" standpoint artificially disguised beneath Trotsky's revolutionary himself he makes it clear that no phrases. In face of this, Trotsky pompously declares that his was the correct view since 1905 in the same breath that he pretends to defend Lenin against the "Rights."

It would take, not a review or even a book, but an encyclopedia to expose (1) Trotsky's lies, (2) those errors which he completely Lenin had utter contempt for overlooks or defends in his book, Trotsky's phrases. In all his works (3) his differences with Lenin against Trotsky he stated this against which Lenin has written so quite plainly. Thus, out of his Col- much and which Trotsky disregards lected Works, we are citing only in his book. If Trotsky were honest, some quotations from the pen of his work would have value despite all his mistakes as a source of historic information, but his obvious dishonesty makes his work valueless and must concern the workers only insofar as it must be answered and denounced. Otherwise it will become an effective weapon in the hands of the bourgeoisie and their agents against the Party of the working class - the Communist

Trotsky, for example, as late as October 29, 1917, wrote an appeal in which he declared:

### Eclecticism of Trotsky

Covering all his attempts to replace Lenin and Bolshevism with himself and Trotskyism, Trotsky continually protests accusations against him and insists on his own objectivity. But one is obviously impressed while reading his book that he only reaches an exaggerated sort of "objectivity" when he speaks of Lenin and the Bolshevik Party. Thus his "objectivity" conrole of Lenin and explaining things only by spontaneous upsurges of the masses. But when he speaks of one else in the world could have accomplished the jobs that he accomplished. He leaves it to Lenocharsky and Eastman to make all necessary subjective remarks concerning Lenin but concerning Stalin and concerning his bourgeois competitors, he always speaks subjectively. He explains the role of

Tzeretelli that— "He was a theoretician and not even a journalist, but a distinguished orator";

"Skobelev" was a "student playing the role of statesman on a home-made stage":

"If the first violin in the orchestra of the Soviet majority was Tzeretelli, the piercing clarinet was played by Lieber -with all his lung power and blood in his eyes. This was a Menshevik from the Jewish Workers' Union (Bund) with a long revolutionary past, very sincere, very temperamental, very eloquent, very limited, and passionately desirous of showing himself an inflexible patriot and iron statesman. Lieber was literally beside himself with

hatred of the Bolsheviks." These flounderings of Trotsky explain the struggle around and within the Russian Revolution on the basis of subjective characteris-At this date Lenin's slogan of tics as in relation to Leninism. C. C. Comrade Trotsky proposed to stop the attack on the line of the Bialaia river (before Ufa), to leave the Urals in Koltschak's hands, to remove part of our troops from the eastern front and to throw them on to the southern front. Heated debates took place. The C. C. did not agree with Comrade Trotsky and found that the Urals with their works, their network of railways, schak's hands, because he could there easily bring his troops into order, collect large farmers around him and advance to the Volga, but that first of all Koltschak should be driven back over the ridge of the Urals into the Siberian steppes, and that only then should the transference of troops to the south be proceeded with. The C. C. declined Comrade Trotsky's plan. The latter resigned. The C. C. did not accept his resignation. The commander in chief, Wazetis, a partisan of Comrade Trotsky's plan, retired. 2. Re Denikin. The affair took place in autumn, 1919. The attack against Denikin failed. The 'steel ring' around Mamontow (the storming of Mamontow) was an obvious failure. Denikin took Kursk. Denikin approached Orel. Comrade Trotsky was called from the southern front to a meeting of the C. C. The C. C. declared the situation to be disquieting and resolved to send new military functionaries to the southern front and to recall Comrade Trotsky. These functionaries demanded "non interference" on the part of Comrade Trotsky on the southern front. Comrade Trotsky withdrew from immediate participation in the action on the southern front. The operations on the southern front, up to the taking of Rostov on the Don and Odessa by our troops proceeded without Comrade Trotsky.'

Trotsky declined any direct

participation in the transac-

Comrade Stalin further points out that as late as the 16th of October, 1917, Trotsky who pretends that the Revolution could not have been won without him was not even elected on the directing committees of the Revolution.

Customs of desert life that go back to antiquity form the background of the new Soviet film. "Revolt in the Desert." which will be shown at California Hall, San Francisco, Friday, August 19, at 7:30 and 9:30 p. m. The picture was taken in the remote part of Turkmenistan, with the nomadic people of that region in the cast. It shows a very ancient and primitive type of civilization, in which the entire wealth of the tribe is concentrated in flocks controlled by the leders and the people roam the desert seeking meagre forage. There are interesting scenes of the caravan in motion, of the desert camps where the women can take down the simple huts in an hour and pack them on camels, ready to move on again, the terror of a sandstorm, the fearful menace of thirst, and the dreariness of the wanderers life-scenes photographed with remarkable intensity. Primitive mehtods of keeping house are realistically shown, and the hold of gruesome rites of healing among people held backward by their rulers are shown

Into this background of ancient superstition and ignorance comes the young Aina, daughter of the tribe, who brings the Soviet program of education. Amid the hostility of the elders of the tribe, led by her father, she opens a school in her tent and wins the children to the new way of living. The camp is split over this conflict until with the aid of workers of a nearby Experimental Farm, themselves formerly nomads, Aina and the peole win and the final scenes show the transition of the old life into the new. Under the new leadership and with the help of government agriculturists, the nomads settle, build their own and by turning to farming solve their ancient hard struggle with a fiercely hot land and gain the conditions of a better

members of the C. C. plus representatives of the Petrograd committee, plus representatives of the military organization, of the factory committees of the trade unions, of the railwaymen. Among those present were besides the members of the C. C., Krylenko, Shotman, Kalinin, Volodarsky, Shlapnikov, Lazis and others. The question for discussion is the insurrection from the purely practical point of view of organization. Lenin's resolution as to the insurrection was passed by a majority of 20 votes against 2, 2 refraining from voting. The practical central committee for the organizing direction of the revolt was elected. Five comrades were elected to this committee: Sverdlow, Stalin, Dzherhinsky, Bubnov, Uritzky. The duties of the central committee consisted in directing all the practical organs of the insurrection in accordance with the instructions of the C. C. As you see something 'terrible" happened at this meeting of the C. C., i. e. the 'inaugurator,' the 'central figure,' the 'only leader' of the insurrection. Comrade Trotsky, was not elected a member of the practical central committee, whose duty it was to

Trotsky and his followers always claim that he was the practical leader of the Revolution always utilized by Lenin, its theoretical director. But here we have an example where Lenin's role is clear but Trotsky's practical leadership s clearly absent.

direct the insurrection."

#### The Great Trosky is Tricked by a "Nonentity"

Trotsky, all through his book prepares to show what a nonentity Stalin is. Of course, to the inteligent worker, the question immeliately arises that if Stalin is such a nonentity how is it that Stalin so thoroughly trounced Trotsky in the Party discussion? The explanation lies in the essential Leninist soundness of the Bolshevik Party, the best exponent of which is undoubtedly Comrade Stalin. In speaking of Cheize, the Menshevik leader in the Duma, he says:

"He carried the ineradicable imprint of his province. Mountainous Georgia, the land of sun, vineyards, peasants and petty princes, with a small percentage of workers, produced a very wide stratum of left. intellectuals, flexible, temperamental, but the vast majority of them not rising above the petty bourgeois outlook."

REVOLT IN THE DESERT-SOV- ROAR OF THE DRAGON .- R-K-O Production and Distribution

> On stage or films, the melodrama is the ideal form for putting over propaganda. It concentrates on action, noise, and rapidly changing situations, so that in following the story the background must be taken for granted, assumed to be true. And, of course, it is this unquestioned background which is false. 'The Roar of the Dragon" is an excellent Hollywood example of this, carrying on the lies in the capitalist press of a "bandit" war in Manchurial Behind this false mask of "restoring order" Japan has seized, and is consolidating Manchuria as a base for attack against the Soviet Union; behind it both Japan and America are fighting the Chinese Soviet Districts in the Yangtse River Valley.

In "Roar of the Dragon" Japan. ese marines speed through the night with lighted torches warning the Chinese against "bandits." Such a scene, dramatically and photos graphically effective, reflects so well Japan's own hypocritical pretensions that many spectators are fooled, not knowing that the "bandits" are the Manchurian and Korean workers and peasants fighting to throw out these imperialist oppressors (of Japan, America and Britain) and that it is obviously falsehood to show a Japanese marine warning them to protect themselves against themselves. Equally falsely, the Chinese workers' army is shown led by the villainous Tsarist Russian. Arms in large quantities are stored in the hotels and stores of the imperialists and the audience is expected to overlook the significance of this fact.

The outstanding thing in this 'Roar" of laughter is a new type of slander against workers. The plot hangs on the inability of the drunken American riverboat captain to get his passengers aboard because it takes a dozen coolies so long to repair the paddlewheel. And to prove how lazy and worthless these Chinese workers are, the scene is deliberately shot in slow motion.

Already with this, Trotsky was preparing for his "explanation" of Stalin. Stalin was the leader not pecause he was the best pupil and the example of correct revolutionary leadership but because he came from "mountainous Georgia" which gives the men all the characteristics which by special arrangement with Trotsky Mountainous Georgia gave to Cheidze.

Trotsky does not hesitate to quote Sukhanov, a bourgeois commentator on the Russian Revolution, that Stalin was a "gray spot which would sometimes give out a dim and inconsequential light. There is really nothing more to be said about him." Thus Trotsky, who has been made largely impotent by Comrade Stalin's Leninist leadership of the Bolshevik Party tries to make up for his impotence by a shrill that Stalin is a politically castrated individual. And all the little "Trotskys" including that great leader of revolutionary struggle, Professor Malamuth, of the University of California, rush to Trotsky's support. He also says in a letter written denouncing one of our comrades:

"Stalinism is the stultification, the distortion, of Leninism, and apparently it demands and exacts the abandonment of common human decency, let alone of revolutionary honor. from its adherents. This is the only way I can for the moment explain your joining the chorus of cowardly detractors who attacked me surreptitiously in the New Masses and other publications."

Thus Trotsky, like a homing oigeon, has again completely separated himself from Bolshevism. openly attacking Bolshevism, written a book full of lies and distortions, dishonest and disregarding any principles to guide him, falsifving history which Lenin said was the essential traits of Trotsky and Trotskyism. We must repeat again, this book only has importance insofar as it is a weapon of the bourgeoisie against the revolutionary working class. That this is true can already be seen from Professor Malamuth whose role it is to write in the San Francisco Chronicle belittling and attacking the Soviet Union with the air of doing it from the "inside."

#### Trotsky's Trash Called "History"

This is only the first volume of Trotsky's work. So far as historic value is concerned, if Trotsky's second volume is worth no more than this, then he can lay down his pen because the victorious world's working class will consign all his writings to the trash heap where they belong.
