THE WORKERS' CALL.

"Workingmen of all countries unite! You have nothing to lose but your chains: you have a world to gain."

VOL. I. - NO. 44.

CHICAGO, ILL., JANUARY 20, 1900.

THE SILLY SEASON.
The Modern St. George, and the Trust Dragon.

"SOCIETY" TO THE RESCUE.

"Society" is as necessary to the advancement of the human race as the automobile is to the advancement of the automobile industry. If society were to disappear, the automobile industry would soon become a mere fiction. Society is the only entity capable of understanding and appreciating the automobile industry. It is society which has invented the automobile industry, and it is society which must use the automobile. The automobile industry cannot exist without society, and society cannot exist without the automobile industry.

LOST HIS CHANCE.

With the Morris, Ford, and Socialist, Dole's became Laureate.

The Class Struggle Versus the Step-by-step Method.

SCIENCE AND Sentiment.

An attempt to zone the worker's mind, but the automobile-nerds放眼未来.

There is a class of people who will not be content with a mere outline of the antithetical antithesis which exists between the socialist and the capitalist. They will demand a detailed analysis of the differences between the two systems, and the effects of those differences on the welfare of the working class. This is the spirit of the socialist movement, and it is the spirit of the automobile industry. The socialist movement and the automobile industry are both engaged in a struggle for the welfare of the working class.

A LITTLE CRITIC'S TRIBUTE.

Political Supremacy of the Working Class, the Only Way to Peace.

The automobile industry is the only way to peace. It is the only way to bring about the socialist system. The socialist system is the only way to bring about the automobile industry. The two are inseparable.

LAID ON THE SHELF.

New Capitalism Condemns the Employer.

A TALE TOLD BY A VICTIM.

"It was all a beauty when I was in the automobile industry."

In the popular conception, the automobile industry was not built on the backs of the workers, but rather on the backs of the capital. The employers were seen as the true creators, while the workers were simply the tools. But the reality is different. The workers are the true creators, while the employers are simply the tools. The automobile industry would not exist without the workers, and the workers would not exist without the automobile industry.

The automobile industry is the only way to peace. It is the only way to bring about the socialist system. The socialist system is the only way to bring about the automobile industry. The two are inseparable.
Industrial Evolution.

By WM. T. BROWN.

It is a truth widely known and generally conceded that the whole work of man...
ADVOGATES OF UTOPIA.
