THE MIDDLE

Necessary to Freedom

Socialism the Only Message of Hope for the Vast Army of the World's Toilers.

intelligent workingman of the soundthe other. Our quarrel is not with a rious obstacle to our progress lies in first, with the knowledge that all other the notion that our struggle is against interests will naturally follow. MEN. So long as we imagine that the capitalist is to blame for the conditions which exist and that there is any use appealing to him for the righting of our ngs, so long shall we move round and round in a circle and never get anywhere. HE CANNOT DO ANYTHING FOR US, NO MATTER HOW MUCH HE MIGHT DESIRE TO.

I do not question the value of labor unions-they are one of the steps toward the emancipation of labor. But they are in no sense an end in themselves. To think of them as a means of securing higher wages is to miss their real meaning. That man who thinks that what he wants, is higher IS JUST WHAT EVERY LABORER THE WORLD OVER SHOULD BE SYSTEM IS ABSOLUTELY SYNONY-MOUS WITH SLAVERY-not with African slavery, but with a far more hopeless and hideous sort. The maintenance of the wage system would mean appointment of humanity's highest and

The labor union is a sign-board pointing to something better. It means that the interests of all laborers are one, and it also means that the interests of employers and employees are diametrically hostile to each other. There is no harmony between the two and to pretend that there is, is to trifle with the facts The interests of capitalism are served by the making of profits. Abolish profits, and the system of capitalism immediately goes out of existence. But the interests of the laborer are not served by profits, because he does not receive them, and he cannot receive them. They could have no meaning to him. All he can possibly receive is the equivalent of the product of his labor, that which shall enable him to buy back all that he has produced. And that is not profit. It has a better name, a name which does not occur in the vocabulary of capitalism-

The labor union also means that the fight, they must stand together as a bids equality of opportunity. It means class. And something more than this a system of injustice from base to dome. they want. They must be united for a that all the laws are made in its interdefinite purpose. The trouble has been thus far that they have either concentrated their efforts upon a purpose that fighting a battle that ought never to be won. On the one side, they have fought for an advance in wages or against s reduction-in either case it means the maintenance of the wage system, and therefore slavery. Slaves fighting for the defence of slavery! On the other side, we have the spectacle of the trade unions contenting themselves with trying to limit the number of apprentices species of tyranny to which the Ameri can people never will and never ought to submit. I deny the right of any trades union on earth to say how many men shall work in a certain trade or Let the workingmen of this country learn at the earliest possible moment that unless their claims appeal trans parently to every good man's sense of justice, their cause is lost to begin with No cause that has not in it, so that al can see, the claim of justice, ever 'ought to succeed, or in the long run can

But apart from the impertinent in cannot be effective. No trade union no all of them together can bring all the laborers into their membership. Fewer and fewer are the great industries that unions. That weapon has lost its effectiveness, if it ever had any. When tod great a strain on human nature to expect them not to take the place of right and duty to work rather than see his wife and children starve. All the too, will defend a man in that

gitimate course for workingmen to pursue. And that course is indicated in socialism. The socialist political move ment has come into existence purely to give the proletariat an opportunity to Abolition of Economic Masters gain their freedom. Think, working men, what that movement means. It is nothing under heaven but a workingnens' movement. It is devoted abso lutely to your interests. It has no other WAGE SYSTEM AND SLAVERY, interests to serve. It does not afford an opportunity for the fulfillment of personal ambitions. No man or set of men can ride into any sort of supremacy above their fellows on the crest of the socialist political tide. It is not a movement for the offices or to build up a great political machine to repeat the tyrannies of past times. It means the Here is a practical motto for the abolition of the springs of political corawakening proletariat of the world this ruption. It means the wiping out of the May Day anniversary: "Abolish the existing political parties. It proposes to tyranny of the Middle Man!" A moment's thought will convince any proposes to make a return to slavery intelligent workingman of the sound-impossible. It proposes to bring free-ness of the principle involved in that dom and health and happiness and We ought to know, of course, plenty within reach of every human that our struggle for individual freedom being that comes into the world. It is not a fight against this man or that proposes to make it impossible for any man to climb to any sort of eminence Vanderbilt or a Rockefeller or any other on the shoulders of his brother men. man that may be named. The most It proposes to make human interests

The system of capitalism under which we are living subjects the masses to the demination of a comparatively few. Economically speaking, we are all consumers. We must all have food and clothing and shelter, if we are even to exist. And if we are really to LIVEf we are to have anything worthy to e called LIFE-we must have a great deal more than food and clothing and We must have good food, clothing which gratifies our tastes, and shelter which is at once healthful and beautiful. We are more than a pack of animals, the theory of capitalism to the contrary notwithstanding-we are men and women. We have something more wages needs enlightenment. WAGES than stomachs, something more than physical perves and sensibilities. We have capacities for countless other and EAGER TO ABOLISH. A WAGE higher things. We love the beautiful or would if we had the chance. want to educate ourselves. We want to see and create beautiful things, hear and compose beautiful music, have leisure for travel and recreation. I hold the defeat of civilization and the dis- that these are all our natural rights And one man is just as much entitled to them as another. No man was ever meant to be the slave or the drudge of another-nor was any woman so meant -no matter how high the price paid for that slavery or drudgery. To attempt to maintain any such hideous doctrine is to nullify all morality and make one's self a beast.

The message of socialism to the vast army of toilers the world over is the only sane, hopeful, cheering, brotherly message that is being spoken to day. It has an insight into the present and a vision of the future such as no prophet of all the past has had. It declares that the earth belongs to all the people, that every human being that comes into the world bears stamped on his nature in its manifold capacities the certificate of his Socialism rests securely upon the well-supported conviction that life therty, and the pursuit of happiness are a universal possibility. Experience has only painfully proven that they are not a possibility under the regime of capitalism, indeed, that they are not thinkinterests of all laborers are absolutely able under that regime. And why is identical. If they are ever to win their that the case? Because capitalism foris necessary. They must know what It could not exist a day, but for the fact ests and the further fact that as yet the masses are ignorant of the power

The truth is, we are consenting to live under the tyranny of middle men. We are all consumers, and the mass of un are producers. It was perfectly natural that a class of men should be produced which should stand between producer and consumer at first to the great conmiddle men has become the MASTER CLASS, and both producers and consumers are absolutely at their mercy. They are the profit-mongers. Neither producers nor consumers, as a class, reelve profits. But this class of middle men is absolutely supported and maintained by profits. And they hold in their hands the government, the press, the church, society, everything. Are they morally worse than other men! all of them, and none of them at the beginning. If they have become posessed of the nature of tyrants, it is the inevitable result of their position. So long as we tolerate such a class, we are esponsible for them. Whether or not they are to continue depends entirely upon-us. We can abolish that tyranny nomic class. And there is every reason why we should do so.

The world has suffered from the tyr anny of the ecclesiastical middle man, and it still tolerates him to some ex But society as a whole has abolshed that tyranny in this country. We have no established church or religion. No priesthood has any legal right to nand our obedience or support Was this ecclesiastical tyranny represystem was and is the very essence of comocality, and its influence has no

MAKES NO CHANGE ORGANIZED

Only, Leaving Base Intact.

Fallure of "Reformers" to Grasp This Fact Renders Their Efforts Futile

Occasionally one meets with what might be called a reformer-socialist; In the coming great political battle? that is, a man who has come into so lis it to quietly swallow the "issues" cialism from a reform movement and that are promulgated by the Hannas has brought with him his reform ideas and silver barons to divide the workand methods. He has been attracted to ers, and to throw up their hats and socialism by its lofty sentiments and how themselves, hoarse for the demaideals, not by a thorough study of the gogical office seckers they put forward? economic question. He has caught a Is it the duty of organized men to de-glimpse of the general outline of the nounce each other and to pull each oth-Co-operative Commonwealth, but has er's hair out, so to speck, over the quesfailed to grasp the socialist philosophy tion of whether a McKinley or Bryan or of history and the class struggle. Com- Dewey or Smith or Jones is "the best ing into the movement by the senti- man." and as to whether there should mental route, it is not strange that he be a silver or gold standard, imperial-should cling to many of his old methods ism, tariff or a canal built in Central and tactics. He usually looks upon so- America? cialism as a new reform movement and so thinks it can be attained, like other unionists possess common sense, and reforms in which he has been inter-that they understand the historic mis-ested, a step at a time. His lack of slon of organized labor, or are willing economic knowledge has led him into to learn the same, that they are open to this error.

ples of socialism reveals the fact that the movement is not a reform but a revolution. A reform merely proposes a re-adjustment of the relations within under its operation a new slavery has the present class organized society. Its does not involve a change of economic base. It merely effects a change of externals. Revolution, on the other hand. nvolves a change from within, a change in the internal mechanism of society.

The reformer is constantly deceived by appearances. He observes that with progress externals change, and so he becomes satisfied with mere outward the wealth produced by the workers for appearances. He fails to observe that generations, until today we have externals may be altered without a change in the internal mechanism. While the reformer lays the whole emphasis on outward forms, the socialist cares nothing for external forms, he looks only at the internal mechanism. ply the blackest knout to our active He knows that internal changes are necessarily followed by external manifestations, and that these outward net are used against us without

The socialist, then, looks behind the

form to the internal condition. As to whether a measure is socialistic or not depends upon its internal mechanismupon the standpoint from which it pro-A measure may be apparently socialistic:: that is, it may be so in outward form, while its internal working may be anti-socialistic and designed to if we are deserving of the name of serve the interests of the capitalist American citizens and intelligent hu-For example, the reformer and man beings. socialist both want to nationalize the possible for wage workers to become rallways. The former desires to nationalize them as a reform, while the latter proposes nationalization as a revolution, duction which our forefathers owned, In either case there would be a change and which ownership was a guarantee n external form. The difference is, that of independence, have developed into the reformer would confine the change vast, scientific labor-saving machinery. to externals, while the socialist would cause a change in the internal mechan- arbitrarily, by means of combinations, ism. Reform" Deals with Externals Upon Which Side Will It Stand in the Pending Campaign?

RECOGNITION OF CLASS RULE, DUTY OF TRADE UNIONISTS.

The Solution of the Labor Problem to Be Found Only in an Intelligent Use of the Ballot.

What is the duty of trade unionists

The writer is of the opinion that trade reason and that they are loyal to the A clear understanding of the principle declaration of principles of the great combined economic movement.

What is that mission? The abolition of the wage system. Why? Because been introduced, and from its prolific womb spring all the social lils of which we complain.

Under the capitalistic wage system abor is so successfully robbed of the fruits of its toll that an insignificant percentage of the population of this country has succeeded in getting control of all the natural opportunities and harn contrast of an arrogant, cruel and despotic plutocracy on the one side and a plundered and oppressed army of tolles on the other side

When we organize the capitalists apworkers; when we strike, the policeman's club and the militiaman's bayochanges will take care of themselves. slightest compunction; when we boycott a brutal labor-crushing concern, the courts are ready with their injune tions; when we demand labor legislation, the politicians sneer at us, pigeonhole our wills, or, even if they pass most unimportant ones, the courts declare them unconstitutional.

'Has not the time come to act? It has Today it is no longer rich and independent, which was their ambition in the past. The tools of procontrolled by the capitalist class, which tionized by the introduction of labor-

With the continuous introduction of to enjoy for little more than mere rations. The labor class, according to the census reports, is propertyless, and with the capitalist class and gain control of the industrial situation through economic effort. That is settled beyond

This is so, because as already stated, the employers already possess the tools of production, the labor-saving machin the proletariat point of view, and has ery, and they are now entrenching themselves in capitalistic unions known as trusts and monopolles. There are Socialism, then, is not a reform but a today no less than 600 trusts and monopolies in existence in this country, this fact would save the reform-socialist capitalized at upwards of \$5,000,009,000, from many mistaken efforts. It would or over a billion dollars more than was invested in production in the census year of 1890. In other words, all the live capital of the nation has become restified or monopolized. It is now beng used co-operatively by the many for

stage of the evolution of capitalism; namely, the combination or trustifica yndicates, which are more or less close-ly connected, and which work together unanimously. These syndicates are and mining combines ,and they have

trusts are making a similar move. The Standard Oil trust, for example, already controls over thirty subsidiary trusts, and with their immense income each year the Rockefellers are able to gobble up the choicest "industrials" on the market, and each new trust added to their string means still greater profit and power. Thus the Rockefellers dominate largely in oil, leather, lead, copper, rubber, tobacco, whisky, cotton oll, sugar, gas and electric lighting and power, steamships and railroad transportation, iron mining, natural gas, barbed wire, fertilizer, salt, glucose, bricks, linseed oil, silver mining, auto-mobiles, etc., etc. Thus it is not diffi-

cult to see what the end will be. Owing to the fact that wage workers of this country, who are the consumers as well as the producers, receive less than one-fifth of the wealth they produce, consumption cannot keep pace with production, and so the warehouse are again filling up with surplus products for which there are no buyers. Signs point to another industrial stag nation and panic in the near future. It will be welcomed with joy by the great wind and, water out of many of the trusts, dump the owners "common" stock-the middle class-overboard (and at the same time reduce wages), and own everything themselves. The trust of trusts will be complete. . The holders of preferred stock and bonds will be in clover and can fraternize beautifully.

Meanwhile, what will be labor's pe tion in this great game of life? Will it weakly continue to follow the Judases and betraying politicians of the capitalistic parties? Labor will do no such thing if it is intelligent enough to understand its own class interests. trade unionists are now resisting the capitalist class upon the industrial field, and henceforth it becomes the duty of the trade unionists to likewise resist the same class upon the political-field, and become leaders in the labor army. In a word, they must be LOYAL to the fundamental principles of their organizations!

At the last convention of the American Federation of Labor, in Detroit, December 11-20, it was officially declared that no legislation would be seoured from the state and federal govmended that local and central bodies of labor take independent political action along the lines enunciated in the Federation's declaration of principles It was likewise declared that the trusts and ly good at figures. nonopolies cannot be destroyed by demagogical politicians, but, on the contrary, were the logical evolution of the capitalist system. The Federation. thereupon clearly pointed the way out of the wilderness of capitalism as feltry when not a single member of their

And, furthermore, that this conven-tion call upon the trade unionists of the United States, and workingmen gener-ally, to study the development of trusts nopolies with a view to nationalzing the same.

Here is the solution of the labor probem. The nationalization or socialization of trusts and monopolles is now the pattle-cry of the loyal trade unionists of the United States (as in other countries as well, by the way). The time has come to bury past prejudices and animosities and to rally to the standard carried by Debs and Harriman.

"Turn from the past; it is ionsly.
And barren and bleak to the view.
It's fires are cold, it's stories are old,
Turn, turn from the past to the new.
Today leads you up to the hill-tops.
That are kissed by the radiant sun.
Today has no temb. life's hopes are in Today has no tumb, life's hopes are in And today has a prize to be won."

And that prize is the Co-operative

Commonwealth. Socialism in our time! M. S. Haves.

Quid Pro Quo.

"In discussing the spirit of the S. L. P., I am struck by the exhibition of it which appears in Comrade Benham's letter, which I wish everyone of our comrades to read with care, especially the paragraph in which he charges our executive board in "innuendo" so direct that specific averment could add nothing to list force, with being in the pay of capitalism."—Eugene V. Debs in Social Democratic Herald, April 21st.

ROUND I, S. D. P. COUNTER. (Not

ROUND I, S. D. P. COUNTER. (Not at all "innuendo"):

"The S. L. P. does not know its membership, and has studiously evaded giving any definite information concerning it. With these facts confronting us, it will be seen that their vote would depend upon the returns made by the secretaries of local, sections. Under such conditions, while WE DO NOT CLAIM that the returns would be fictitious. YET WE CONTEND THAT said returns MIGHT BE SO in the case of the S. L. P. Hence a majority of both parties, voting as one, might be a fictitious majority sô far as the S. L. P. is concerned."—Berger, Cox, Heath and Stedamn in the "Manifesto," S. D. Herald, April 7th.

S. L. P. CROSS-COUNTER. ("Innu-

"Might not the Republican party so interest the four signers of the manifesto that they would make the stand they have for Democratic as against anyfiling and everything? UNDER SUCH CONDITIONS, WE DO NOT CLAIM that such is the case, YET WE CONTEND THAT It MIGHT BE SO."—G. B. Benham in Workers' Call, April

onors about even. You should have been present at the beginning of the the power, and use it, too, to crush inde-pendant concerns. We are informed that after election the twelve great iron and steel trusts will combine, and the coal ism. WORKINGMEN, unitel

Let us save our fighting blood for the purpose of attacking the enemy.

The politicians are now fixing up platforms to catch votes; will they catch

Socialists have a large chance just now to exercise the beautiful virtue known as charity. There is no occasion to become ex-

cited; no man nor set of men can stay the march of evolution. The battle-cry "Workingmen of all

countries unite," applies also to workingmen of the United States. Socialists will have a much better use

for May 1 than to put it in shouting for Dewey or any other military man. Suppose the rumor that Croker was

dead were true? The system by which he got sich still goes marching on.

The federal constitution will be called on to do some surprising contortions the first time the socialists capture a state,

The workingman must be contented with the prosperity that is left over from what the other fellows cannot use.

No good will be accomplished by turning out Senator Clark as long as a system is left whereby he can buy his way

One of the vested rights of the poor man is to go hungry; the police and the regular army will see that it is preserved to him. Unless the socialists nominate, work-

ingmen will only have a choice between two lawyers in most of the congres-After the recent exhibition of power

the steel mills continue to vote for private ownership? The workingman who can figure out the difference to him whether Hanecy,

how much longer will the workers in

Carter or Tanner is governor is certain-Even if the Democrats should get into

power they would smash the trusts so sefuly that the latter would not know anything about it. How do workingmen figure they have

a voice in the government of this coun-

class is in congress? The socialists do not want to get into power until they have back of them a majority of the workers who know ex-

actly what they want. The queen says, " my troops," and that tells the whole story: they are fighting for her and her class and not for any interests of their own.

Dewey pays no attention to the warnings of the Chicago unions. Perhaps his wife would feel disgraced if the admiral should get the labor vote.

What an amount of energy on the part of the voters goes to waste, in for the purpose of putting another into

The Filipinos certainly cannot know how well they would be treated; we would give all we needed of them work for 12 hours a day: -the rest of them could starve.

No one got very much excited when Americans were being murdered in Turkey but as property was destroyed he sultan is notified that he will have to pay for it or fight.

Denver people who were going step at a time when they elected a council in favor of municipal ownership found that it was a step backward when the aldermen sold them out.

Suppose workingmen should starve blers may profit? There are plenty of workingmen who are only half starved to take their places.

As the commercial classes make the law it is only natural that they should not be made so long as to favor workingmen. The latter would make laws in their own favor if they were in power and as they are in the vast majority there is no good reason why they are net in power.

PARTY MEMBERS TAKE NOTICE !

The Central committee will discuss the question of the party name next Tuesday at 8 p. m. at 65 N. Clark strest. All party members can participate in the discussion Other matter of importonce will also come up for considera-

The Socialist Vote.

"LEST WE FORGET!

There is one side of the trouble with in the party that most of the comrades forget and that it is just the forgetting that is causing a lot of trouble-that is the effect upon the party press. When the comrades are using their time and energy to fight each other, the propaganda suffers, and while meetings and pamphlets can be recommended at any time with greater energy, a paper must be kept going continuously to be of any

be sufficient to bring them in.

THE SIGNIFICANCE OF MAY DAY. It is universally recognized through

out the capitalist world that the first Day of May is closely associated with the interests of the revolutionary proletariat, and in many European countries that date is looked forward to with doubt and alarm by the exploiting Let freedom's banner be unfuried. To right and justice cling: letariat, and in many European counclasses, who recognize that the great body of wage earners by whom the day And fear no earthly king.

—J. E. Nash is celebrated, represent distinct class interests whose supremacy means the overthrow of the capitalist system. The fact that the initiative in setting this day apart, came from the wage working classes themselves, carries with it also a significance that the ruling classes de not overlook. Before the workers had attained to the knowledge of the international solidarity and common interests of their class, before that knowledge had become sufficiently clear to abolish all national boundaries, and labor, the days set apart as labor holidays were in a large measure prescribed by the ruling classes, and the majority of the workers meekly accepted the dic tum of their' masters, more perhaps from the fact that a short respite from toll was given thereby, than from any other cause. Such days as a rule were king, queen, or other prominent representative of the ruling class, or as marking the date of some political event by which the scowing strength of capitalist development achieved victory over their reactionary enemies the feudal classes. But the establishment of the first of May as a day devoted to the aspirations of the proletariat and inaugurated directly by them, is a different problem entirely, as it clearly marks the entrance of a new power on the economic and political field, a power that can make no truce or hold no compromise with the supporters of the present economic system, a power whose realization means the passing away of the old forms of society, and the establishment of a new economic system based upon the broadest principles of justice and freedom. Though formally inaugurated by the International Congress held at Paris in 1889, the class-conscious workingmen of the United States may the energy of the toiler. justly claim that they were largely instrumental in having the 1st of May sejected as the International Labor day, turn the great international holiday of that day having been used in this country for several years previously as an initial day for different trades unions to attempt to obtain shorter hours and better conditions generally, in their respective trades, and that this fact to a farge extent determined the action of

the International Congress in 1889 in

the material interests of the projetariat

of all countries, is shighly probable.

Since that period the economic force that have been steadily making for se peculiar significance It has become a day of inspiration for the workers and of terror for their masters. It is also a protest against the attempts to popuarize militarism, territorial aggrandize ment, and that sham patriotic sentiment by which the exploiting class hope to perpetuate the system of capitalist supremacy. The first day of May is in its final essence a clear expression of the class struggle, the conflict between the upholders of the system of private property in the means of production, and the disinherited tollers who create present ruling class, and the establishment of the new economic era, in which man becomes master of the means of production instead of their slave.

TRUTHS FOR TRADES UNIONISTS.

Tis said that eighty-five per cent, That labor now produces;
Becomes the prey of wealthy men,
Through legalized abuses.
Though few in numbers, they project,
The laws that rule the nation;
And all the claims of wealth protect,
The LAW is their salvation.

They own the daily press, and plan They own the daily press, and plan To govern each election;
And fool the honest workingman.
To vote his own subjection.
All honest toil these men evade,
Yet live in kingly splendor;
And manage so that courts are made,
To be the thieves defender.

One thing alone the rascals dread, From this alone are shrinking: They'd rather see their workmen dead Than do some honest thinking. Grown desperate with want and care, The workmen congregated; To gain a little larger share, Of that which they created.

In wondrous haste the daily press, Sought out a close communion; All economic truth suppress. Within the labor union. Our congress shows how well they plan; Behold those labor shirkers. With not a single workingman, To represent the workers.

The union throws its time away. Now the point of this is that The Workers' Call is in need of more subscribers and additional support of all kinds, and we hope that this hint will the state of the state of

Good common sense would bid us think Till all became united;
Old party ties would quickly sink,
And labors' wrongs be righted.
Then think, discuss ideas, and then
Be never more contented;
Till in our congress, workingmen
Are fully represented.

Wake up, wake up, Oh! workingman,

SOCIALISM. A Definition (with Apologies) by Eugene V. Brewster.

Socialism is a system not to be appalled, corrupted or compromised. knows no baseness, it cowers to no langer, it oppresses no-weakness. Fearless, generous and humane, it rebukes the arrogant, cherishes honor and sympathizes with the humble. It asks nothing but what it concedes; it concedes nothing but what it demands Destructive only of despotism, it is the sole conservator of liberty, labor and proclaim the universal brotherhood of justice. It is the ripe fruit of democracy, the law of nature pervading the land. It droppeth like the gentle rain from heaven upon the place beneath. equalizing opportunity, dispelling inequality, and restoring to every person his natural manhood. . It breathes into the soul of labor the new life of the world and raises it from the level of the heast. It restores to the producer his stolen implements of production, equitably distributes his products and trans forms the lowly slave into ripe and beauteous manhood. 'It not only appeals to selfish materialism but to th highest moral and intellectual attributes known to our nature, yielding bread in abundance to the starving moral food for the idealistic and the highest conception of justice to all. The ignorant, the vulgar, the base in spirit may denounce it as a dangerous thing, but in the social and industrial evolution socialism shall show to all the world that its principles are eternal, its laws immutable and its consummation inevitable. It is an actual dream of the future paradise and sees in the present only a hideous nightmare. It seeks no to remedy or reform, but demands a peaceful revolution from slavery to equality, from tyranny to justice, from base and ignoble degradation to com mon happiness and contentment. It is noble, it is sublime-the perfection of human endeavor, that, recognizing the mutuality of all true human interests, quickens the pulse of the statesman erves the pen of the scholar, invigorates the voice of the orator and doubles

> Where else save in America would the capitalist class have thought to labor into a celebration of a victory in a plundering expedition for gain. same competition that produced the trust is driving its, defenders to every possible, device to keep the workers from realizing their slavery and trying to break their chains.

Up to the present no "reformer" ha attributed the poverty of the workers to the fact that the porch climbers have abstracted their diamonds and jewelry. Inventive genius is seemingly at a low ebb amongst them just now.

"Well-dressed pedestrians whom no would mistake for pickets were pushed and shoved and told that they were blocking the sidewalk," says ar ndignant "Board of Trade" man who was hustled by the police round the Merchants' Loan and Trust building This account which appears in the Tribune of of April 22nd, gives a pointer by which the workers can be identified. A well-dressed man cannot be mistaken all wealth, the conflict that can for a picket. "By their rags shall ye mark of the stock gambler, the laborskinner, the politician and the parasitical hangers on of capitalism.

> The closing down of the American Steel and Wire mills has evoked much some of it so significant that if the brains of the working class were in anythe cause of the evils from which they suffer.

With remarkable unanimity the capownership of these mills enables the in dividuals who control them, to take away the means of subsistence from the ladies' society, they will also "prom the thousands who must work there or ise radical, reform" on anything else

But what is the difference between the power of J. W. Gates as representacan Steel and Wire company and the proprietor of any single factory, mill or mine? It is a difference of degree, not of kind.

In both cases the same power presents the workman from exercising his labor power on the means of production; the individual ownership of the tools and materials by and on which labor power must be expended to create a product. In both cases the same result is reached. Wage slavery stands so palpably condemned, that even the upholders of the system itself, cannot, in the face of this latest demonstration, find an excuse for its existence.

But in a few months, these same pa pers which have written so boldly, and shown so plainly, the frightful results of the system of private ownership of the means of production, and the abject slavery of the dependent propertyless class, will give forth an utterly different note. What will they say?

What will they say? As the presidential election draws near they will tell the workers over and over again that they are free men, and that their interests are identical with those of the cossessors of the power that makes them starving tramps, whenever the desire for increased profits makes "closing down" necessary.

What remedies are offered. Listen ye workingmen! Laws are being demanded for the protection of the stock gambler and labor skinner, but not one proposition for the protection of your class

And why not? Because you have not yet sense enough to unite for your own interests and elect, your own representatives into the law-making bodies. That would be socialism, and therefore not to se entertained for a moment, you say? Well, time will show you that you will have to chose between socialism on the one side and starvation and slavery an the other. And it won't take a very long time either.

The strike in the building trades has reached a critical point. The "friends" of labor are trying to make a "settlement' 'and during the negotiations it were well to watch them closely. That political fakir, Harrison, is attempting to induce the workers to surrender th ceystone of their united strength, that is the Building Trades council. that bond of unity is broken the whole fabric of local trades unionism falls to pieces like a house of cards, and the rapacity of the contractors be left to work its will unchekeed. The enemies of the organized workers are those who advise a settlement of the conflict by dealing with single trades.

The same men who decry unity at the ballot box, are the ones who are now attempting in this manner to disrup the ranks of organized labor. Workingmen, watch your leaders, even if you consider them faithful, watch them!

Did you notice that most of the houses that were being pulled down as unsanitary, are those which are unoccupled or for which no rent is being paid All "reforms" which do not threaten rent, interest, or profit, are easily carried through.

The steel skeleton of the Chicago post office still remains as it has been for nonths. Work there is at a standstill. And yet there are workingmen, ployed, who feel proud that McKinley s a member of the Bricklayers' union.

Owing to alleged injuries inflicted on some of those pioneers of capitalist civilization called missionaries. has been decided to hold up the Turks or \$100,000. If the victim cannot produce this amount "we" are going to the port of Smyrna. The Turk should call to mind the Kiaou-Chiaou episode some time ago in China where Kaiser Wilhelm's fleet seized the port and nearly 3,000 square miles of land for

SNAP SHOTS BY THE WAYSIDE, the same alleged reason and still holds on to it with the "mailed fist."

> He should also be informed that although "we" don't use the expression "mailed fist," which figure of speech is the exclusive property of Bill Hohenzollern, yet there is amongst us an understanding that once the American flag is holsted upon a foreign shore it must not be hauled down again. Also that the idea of expansion is not likely to be abandoned while the supply of missionaries holds out. Taking these facts into consideration it would seem that the best policy for the "unspeakable one" to pursue in this case, would be to follow Kipling's advice, and "pay,

A "crusade for vocal sweetness" is being undertaken by some New York women who would probably die of inanity if the opportunity for dabbling in "reform" was denied them. These ladies are now forming a society whose object is "to make speech agreeable to the ears." This society "appeals to women all over the country and promises radical reform in the tones of American womanpood from the platform and in the home." These ladies evidently think that similar organizations for work among men are unnecessary. They are correct in this supposition. Their husbands, fathers, whose speciality is making speech agreeable to the ears of the proletariar, and their organizations get particularly active around election time. Like the ladies' society, they will also "prøm". Fraternally, etc. A "crusade for vocal sweetness" is emarkable comment in the daily press. ises radical reform in the tones of way active, they would not need to evidently think that similar organizalisten to socialist speakers to find out tions for work among men are unnecesitalist press deplores the fact that the agreeable to the ears of the proletariat. ly active around election time. Like ise radical reform" on anything else. for the purpose of keeping their class in power. When they fail to do this, the bottom will drop out of the "Society for improving the speaking voice," the tive of the stockholders of the Amer- ladies composing it may have to do some real work, and "reform" will get a much needed rest.

A Suggestion As to Party Name.

A Suggestion As to Party Name.

To Editor Workers' Call:

Dear Sir:—

Will you permit me to suggest the idea that in the coming referendum vote, the opportunity be also given to vote upon the question of dropping all qualifying terms and voting simply for the term SOCIALIST PARTY. Briefly stated, the reasons I would offer are these: We now have the Socialist Labor party, Social Democratic party and Christian socialists. Socialism is, in its very nature, intended first to elevate the laborer; second, it is pure democracy; third, it is essentially Christian; and in fact the highest ideal both of Christ. in fact the highest ideal both of Christianity and humanity. Now there are a vast number of people who are being rapidly educated up to the idea of so cialism, but not having leisure or disposition to thoroughly investigate the claims of all the different factions are apt to unite with one or the other, thus dividing our strength. I know many myself who have so long opposed the Democrats they could hardly be induced to vote a ticket that reminded them in any manner of their old prejudent. in fact the highest ideal both of Christ them in any manner of their old preju them in any manner of their old preju-dice. Then there are the Christian ao-cialists, which I have good reason to think are multiplying more rapidly than most of us think. The simple term "So-cialist" will suit all, whether fully edu-cated upon its different phases or not, while some qualifying term, though per-fectly proper to one thoroughly posted, might cost a large number of votes. We can all see that votes are most es-sential; as there are many (partly in-formed), that hesitate to vote where they know they will be outvoted, who they will be outvoted, who will gladly join us as soon as our vote climbs up into the millions. Since writ-ing the above my attention has been called to a communication of E. F. Hassinger in the last Issue of the Call, and I would most sincerely second his recommendations. I enclose fifty cents to renew my subscription which has been sent heretofore in the name of my son. Geo. S. Nash, having become thosoughly convinced that socialism is the ONLY solution of the labor problem and of justice and equality. I have decided to throw my whole life into the work, consequently you may in future send it in my own name. alled to a communication send it in my own name. Respectfully,

E. Nash -Minneapolis, Minn., April 17,1900.

A Sample of "Justice" for Socialists.

Editor of The Workers' Call: I am a native-born American citizen I have been living in Chicago fifteer years. I am a horse-collar maker by irade. My employer will tell you that I am a hard worker and a peaceable man. Tonight I was going down town when I met Elmer Vandervoort on Madison street. He stopped me and asked me where I was going. I answered that I was going to get a shave and was then going down to State street. He said he was coming right back and asked me to come with him. I said all right. We had gone only about twenty-five yards or so when a policeman put his hand on my compan I am a horse-collar maker

socked us to the amount of \$8.40 and the end is not yet as we have to go to the justice shop mill Monday morning to be skinned a second time and lose a half a Further comment is un-

recessary.

Yours truly,
John T Gamble.

P. S. I protest that it is an abomniable outrage that I should be arrested. Imprisoned in a fifthy hole and robbed in the above manner. The only plausible reason that I can give for the action of the police is that my companion sells socialist literature and the ruling class do not like it. This occurred about 6:30 p. m.

As to Methods.

Editor Workers' Call: The time is fast approaching when the

Editor Workers' Call:

The time is fast approaching when the socialist workers will be out on the streets, in the halls holding meetings, calling the workers together and making plain to them the existence of the class struggle and its inevitable trumph by the overthrow of the capitalist class through the unity of the workers for the conquest of public power at the polls. One thing is necessary, that the speaker in the hall and on the stump, and the literature which is distributed should be in harmony. One thing is certain: in the work of educating the masses the socialist agitator will find the most potent factor to awaken the workers to be the fact that our methods as well as our principles are entirely different from those used by the eapitalist parties; that while in a political campaign of the capitalist party the personality of the candidates is pushed in the foreground and they avoid as much as possible to discuss their alleged principles. They look upon the mass of the voters as a lot of fools and mules, and therefore they in make a great deal of noise about the fact that this political heeler has flooped from Bryan to McKinley, or that political heeler has flooped from Bryan to McKinley, or that political inverse the mules by sounding the bell. The socialist agitation can never take that form one thing must be insisted upon, that the candidate subordinates himself to the principles of socialist maye, we want the amajority, and we will get that majority, and we will get that majority work sooner by insisting that we want the amajority, and we will get that majority much sooner by insisting that we have developed from Eryan to those who are different should be looked upon with susplicion.

We want a large socialist tote for the workers, and those who act different should be looked upon with susplicion.

We should keep an eye on those who make a personal canvass. They may be all right, but the election of no one man can help the working class. When a man runs away ahead of his ticket the circumstances sho nan can help the working class. When man runs away ahead of his ticket he circumstances should be looked the circumstances should be looked into. There are exceptional cases, like that of Comrade Marcus in the Seventh ward in this city. He was in no wise responsible, and stood straight for the principles, but we know the spill in the party was largely brought about by giving undue prominence to men who concentrated on their person double the vote that the party got, and there is good reason to believe that such results are obtained by dickering with the enemy. Our methods must be clean for principle.

B. Berlyn

BOOK REVIEWS.

THE PEOPLE'S MARX. A popular epitome of Carl Marx's "Capital," lishing Co., 23 Duane St., New York. Cioth, \$1.50; paper, 75 cents.

Although it has to a great extent

become the fashlon to present the public with alleged condensations of the whole circle of human knowledge comprised in the space of one or two small volumes, in deference to the supposed "busy" man whose time is too valuable to be spent in study, it must not be supposed that the work before us is to be included in this category. M. Gabriel Deville does not pretend to give the reading public a simplification of Marx's great work, a comprehension of which will always demand close application, and an average reasoning power on the part of the economic student. The remark of the ancient mathematician to his kingly patren, "Sire there is no royal road to geometry" is equally applicable to economics, and he would understand the complex social structure which exists today, cannot hope to attain that knowledge with small effort. The about twenty-five yards or so when a policeman put his hand on my companion's shoulder and arrested him. They started across the street and just before reaching the opposite curb Vander-twoort turned around and beckoned to me—he wanted to send me to friends of his for assistance. I started towards him when an officer in plain clothes arrested me also. The officer said, "You were going to help him (Vandervoort) give the policeman a beating were you?" I protested at being arrested and assured the officer that I was entirely innocent of any evil intentions. But he said "we do not believe anything you say." At the station we were put to the indignity of being searched. The fifteer read our private letters, counted our money, and when the officer goin hrough he asked me how I liked the JOKE. I said "this is no joke but a limed outrage." It was after 2 p. m. when we got out. The court officials of the purpose of this work is omitted. The purpose of this work is work upon our desk is neither more or

to give the reader a complete outline of the nature of capitalist production according to the Marxian theory, in the hope that said reader may be induced to apply to the original work itself in order to complete the details which are necessarily lacking in this abridgment, and we are of the opinion that M. Deville's work will completely fulfil this purpose. The author has succeeded not only in presenting the outline as a complete whole, but also in compressing it into less than 300 printed pages. and when the moderate price of this work is considered it must be admitted that those who desire to make themselves familiar with the Marxian philosophy have been given an in-creased opportunity of so doing, by the publication of this excellent epitome.

"LET THERE BE LIGHT."

Comrade Johnson of the S. D. P. Clears Up Some Tangled Ideas.

Comrades:

[A copy of this letter is sent to The Workers' Call in the fear that the large number of letters received by the Social Democratic Herald may delay its publication there. It is hoped that, by being printed in this week's issue of The Workers' Call it may reach some of the S. D. P. branches before the vote is taken on the union referendum.]

I regret very much the stand taken by Comrade Debs, for I feel that his intuitions for wisest action in behalf of the working class are unfortunate. In particular I regret that errors of factoccur in his letter, due to misinformation, especially as regards the situation in Chicago.

Concerning name, conditions have changed since Comrade Debs wrote his letter. Comrades Wiltshire of Los

headquarters.

Concerning what is said of the relations between the parties here in Chicago in particular, I must protest. The fact that many S. L. P. comrades have not called at headquarters is no indication of ill-feeling. But a few even know where it is. One could not expect more to have appeared, for all knew the hostile attitude entertained there for union. Aside from a few who did not call the great body of the S. L. P. are workingmen who have no opporfunity to come even if they would. How many of our members called at their headquarters?

The Chicago movement has been put by Gabriel Deville. Translated to Comrade Debs in a bad and prejulished by the International Pub- S. L. P. "at heart have no use for our comrades." Branch 9 and the branch in the 13th ward met with the S. on the most cordial terms several during the recent aldermanic campaign. The 23rd, 33rd and 34th ward branches of the S. L. P. have been addressed by our comrades or have advertised speeches by them.

Lastly, I am obliged to differ with Comrade Debs as to the possibility of moving forward on parallel against the common enemy. To be sure Newark, Cincinnati, Milwaukee, Cleveland and other places have shown the spectacle of two socialist parties cooperating, but that is well known to be the result of the pending movement for socialist unity. The very nature of competition, as we socialists surely know, makes it almost impossible to pull together. As separate parties we will inevitably try to wrest away each other's conquests, with a great waste

Let us BE socialists in our politics. Let us co-operate rather than continue the disgraceful fight between ourselves which we have had in the past.

The S. L. P. is just the same as it was two months ago, except that now they will take name. We cheered for union then. Are we to turn from it now? We have our candidate for president and our name. Is it that we don't want union but will only try to "swallow" them?

> Yours for socialism Roswell H. Johnson.

Workingmen of the world do not unite, you might lose a name even if

)When you hear the workers call for ocialism during the coming election, it may remind you that this paper is still

SOCIALIST UNITY.

Haverhill Social Democrat" Swells the Universal Chorus for Unity of Socialist Forces.

The question of union with the Social ist Labor party is again before the membership of the Social Democratic party. This has come about through the submission by the national executiv board of a manifesto against union and calling for a referendum vote of the party upon whether union is desirable of This action of the board has cre ated surprise and consternation among the socialists of the country. It is safe to say that the issuance of the manifesto will bring down upon the few who promulgated it the disapproval of the great majority of the party members.

It was believed that the union of the two parties had been practically ac complished, the only thing remaining being the referendum vote to be taken by each party upon the results of the New York conference of the committees on union. That there would be different opinions as to those results was a fore gone conclusion. The matters of a name for the united party, headquarters, party press, etc., were expected to bring forth a general discussion, but it was beyond the calculations of all socialists that anything would arise that would prevent, hinder or hamper the final and complete unification of the great socialist parties of the United States. In this belief, socialists in all parts of the country had become electrified into new life. Plans were formulated and prepara tions made for a campaign that would startle the country. Old workers who had rested for years were returning and recruits were breaking old party affiliations to join the great crusade Labor papers were opening their colto the socialist propaganda and ympathetic words were being printed there none could find access before Even the capitalist press had been comcelled to give a mite of recognition, and the portraits and biographies of the two ncomparable candidates for president and vice-president, Eugene V. Debs and Job Harriman, were appearing in the leading and most widely circulated magazines and reviews. , Altogether, the reception accorded the actions of the chester and Indianapolis conventions and the New York conference demonstrated conclusively that the union was desirable and more than that, that it had become a necessity. . Suddenly, like a bolt from the blue,

come this manifesto attempting to reopen the question by asking if union is "desirable." If the situation were not such a serious one, if there were not so much at stake, this action of the national executive board would partake of the nature of opera bouffe and would But the future only excite laughter. course and progress of a great cause is at stake. A tragedy, not a burlesque, confronts us. Shall the movement for a united party of socialists, agreeing in principles, tactics and methods, go forward or be sidetracked at the behest of a few individuals who seem to be dissatisfied because things were not going their way?

To the first proposition, we answer: YES! To the second: NO!

Union IS desirable.

Union is desirable because the Socialist Labor party is composed, first of all, of socialists who have everything in common with the Social Demoratic party: and second, because the never-ceasing battle with the capitalist class and its emissaries demands a solid front of all socialists worthy of the name; and third, because the time for quarreling over things of little consequence to the general movement has gone by, and the time for grappling with things of great consequence to the movement has come.

The Socialist Labor party with which we deal is a rejuvenated organization, free from the obnoxious characteristics which formerly cursed its career and blocked its progress. Its members have civilization. Think of it. One has the cleared themselves of the barnacles socialism; they have renounced the misdeeds committed by those in authority in the past and they have pledged themselves to the same tactics that have distinguished the Social Democratic party since its existence Both organizations are identical in everything except name.

The economic and political conditions prevailing in the United States speak eloquently for a union of socialists. The ownership of the means of wealth production continues to gravitate rapidly into the hands of the small capitalist class, the middle class is being swept away, and the working class becomes numerous, poorly paid and discontent. The industrial arena seethes strikes, labor outrages and conflicts. The Republican party is gathering within its folds the capitalists who formerly worked" the Democratic party, which, in turn, is preparing to make a last despairing stand against the inexorable fate which hugs and crushes the middle class for which it appeals. The awaken ing working class turns to that political movement winch best speaks of their aspirations and their destiny, and the socialists of the land owe it the human ity of today and tomorrow, that the movement be ready to receive them and m encouragement and hope, instead of disappointment and disgust.

The manifesto of the national execu tive board is an illegal document. The one thing properly before the member ship of the Social Democratic party is the report of the New York cop on union. Neither the members at large nor the convention gave the board authority to submit such a referendum nor had the official report reached the board had had a good speaker the vote would. when they drew up and published the have been still higher. Our correspondmanifesto. They have been guilty of ent reports that the comrades are an act which lays them open to the nevertheless fairly satisfied with the charge of autocracy and "bossism." results which show that socialism is str of the country have had growing steadily. th of this sort of thing in the past; they want none of it now, nor will they | Subscribe to the Call for your neighbr.

olerate it again in the future. The few individuals who believe they can con duct the Social Democratic party or the ocialist movement according to their special wishes and desires are making a huge mistake. Did they but understand those who constitute the move ment, they would know any rule but a democratic one would bring disaster to those who practised it. The very spirit of the movement demands democracy, and a democracy of a pure and enduring type. Sooner or later the dictator in the ranks of socialists is overthrown, and this is inevitable in the very nature of things. The vast majority of the membership of both parties are longing for a union of socialists. That union will come, and those who attempt open-

defeat in the progress of its coming. .The report of the New York confer ence is before the membership of both parties. The actions of the conference must be ratified by a concurrent vote of each party before they become effecive. This is democracy. In order to be able to vote on the conference's actions the social democrats must first vote for union and against the usurpation of power by the national executive board. In view of all the circumstances it b the duty of every member of the Social Democratic party who desires progress harmony and democracy in the social ist movement to protest against the manifesto issued illegally by the national executive board by voting "Yes" on the proposition, "Is union between the Social Democratic party and the

CANNOT BE EVADED.

Reality of the Doctrine of Personal Re sponsibility.

Among the numerous cases of destitution during the year 1900 were two in Chicago which should shock the selfcontent of civilized communities to its rotten core. One was the case of a little baby dead from want of food found by the side of its starving mother, the direct cause of want of employment by

father willing to work, but over ooked by Providence; the other was also a case of starvation-that of a boy found praying that God would send food to his mother, who was lying dead before him, in a house without food or fuel and in the depths of winter

Those who deny the destitution of the humbler classes of society, or satisfy their consciences by quoting the script ural text "the poor ye shall always have with ye" fill the definition of scoundrels to a nicety. They have no remedy to propose save the occasional charity that disgraces both the giver and receiver. Drink, idleness, criminal inclination are the trinity of excuses used by the pious hypocrite who is on ignorance, crime and misery. By our faced with the problem of economic regeneration, and his conscience is completely lulled.

The woman of the poets, refined, ele gant and beautiful is content to play the part of a lovely siren and crush all the finer feelings and sentiments of Na ture's peerless work. She absolutely refuses to come in contact with misery and only treats with indifference or disgust the conditions of life under which the majority of human beings are foreed to exist. Suicide, murder, crime and poverty to her are the elements out of which novels are made for her pleas ure, and the causes which produce these phenomena are unknown to her and from choice. Why should she condemn herself and her class by an inquiry into the simplest elements of economic justice? Why should she trace the rents nterest and profits that feed, clothe and house her, to the levy of private taxation of legitimate production and ex change? She is happier without, but she is a criminal worse than the most brutal murderer that ever disgraced ich retarded them in their fight for and passes by on the other side, or doles out a charitable gift that possibly reaches the object, but leaves the mass

> our social system is unjust needs only a superficial examination. Not to the as the capitalist class remain in power worker, but to the person privileged to tax him goes the benefits of civilization; not to the thinker but to the exploiter is the reward of intellectual exertion; and only the most radical changes in the so cial organization will eradicate the terrible consequences.

unchanged.

The doctrine of personal responsibility is the lesson that must be flung into the faces of society women, church habitues, retail philanthropists and other enemies of society who refuse to recog nize the evil or the remedy, and who are engaged in the unholy attempt to quell the-desire for change by an alleviation of suffering which will only prevent actual revolution.

> Socialists often say there is nothing that makes socialists so fast as capitalism when it flays the workers with the whips of hunger, cold and nakedness. But unless the socialist is there to point the way he is as apt to be scourged down the black road of Depair as into the beautiful highway that

BALLOTS AND BRICKBATS.

The Story of "John Sobieski," the Mar Who "Doesn't Know Why.".

You workingman look here! faithful narrative is for you especially. It is the story of "John Sobleski," "the man with no show," and that "doesn't know" why he hasn't got any. For the last year or so this paper has been preaching the same nort of thing to you and perhaps you've got a little tired of being preached at. We will therefore avoid preaching, and fust reprint this true tale for your instruction and enlightcament. It didn't come from a so cialist paper either, but appeared in the Chicago Journal of Tuesday, 18th inst You may have actually bought that copy of the Journal, but perhaps you didn't give it much attention or possibly Ex-Gov. Altgeld, it appears, is not didn't read it at all. Anyhow we take out for Debs and Harriman. He is the liberty of reproducing it here and haps you may see a great light. And in case you don't see anything in it, I may not be out of place to add a trifling omment which will make the matter plainer still:

John Sebieski, we shall call him, is John Sebieski, we shall call him is a laborer in the wire works at Joliei. His ware is \$1.50 a day. On this he supports his wife and children, gets drunk, buys clothing, gambles, and contributes to the chirch. With what remains he gets drunk again.

John Sobieski was happy last week happy because he had work to do Strange now slenderly hangs the happiness of mortals. John Sobieski's EM-piness of mortals. John Sobieski's EM-

piness of mortals. John Sobieski's EM-PLOYERS ARE HAPPY IN ROBBING OTHER PEOPLE AND EACH OTHER. But that is getting ahead of the story. Besides it is libelous John Sobieski's vision is limited. It

John Sobjeski's vision is limited, it takes in the reeking factory yard, the high board fence, two or three blocks of unpaved street, a corner saloon, it house painted brown. John Sobjeski's contented. God has given him work to de the blocks.

intented. God has given him work to b. He thinks so, Yesterday he lumbered down the ur aved street, from the house painted own to the recking factory yard; mut the American artisan from Poland go the American artisan from Poland goes to his day's labor A crowd of his fellow-workingmen were gathered around the gate scanning a placard. One of them chanced to understand English. He was reading the notice slowly. The others were listening dumbly, trying to put the words together in a form that ultimately night convey a meaning. What was it? Great heavens! A book from the blue! The works are shut downf WHY? John Sobieski DOESN'T KNOW, No more did he know why KNOW, No more did he know wh they were started up. He only know that the mysterious and supernature that the mysterious and supernatura agency that sent the wheels spinning round has decreed that the wheels shall cease to spin. The same awful lips that warmed his heart with the promise of food enough and drink red undant, now chill that organ with despair. What difference dows it make to him, who of what this power may be? The gods of Gates, it is all the same to John Sobleski. Juniter rollink tengins on Clymeski. eeki. Jupiter rolling tenpins on Olym-pus or a fat man gambling in Wall ALL HE KNOWS, all it is ting he should know, indeed, ALL IT SAFE HE SHOULD KNOW, is that when the factory door is open he works and eats; when it closed he idles and starves. He cannot even guess what hand it is that draws the bolt, much less can he surmise! the purposes that control the band and the band is the bolt. ontrol the hand.
This is well. We trust, while such

arge part of our efficient army is in th Philippines, John Sobieski will not kno the trick that legislation and "natural able balance of trade theory, proving economic conditions" have played upon thereby, if his statistics can be relied the balance of trade theory, proving the balance of trade the balan

Well, friend, what do you think of it. eh? Lots of truth in it, isn't there. Yes there is, certainly. More than is the protection party par excellence, alusually given in your daily press. It falls short only in that it doesn't tell you what John Sobieski "doesn't know" and fetish, this article of course is meant for why he doesn't know it. That will be our task even if we have to repeat what gument, since the protectionist claim, has been said a thousand times in these columns. And it also tells you what John might possibly accomplish with a brick, in the way of "reform." then you surely know that the brickbat method of reform is sternly discouraged mean a jail sentence for "John Sohl- of \$914,000,000 for gold and \$536,000,000 for your name is not "Sobleski" and that you never saw Poland or even Europe moreover states, that, so far from us in your life. You may have been born here and your grandfather before you. are really today in debt to the foreigner. but you must admit that if you had He then goes on to point out the various one for \$1.50 per day, and a shut-down took place, you would have to take the that protection can be advantageous to same dose that Mr Sobieski gets in the story. So therefore it concerns you just as much as him.

doubtedly an ignorant man, yet he has works close down, he is idle and stary, ing. But he doesn't know why they favor of free trade, were it not for one close, and if he did he would see the folly of trying to open them by cracking Gates or the head with a brick derlying cause of this strange hallucina. Just look at the words in the story which we have put in capitals. John 'D'OESN'T KNOW." WHY? Because ie doesn't know that his "EMPLOY-ERS ARE HAPPY IN ROBBING OTHER PEOPLE," and that he is one of the "OTHER PEOPLE."

He is not aware that their busines himself for \$1.50 per day, and then extracting labor power from such com-\$1.50. That dollar and half is the cost ling so? Surely others have access to of the reproduction of Sobieski, and a these statistics as well as the editor of small broad of Sobieski's who must go the "Public;" they can find figures just through the same process as himself as well as he can. Then why should when he gets worn out. Some portion they overlook such an obvious fact of it also is necessary for an occasional Why should President McKinley and drunk, which serves to keep him in the the Republican party point with pride the church to preach contentment to knows anything about is able to prove him and fasten his gaze on another the fallacy of, if he has access to the ata Gates' Steel and Wire company have shadowing cause which until it is re finished with him in this one. He moved prevents all who come under its doesn't know that his class alone have produced not only the steel and wire, really are? And finally: Why does not

but clothing, food, houses and shelter, and every other useful thing which mankind needs. He doesn't know in fact that he belongs to a distinct class no value, for the absurdity of the proat all, as the crowd that Gates belongs are no classes here and that he is a again and again, without result "free" man. All of which he has beto his pride. (or ignorance if you like whichever way we may, there is only the term better). And believing this he which Gates is enabled to rob him of the to starve when he (Gates) decides that such action will bring increased profit

for the Steel and Wire-company. There are a vast number of working-men who imitate John Sobieski in this Poland either, but when locked out they come just as hungry as John, bemany of them are too indifferent tovant to know.

it is in the power of one man or a group of men to decree that he shall it for the privilege. But as importation starve for a while because he has produced too much, is in itself an educational influence that in the end will enlighten him, and those who still act as he does. And when John discovers this, he will himself become an educational force, and tell others, who are arill as stupid as he once was, the reason why the "works shut down," and when they see it they in turn will do the is lost sight of. .The producer, no mat-

The truth is that John Sobieski and show in the near future, but they are now in the school of experience learning a bitter lesson.

When they have learned it they will tions to discharge Gates Instead of breaking his head with a brick.

They will vote their class into power and make collective property of the steel and wire and all other means of production. They will secure to themselves by such action the whole product of their labor, and give Gates the same opportunity to secure his, (not their's, as at present).

And as a weapon to accomplish this change they will find that the socialist ballot is infinitely superior to all the ammunition that could be gathered in a dózen brick yards.

When this change is accomplished, Jupiter may continue playing tenpins on Mount Olympus, as that will probably be as much a matter of indifference then as it is now, but it is altogether likely that the fat man in Wall street will forsake his pastime when the Sobieskis' decline to allow him the use o their backs as a gambling table.

EXPOSING A FRAUD.

The True Significance of the "Favorable Balance of Trade" Theory. In a lengthy article in the "Public,"

under date of March 31, the editor of

that paper reviews the so-called favorhim, the kind of genius that has been substituted for Divine Providence. We are glad he has never seen Mr. John W. Gates. Otherwise he might not take his misery so meekly. He might stop on his way home. He might put a brick in his pocket and go back.

States as a nation have given away in the last sixty-five years wealth of every description to the amount of \$3,600,000. upon, that it is a fallacy in every way 00, nearly, for that is the so-called "balance of trade" in our favor in that time. Now, as the Republican party, ways boasts that this favorable balance. is due almost solely, to this their party a first class democratic free trade arthat whatever amount of merchandise we export in excess of what we import must be paid for by the foreigner in either gold or silver or both, is met in this article by proof taken from the treasury statistics, that a larger portion Now it may very well be that silver, footing up the total to the amount stated above. The article having a credit due to us abroad, we working in that mill or a similar causes that have led to this result, thereby entirely disproving the claim this country since the net result is the giving away of nearly \$3,600,000,000 worth of goods, to the foreigner, not in Now the subject of the story is un- charity, but under the mistaken idea that we thereby in some way are the gain mee anough to know that when the ers. Now this is all right as far as ft goes, and would be a great argument in important ommission! He entirely forgets, or else he does not know, the untion. How does it happen that we who boast of being the smartest people or earth for getting the best of a bargain in which there is a great deal of truth for Yankee shrewdness is proverbial af over the world, should yet in this matter, make such a stupendous asinine Why should we give away ensists in buying commodities like year after year, hundreds of million worth of wealth that we have accumu modities, of the value of many times think that we are getting richer by do "doesn't know" state, and a trifle for to a policy which any schoolboy that orld which he expects to enter when tistics, were it not for some all over-

influence from seeing things as they

he writer in question, himself try to discover the cause and point it out to us? His statistical argument otherwise is of tection theory that a nation can tax itto, have persistently told him that there, self into prosperity has been pointed out

Let us see if we cannot find the key lieved because it was rather flattering to this strange enigms. Looking at it one rational exception possible. And has persistently voted for the political that is: It is the system itself, the parties which uphold the system by competitive system which is responsible for this folly. You who look at the subproduct of his labor, and lock him out ject through protection spectacles can see the absurdity of the farce in all its bearings. Let me explain: Free traders say international commerce is an exchange of commodities. Yes! But nations as such don't trade to any great respect, and they don't all come from extent. Only individuals do. And individual trade is essentially an exchange of commodities for money. cause, like him, they "don't know" and seller gets for his goods is dollars and cents, if he had to swap goods for goods, he would certainly kick like a But it is not correct to say that John steer if his government should say: sobleski "has no show." The fact that Ere you can bring these goods in here you must give up, say fifty per cent of and exportation are almost always two different transactions, and besides the importer and exporter are usually two different persons, and above all as all transactions of that kind are conducted through the medium of money, and money is the one object all individual traders eventually have in view, the absurdity of the whole serio comic farce ter of what description, does it in order to get money, so does the trader, so does his class have a great show, in fact they the government who taxes him, so in are the only class that will have any fact do all who have anything to do with it. Hence what is more natural than that all should cry out for protection from outside influences in order to get as much money for their come socialists, and will make prepara- modities as possible, and the government that does that most effectually. is the government they will support no matter what the economic effects may be, as far as the nation, as a whole is concerned. .The effect may be just what the editor of the "Public" states it ist Yet as long as the masses believe that they as individuals are better off for it financially they will never desert that policy.

Here lies the fundamental defect of the competitive system. It is entirely dependent on a medium of exchange, or in other words money, for its successful peration. It consequently makes the ndividual likewise, entirely dependent on getting money. Get money! No matter how, as long as you steer clear of the law, and all else will follow. Be a fool, a brute, a tyrant, a miserable contemptible atom of humanity, or be addicted to all the vices under the sun. nothing will count much against you as ong as you have money.

But if that fails then God help you; you may be as wise, as good and as virtuous as the best in the land and yet you may die in a ditch, and beyond a passing notice in the papers no one will care. That is the reason why neither free trade nor single tax nor prohibition nor any other reform is of any avail as long as it has the competitive system as its basis.

But some one may ask: How does it ome to pass that England should have recognized the advantage of free trade, for there can be no doubt but what she is the chief beneficiary of that wealth, that, we are throwing away so lavishly all the time? The answer is easily found: England is essentially a commercial nation. That is to say she does not produce her raw materials, out of which she manufactures her finished goods, which she exports all over the world wherever she can get a market, to any great extent, but must import them, hence it is her best policy to get that raw material as cheap as possible, which an import duty would certainly prevent to that extent. Therefore as the commercial portion of the population of England is preponderately in the majority, the best financial interest of in our present society, and that a con-tinued indulgence in it would infallibly sists of both gold and allver, to the tune that her landed interest is as much for protection, as we are over here. They object as strenuously to the reception of these gifts as we are anxious to force it onto them.

If the editor of the "Public" will kindy disprove this explanation of the problem, or falling that, acknowlege truth and point it out to his readers, and so finish his series of articles on the subject in a satisfactory manner, since as it now stands it runs us up against a stone wall, he may do the world some service. Though I fear he will not do that, for it would hoist his single tax creed with its own petard, since singletaxism certainly depends on the competitive system for its successful operation. Who would under a co-operative system be willing to give annually so much of the product of his labor to the community, because that community claimed that it needed the land values? A. D.

Diplomacy.

Did it ever strike you as a rather. emarkable co-incidence that just as Russia seemed on the point of having a little fun with England while the latter was busy with her piratical trip in South Africa, that the United States should suddenly find an excuse to take a whack at Turkey? Of course America- has no interest in the "Eastern Question," but still it is neces thieves to stand together, and if England should find herself checked in Afand the United States did not come to the rescue, why Pierpont Morgan and Rockefeller might call in vain for help in China at some later day. Wonderful thing is diplomacy. But what does the worker get out of all this?

Some of us do set remember the great Homestead strike. At its conclusion-in 1891-the Carnegie Steel Co limited, was organised with a capital of \$25,000,000. The two corporations joining under the new name were valued at \$19,000,000, and \$15,000,000 worth of new stock were issued. Mr. Frick under oath charges that the major portion of this stock is yet unpaid. In less than nine years of its existence the company will, according to Mr Carnegie's estimate, pay about \$42,000,-000 clear profit for the current year. Mr. Frick under oath states that Carnegle said he could, under ordinary good conditions, realize \$590,000,000 for the company's holdings. Mr. Carnegie replies under oath that the actual tangible assets only amount to \$75,000,000. Of course it would not be in accordance with good taste for an American iron or coal king to have the meaning of a Scotch or Swiss oath defined in an American court, so a new agreement on the division of the surplus product of the American voting king was made. The Carnegle Co. was chartered under the laws of New Jersey, and some of the little fishes commenced to squeat, Never! A capitalist Pittaburg daily says:

"The new corporation has a capital stock of \$160,000,000, and bonds to the same amount, thus making their act-ual holdings \$220,000,000. The llon's share is held by: Andrew Carnegie, \$172,758,690; Charles M. Schwab, \$37,-858,000; Henry Phipps, \$84,452,000; H. C. Frick, \$30,558,000. How this was adjusted is not easy to see. Mr. Schwab, who held 2 per cent., comes to hold 11% per cent.; Mr. Lovejoy jumps from % to 5 per cent. The one thing clearly manifest is that the interests of all the stockholders have, as it were, instantaneously appreclated in a fashion which makes the tales of Aladdin and Midas look pale and sickly by compar

Those simpletons! How sickly man of our Pittsburg capitalists will look before they'll know who or what struck

The charter, for a student in sociology, is a remarkable document. If there is anything the new Carnegle Co. cannot do, or any place where it cannot do it, it falls to mention the act

It may mine, transport, manufact-ure, buy and sell fron, steel and other coal, coke, and all the products and by-products. It may build and operate rallways, pipe lines, wharves, canals, water works, gas wells, gas and electrical works, mills, factories, warehouses and transportation lines by land or water. It may hold stocks, bonds, rights, franchises licenses, inventions, patents of any firm, corporation or association, private, public or anunicipal, government of the United States or any state, ter-ritory or colony thereof, or any foreign government. Thus a contracting agent may assume the airs of an envoy extraordinary. The firm will return their ore cars from northwest filled with coal at their own price with the railroad rates as a secondary consid-

At all this the little one-horse shops and even larger capitalists stand aghast, terrified, while from the face of the well-grounded socialist it extracts but a complacent smile, for he knows full well that it is the result of economic evolution.

The Carnegie Co. is simply practicing a little private socialism, and having killed competition in various lines. they are doing fairly well. How has "octopus" acquired its holdings?

During the panicky times of '93-'98brought about by the Carnegies, Hannas, Rockefellers and Morgans as a means to the end-they were able to inal flat been tenfold enhanced in commercial value. Having abolished competition, they proceeded to vote congress, and then robbed the American people of exorbitant charges for their products. Inventions and labor-saving machinery being in their possession, used for their individual material gain, created a surplus in the labor market, thus making competition "to get a job" still flercer; this condition allowing them to pocket a surplus of the production of their workmen of about 90 per cent.

And yet, lo and beholdt a "reform" sheet, lately started in Pittsburg in the interest of Bryanism, says that the Carnegie Co. is absolutely essential to the well being of Allegheny county. But then, since Mr. Carneg called Mr. Bryan to New York, and since they jointly published a book against the Phillipine policy, it may readily be seen why Bryan wants to license (legalize) the trusts.

Wageworkers of America, don't blame Mr. Carnegie, there are hosts of worse men than he; he only makes the est of a system which is maintained by, of and for his class. No. don't! But DO blame yourselves. Investigate, read, study your own class interest, and then act-vote-for that interest, if you don't, just as sure as April sun brings new life into this grand universe, just as sure will an ever-growing American proletariat some day act, and act witht a vehgeance. In this fear let us tremble for our children and children's children. Socialism alone will prevent this.

Wm. S. Tuescher,

A call for the Workers' Call will always receive prompt attention, which is an invitation to call again.

Does the man beside you in the shop

The Middle Man

(Continued from page L)

We have suffered, too, from the tyranny of middle men, and we have not fully eradicated it. But in this country we have decided that we do not need any political middle men to do our governing for us We choose our servants not our rulers-at least in theory. And we are fast finding that our representative system is not very effective for the

abelition of political tyranny.

But it is the economic middle man that is the keystone in the arch of oppression. That is the tyranny to which we must now direct our attention. We shall abolish it in one way, and that is the way indicated by socialism. It is the way of freedom and happiness, not only for the working class, but for all the people. Make the means of produc tion and distribution the property of all -as they ought to be-and the tyranny of the economic middle man ceases to be. Who is to perform this task? Can it be entrusted to the hands of capitalists? That is what every laborer be lieves who supports by his vote the Republican or Democratic party. Have FREE ADMISSION. we a right to expect the men who profit by the existing system to abolish 112

Who then can be expected to do so Surely, those whose interests are to be served most immediately and beneficently by the process-the working class. How are they to effect this needed change? Political and economic changes are to be effected in this corntry peaceably only at the ballot box. They can be effected there only by united political action. United political action can be had through a party. And the only party in this country that is pledged to the overthrow of the wage system and the establishment of the Co-operative Commonwealth is the party that stands for socialism.

William Thurston Brown.

Makes No Change

(Continued from page 1.)

class organization of society no measure can be introduced that touches the citadel of vested rights. Capitalists frequently permit reforms that do not interfere with their privileges, but the noment some measure is proposed that threatens their interests the tables are turned. Can we expect it to be other vise, so long as the government is in the hands of the master class?. For one to imagine that he can curtail the power of the privileged class so long as that lass is in the possession of the mathinery of government, is the height of absurdity.

It is true, socialism cannot spring at once full fledged info existence. But the first step toward that end is the overthrow of the present ruling class through mastery of the public powers When socialists are in control of the government they will then proceed to put their ideals into practice. It may not all be accomplished at once, but as rapidly as possible industry after industry will be socialized until all busi-nesses are brought under collective con-

. Of course, before socialists have captured the national government, they will gain control of municipalities and states, and as fast as they gain control they will carry out the principles of socialism as far as possible. But, note. he first step, is to gain control-is politcal supremacy.

The overthrow of the capitalist class government is a revolution, no matter how accomplished. The fact that wi advocate the use of the ballot does not make the movement less revolutionary

Socialism, then, is a revolution. It recognizes that practically nothing of real value to the proletariat can be accomplished until the present class rule buy for a song great competitive en-terprises, which have since by a crimmere reforms, and no change that threatens class, rule can be introduced until class rule itself is overthrown.

The reformer-socialist, then, the so clalist who adopts the reform method, is not doing the most effective work for socialism. His failure to grasp the fundamental principles of socialism has ganized counties by volunteers thereled him to pursue false tactics and methods. The revolutionary socialists point out the only effective way to economic emancipation—the organization of the proletariat into a class-conscious body for the purpose of gaining mastery of the public powers. Onward with uncompromising, revolutionary socialism Rev. C. H. Vall

Onward, Oklahoma!

The eminent socialist orator, and ex-Populist leader, Hon. G. C. Clemens, of Topeka, Kansas, former clerk of the Kansas Supreme court, will address the citizens of Oklahoma as follows: Guthrie, Saturday, April 28.

Norman, Monday, April 30. Oklahoma City, Tuesday, May L El Reno, Wednesday, May 2. Kingdsher and Enid. Thursday, May 3 Medford, Friday, May 4.

Comrades should have these meetings vidly advertised. Every intelligent voter will want to hear Mr. Clemens handle Socialism and the Trusts,"-the only lasue of this campaign.

CALL FOR TERRITORIAL CONVEN-TION.

By virtue of vested authority, the first territorial delegate convention of the Socialist Party of Oklahoma is hereby caffed to meet at 10 o'clock a. m., May 22, 1900, in the city of El Reno, to ratify the national socialist ticket: Eugene V Debs for president, and Job Harriman for vice-president, to nowlaste one canvide ways and means for the campaign. You help the socialist cause. Send in a subscribe to the Call for a deliar is still good.

SOCIALISM, UTOPIAN AND SCIENTIFIC: By Frederick Engels: translated by Edward Aveling, D. Sc. This
little volume is an exact reproduction
of the standard English translation
of one of the most noteworthy books
of the nineteenth contury. It has
been translated into the isnguage of
every capitalist nation, and wherever
it has gone it has been an inspiration.
New Popket Edition, 125 pages; cloth,
20 cents; paper, 10 cents.

FREDERICK ENGELS, HIS LIFE, HIS WORK AND HIS WRITINGS. By Karl Kautsky, newly translated by May Wood Simona. So closely interwoven was the life of Engels with that of Marx and the early organization of socialism that this might almost as well be called a history of socialism or a life of Marx. 10 cents.

TO WHAT ARE TRUSTS LEADING?
By James B, Smiley. The Workers'
Cail said editorially: "Perhaps the
best thing yet written on the trust
problem and should do valuable propaganda work for socialism." Price 45
cents.

NO COMPROMISE: NO POLITICAL TRADING. By William Liebknecht-translated by A. M. Simons and Mar-cus Hitch. A new pamphiet on tag-tics by the great German leader. Every socialist should read it. Price. 10 cents. CHARLES B. KERR & COMPANY, PUBLISHERS.
