The WORKERS' CALL, CHICAGO, ILLINOIS, JUNE 5, 1900

LABORERS OF THE LODIOTE

The big strike in the Lodites has been started by the brotherhoods in the building trades of Chicago. The combines have been allowed to issue a notice to settle the matter to the bitter end. The Building Trades Council is now devoting all its energies to preserving the good name of the combines among the workmen. The men are being taught to understand the importance of the combines and the work of the brotherhoods.

SAFETY BY THE WAYSIDE

The recent death of a workman in the field of work is a sad example of the fact that the work done by the combines is not as safe as it should be. The workmen are being taught to be more careful in their work. The combines are now doing everything possible to prevent accidents of this kind from occurring again.

THE INFLUENCE OF THE COMBINES

The combines have a very great influence on the workmen. They are able to enforce strict rules and regulations which are necessary for the safety of the workmen. The workmen are being taught to understand the importance of following these rules and regulations.

THE SHADOW OF PROPERTY

The combines are interested in the welfare of the workmen. They are not interested in the welfare of the property alone. They are interested in the welfare of the workmen as well.

BOOK REVIEWS

The attitude of the combines toward the trade unions is one of satisfaction. They are satisfied with the work done by the combines in preserving the good name of the combines and the work of the brotherhoods.
