SNAP SHOTS BY THE WAYIDE

We notice that a large number of the men
who have taken the place of the
horses in the street car lines are
looking very masculine. This is
largely for the convenience of the
passengers, and as a result, many of the
men have been blacked up by their
employers in order to have them look as
much as possible like the men who
recently got shot in St. Louis.

The recent improvement of the
street cars has been a great success in
developing the use of the streets as
public roads. The car company has
been very successful in getting
passengers by their good service.

The labor troubles of the last few
weeks on the part of the street car
employees have been very serious,
and the company has been
forced to use a large number of
men to keep the cars running.

The streets have been made
wider to accommodate the
new cars, and the traffic has
increased accordingly.

We understand that the
street car company has
not been able to keep
the cars on the
schedule time.

The company has
been very successful
in getting passengers
by their good service.

Woman and Socialism

Addressed by Mrs. J. K. Buxton Before the Socialist Women's Meeting at North Clark Street at 4 a.m. this date

I don't think the attitude of women is broader nor as anything else. The position of women as a social and political factor has been steadily increasing. It is true that they have not yet made their mark in politics as prominently as men, but that is because they have not yet had the opportunity. Women are not less capable than men of understanding economic and political problems, and they are not less capable of acting upon those understandings. They are just as capable of organizing, of planning, of taking risks, of making sacrifices, of working long hours, of fighting, of suffering, of dying. They cannot be denied the right to play their part in the social and political life of the country.

Women have a special interest in socialist politics because they are the main sufferers of capitalism. Women have a special duty to fight against capitalism because they have a special right to demand the results of that fight. Women have a special right to demand the results because they have a special responsibility for the future.
The Workmen's Call, Chicago, Ill., June 14, 1890.

Call for State Convention.

To all members of the S. P. P. and R. D. Y. in Illinois: The Rev. A. W. H. of Chicago writes: 'We are to be called to direct attention to a new and most important public meeting proposed to be held at Springfield, Ill., on July 7th. The purpose of convoking a special convention is to be the organization of labor in the state for the purpose of securing a special election to two members of the legislature, who will act as delegates to the national convention of the S. P. P. who were elected in 1887. The bodies of the member of the S. P. P. and R. D. Y. are cordially invited to send delegates for each section, and all who care to be present, to meet at Springfield, Ill., on July 7th, at 12 o'clock m., and take part in this important movement of the state.
