BACK ON A BOX CAR
The Pilgrim's Progress to the Land of Promises—and His Return

Last week the column of this paper published a short description of times in Central Kansas, where a town called "Box Car" was established as an out-of-the-way seat of the Kansas City. It is said that Central Kansas was inhabited by a number of box makers who chose to have served there for the sake of obtaining work by the box-making system. While the wheat was cut and harvested, the people made boxes and sent them to the east. When the harvesting was done, the boxes were sent back to Kansas. All this, as we have said, was intended in this manner, while the settlers were working, to enable the people to continue their work. Since then, however, the demand for boxes has greatly decreased, and the company has been forced to lay off a part of its employees.
