THE BEGINNING OF THE END

The Doom of Wage Slavery Written in the Growing Socialist Movement.

**Armond**

Capitalization is a thing of the past if this is the case. A laborer, no longer a subject of a wage-earning lord, is a citizen as much as any other person, and his work is no longer the source of any man's wealth, but is the means of his existence. The laborer is no longer a slave of his master, but is the master of his own labor. The laborer is no longer a laborer, but is a wage-earner. The laborer is no longer a subject of the law, but is a citizen of the state. The laborer is no longer a servant, but is a free man. The laborer is no longer a wage-earner, but is a wage-earning man.

The laborer is no longer a subject of the law, but is a citizen of the state. The laborer is no longer a servant, but is a free man. The laborer is no longer a wage-earner, but is a wage-earning man.

**Socialist Pointers**

The Demo's are being defeated by a shower of different criticisms in our neighborhood. The laborer is no longer a subject of the law, but is a citizen of the state. The laborer is no longer a servant, but is a free man. The laborer is no longer a wage-earner, but is a wage-earning man.

The Demo's are being defeated by a shower of different criticisms in our neighborhood. The laborer is no longer a subject of the law, but is a citizen of the state. The laborer is no longer a servant, but is a free man. The laborer is no longer a wage-earner, but is a wage-earning man.

CONSUL'S LETTER FROM PARIS.

"To Our Correspondents in France:

The situation with which the representatives of the French Social Democratic Party, V. Lavagé and M. Ney, have arrived here, is one of the most pressing on the horizon of the Social Democratic world. The Paris Commune is in danger of being crushed by the Reaction. It is not necessary for me to tell you that this is the gravest moment in the history of the French working class. I believe that any of your correspondents in France will be able to give you a better description of the situation than I am able to do. However, I can tell you that our comrades in France are working hard to save the Commune, and that they are not despondent.

In conclusion, I wish to say that the solidarity of the international working class is stronger than ever. We must all work together to save the Commune and to further the cause of the working class.

Concerning the Return of the Owenites to America.

The Owenites, who are the forerunners of the modern socialist movement, have been invited to return to America by the American Labor Party. This is a significant development in the history of the labor movement. The Owenites are not only a symbol of the socialist movement, but they are also a symbol of the working class. Their return to America will be a great inspiration to all who believe in the ideals of socialism.

We must all work together to support the Owenites and to further the cause of socialism.

The Strike in the Iron Works.

The strike in the iron works is a significant development in the history of the labor movement. The workers are fighting for higher wages and better working conditions. The management is determined to break the strike and to keep the workers from winning their demands. This is a test of the will of the workers and of the management. We must all support the workers in their fight for a better life.

The International Congress of the Railroad Labor was dissolved yesterday. Although it was the most representative railway congress that has ever met in the United States, it was dissolved by the railroad employers. The delegates met in Chicago last week and voted to dissolve the organization. The vote was 79 to 55 in favor of dissolution.
