New Capitalism Reduces its Production Pressure.

OHIO BRAND OF "PROSPERITY."

Highly the scheme of triumph for the movement in Ohio has been, of course, the situation in Cleveland, which has been described in the newspapers. The laborers in the city have been in a state of forced idleness, and the situation has been much worse in the other cities of the state. The Republican party has not been able to take advantage of the situation, and the Socialist party has not been able to benefit from it.

The counties in which the Socialist vote has increased more than 1,000 per cent. are: Washington, 1,200; Lorain, 1,000; Columbus, 1,500; Dayton, 1,300; Toledo, 1,200; and Cleveland, 1,500.

A PREDICTION VERIFIED

Knowledge of Laws of Economic Development Enables Its Possessors to Anticipate the Future As to Capitalist Policies.

T. R. Needham, a member of the committee on economic development, has made a prediction that the future of capitalism is not a hopeful one. He said that the capitalist system is based upon the principle of profit, and that the capitalist does not care about the welfare of the workers. He said that the capitalist is not interested in the welfare of the workers, and that he only cares about the profit he can make. He said that the capitalist system is not a stable one, and that it will not last.

The Socialist party has made a study of the laws of economic development, and has found that the capitalist system is unstable. They have also found that the capitalist system is not a fair one, and that it does not provide for the welfare of the workers.

FOREIGN NEWS.

From the World-wide Struggle for the Peace of the Future.

The good people in America-and perhaps in the rest of the world-are9 doing everything in their power to keep the peace. The most potent weapon in this struggle is the ballot, and the most effective agency in the use of the ballot is the press. The sordid politics of the past have been replaced by the ideals of human brotherhood and the desire for peace. Th rough the mails, the telegraph, and the press, the good people are working together to build a world of understanding and brotherhood.

The recent peace movements in the United States have been particularly successful. The peace leagues have been organized in all parts of the country, and their efforts have been directed towards the promotion of peace and the prevention of war. The United States has been a leader in the movement for peace, and its example has been followed by many other nations. The United States has also been a large contributor to the League of Nations, and its influence has been felt in many countries.

LIFT ALL SOCIALISTS ATTEND!
THOMAS J. MOBART,
LAWYER.

WASHINGTON, D.C.,
November 15th, 1896.

Dear Sir:

I am preparing a report of the recent action of the Workingmen's Party Committee of Chicago. It is a very important report and I hope that you will be able to use it to the best advantage. I would also like to know if you have any suggestions for improving the way the committee is functioning. I believe that it is important to have a strong and effective group of socialists working together to achieve our goals.

Sincerely yours,

The People's Party, A National movement.

In my opinion, the only way to make a real change is to have a real organization. The People's Party is the only organization that has the power to make a real change. It is the only organization that is真正
