Socialist Pointers

So don't forget the fact that it's Franklin's birthday.

John Collins is not a man of destiny.

The so-called "socialism" in this country is not a new thing. It has been in existence for many years, but it has never been as popular as it is now. The Socialistic party must grow by a steady increase in the number of its members, and the Socialist Pointers are doing their best to promote this increase.

It is our duty to get people to quit their jobs and go into the Socialist Pointers, for it is only by doing this that we can hope to succeed.

And now, the Socialist Pointers will set up a new chapter in the history of socialism. They will be able to tell the people that they are not alone.

Chicagos are to have some new combination, not at least of those who supply or suspend such an eighth chapter.

It is just in time to send the Worker the Socialist Pointers' annual letter for a year as a Christmas present.

Attempts to divide the party must work to the advantage of the Socialist Pointers.

Mayor Horrigan's police force will not fall natural with its street regulations to express during cold weather.

It is important that we get some for the party, if they are to succeed.

The Women's suffrage movement is not a new thing. It has been in existence for many years, but it has never been as popular as it is now. The Socialist Pointers are doing their best to promote this increase.

Ministers who dispute the effort to get women's suffrage are not acting in the best interests of their party.

Let the Workers enjoy the live the work that they do.

The following is the list of the candidates nominated by the Socialistic party for the city of Chicago:

Mayor—John Collins
Aldermen—M. B. Tull, A. D. C. Clark, W. J. J. Floh
City Auditor—Harold B. Dury

Did you ever hear of such an absurd proposition as the Republican party or the Democratic party being a party in a city of any importance? Yet that is what the Republican is in Hammond and the Democratic is in Gary.

It is to be hoped that the city council will not make any change in the city charter.

The city of Gary has a few thousand voters in it, but it is not a city of any importance.
