A TEMPTING BALANCE.

In reviewing the progress of human society in the oriental world, and in endeavoring to observe how many of the habits, superstitions, and prejudices of the people are changing, as a manifestation for the progress of thought and mental development, it is interesting to note that the condition of the working class here is the same as it was a century ago. The same thing is true of the working class in the Orient. In the Orient, the working class does not expect to be governed by the laws of the land, nor does it expect to be governed by the laws of the land that apply to the Orient. But the Orient is a land of contrasts, and it has been the custom of Oriental governments to maintain a balance between the working class and the rest of the people.

The TEACHERS' FEDERATION.

A national and democratic organization of the teachers of the Philadelphia Public Schools has been established. The Philadelphia Teachers' Federation was incorporated in January, 1900, as a labor and educational reform organization, and the object of its creation is to bring about a better understanding between the schools and the laboring classes, and to secure the adoption of the principles of the labor movement in the schools.

SNAP SHOTS AT THE WAYSIDE.

"War of Great Traces to End;" "Mother of Invention." These two articles appeared in the Philadelphia daily papers on the 1st of the month, and the city was made aware of the fact that the war was over.

Religious services were held in the city, and the president of the synagogue read a prayer from the New Testament.

LOCAL NEWS AND NOTES.

The Philadelphia Labor Union has established a regular system of selling Workmen's Call postcards. This is the most practical and efficient method of disseminating news to the working classes. If your branch is not already using this system, you should consider adopting it immediately.

To Literary Contributors.

We wish to express our appreciation of the contributions received by our literary department, and to say that we shall be pleased to receive further contributions. We are particularly interested in receiving articles on literary topics, and hope to publish them in our future issues.

CORRESPONDENCE.

Submitted to the Membership.

The local branch of the National Labor Union has issued a circular to its members, asking them to support the movement for the establishment of a national labor organization.

The Socialist Campaign Book of 1900.
CONTENTS

The Best Socialist Literature

The publication of this work marks an era in socialist propaganda in America, in that it places in the hands of every socialist worker the information necessary to build up a solid foundation in the social sciences, from the material basis only accessible to the capitalist statesmen, while at the same time it presents the material basis itself developed and explained in the light of the socialist philosophy. This makes of the book one of the most powerful aids for the socialist worker and agitator. The best propaganda work yet published, it is not only the most comprehensive, but also the most practical and the most effective. It is a work that can be used by every worker, and which will aid in forming a convincing argument of the need of industrial development, by making the character of the capitalist system of business and trade clear at the same time. The book is in two parts, the first part containing the text of the book, and the second part containing the arguments in favor of the book.
