PAYS COMMUNE...
How Public Opinion Is Manufactured
Illustrated in a Review of a Work by a Socialist Author Which Appeared in a Capitalist Journal.

The workers are long ago educated to the point of accepting socialism, whatever its form, by the capitalist authors who have written so much on the subject. Yet, in the very midst of it all, a socialist has been able to write a book that has not been fully understood by his sympathizers.}

Local Events.

In order to make an end of the elections, the government has taken the initiative in the matter and is about to order new elections. These measures are considered as the only effective way to restore the order and stability which has been disturbed by the recent events. The elections will be held in October, and the new government will be formed in November.

Under these difficult conditions, the socialist parties have decided to continue their activities. They believe that the new government will be more favorable to their programs and will be more likely to take action in favor of the workers. The socialist parties are preparing for the elections and are actively campaigning to win the support of the workers.

Peace on Earth.

The International Peace Treaty is now in force and the world is enjoying a period of peace and prosperity. The treaty was signed in Paris in 1919 and went into effect in 1920. It has been ratified by all the major powers and is now in force throughout the world.

We shall do our utmost to maintain this peace. The nations of the world must work together to prevent a recurrence of the catastrophic events that led to the First World War. We believe that the principles of the Peace Treaty are the basis for a lasting peace and we shall do all in our power to ensure their observance.

The trade unions in Puerto Rico are also playing a vital role in maintaining this peace. The unions are working closely with the government to promote peace and stability in the island.

The National Council of Puerto Rican Workers is a key player in the efforts to maintain peace. The council is made up of representatives from the major labor unions and is working closely with the government to promote peace and stability in the island.
