Socialist Pointers

Free çıkış was when there is no one in the world, no man knows where you are. It is the supreme idea of freedom. The term "free" has no other meaning.

The editors of the Socialist Pointers have recently been publishing a series of articles on the subject of "Socialism." These articles have been well received, and have contributed much to the advancement of the cause.

The articles deal with various phases of the social question, and are written in a clear and concise style. They are well worth reading, and should be in every socialist's library.

The Socialist Pointers are published weekly, and are issued at the socialist office, 123 Broadway, New York.

LET CAPITALISTS GO ALSO.

A French Socialist Journalist to Every Capitalist.

"Let capitalists go also!" This is the watchword of the French Socialists. It is a slogan that has been adopted by the workers in all parts of the world. The French Socialists are tireless in their efforts to spread the gospel of socialism, and to convince the world that the capitalists are the root of all evil.

The Socialist Pointers are proud to have been associated with this noble cause, and to have contributed our small share to the building up of a better world.
Local Party Progress

WEST SIDE.

For the past year or two the various national parties have been more or less in a low state. Many of the national committees have been neglected and the parties have been thought of as second-class affairs. The local parties have been the real force in the political world, and they have been the ones who have been able to get the work done.

On Tuesday evening the local party committee met at the headquarters and discussed the various issues of the day. The meeting was attended by a number of the party leaders, and the discussion was carried on in a friendly and businesslike manner.

The meeting was opened with a roll call of the members present, and the business of the day was transacted in a businesslike manner.

The committee voted to endorse the candidates of the Democratic party in the coming election.
