"THE "RED SPECTRE."

Like Ghost of Murdered Banker, It Will Not Die.

IS INHERENT IN CAPITALISM.

The “red spectre,” a spectre that hovers over the heads of the industrial workers, has been given a new name by the bankers and financiers of the world. As long as there is capital and labor, the spectre will persist, and its form will change as the conditions of society change. The spectre is not to be put down because it has been given a new name.

NOTES TRACES OF VANDALISM.

Vacation has a way of bringing out the best in us. It is a time to relax and enjoy the simple things in life. However, it is also a time when the vandals seem to get a little out of control. This year, the vandals have left their mark on many homes and businesses. The damage is not only to the property, but to the people who live or work there. The vandals must be stopped.

ARE THEY RELATED?

Attitude of Capitalist Society Towards Anarchism.

For the Truth of Which Our Readers Are Refused to the Force of the Chicago Police Force.

In the city of Chicago, there are many who support the government and its policies. However, there are also many who oppose it. The government is not above criticism, and it is the duty of the people to speak out against what they consider to be wrong. The Drummer's Awakening.

A modern fable.

Once there was a drummer who played the drum day and night. He played so much that he began to feel tired and bored. One day, he decided to take a break and go for a walk in the woods. As he was walking, he noticed a little bird perched on a tree branch. The bird was singing beautifully. The drummer was fascinated by the bird's song and decided to learn how to play the drum like the bird.

He returned home and practiced every day, until he could play the drum as beautifully as the bird. People from all over the city came to hear him play. The drummer was now famous as a musician and enjoyed every moment of his new life.
