The Workers' Call.

Robert Blatchford, author of "Manhood and Civilization," emphasizes the necessity of the great labor movement to save the country, and gives his cheers and support to the Chicago Socialist Labor party. The following are excerpts from his address:

"We must not be afraid to speak the truth, even if it should be disagreeable to some. The workingmen of Chicago are the backbone of the country, and it is their duty to stand up for their rights."

The National Committee in charge of the case, Mr. W. A. Ferris, has just received forty-five thousand signatures, representing the people of the city. The following states were represented:

Corned States, Wisconsin, Minnesota, Iowa, Nebraska, South Dakota, North Dakota, Oklahoma, Kansas, Missouri, Arkansas, Louisiana, Mississippi, Alabama, Florida, Georgia, South Carolina, North Carolina, Virginia, Tennessee, Kentucky, West Virginia, Ohio, Indiana, Michigan, Illinois, Wisconsin, Iowa, Minnesota, North Dakota, South Dakota, Nebraska, Kansas, Oklahoma, Missouri, Arkansas, Louisiana, Mississippi, Alabama, Florida, Georgia, South Carolina, North Carolina, Virginia, Tennessee, Kentucky, West Virginia, Ohio, Indiana, Michigan.

The strike was called to protest against the great capitalist monopoly of labor and the low wages paid in the factories. The strike was called for on the 1st of January, 1902, and the strike committee was organized the same day. REPORT OF N.E.C. TO NATIONAL COMMITTEE.

First Section—This Report Will Be Published in Weekly Installments Until Completed.

WOMEN WAGE WORKERS.

The N.E.C. has submitted the proposed Wages Bill of the Program Committee.

While much has been said about the work of women, who are in the business of finding a living and a home for themselves and their families, in some of the most important industries, the N.E.C. is determined to make this a matter of national concern. The labor movement has made great strides in the last few years, and we have reason to believe that the working women will also be able to make good and be recognized as the equal of men in every respect.

AMERICAN FLINT GLASS WORKERS.

On August 13, the American Flint Glass Workers' Union, which represents the employees of the American Flint Glass Company, has been declared by the National Labor Board to be a labor union. This is the first time in the history of the United States that a labor union has been recognized as such by the government. The union has been in existence for many years, and has been recognized by all the employers in the industry as the legal labor union. The workers have been represented by the National Labor Relations Board, and have been successful in their efforts to organize a union. The American Flint Glass Company has agreed to recognize the union and to negotiate with it in good faith.

INTERNATIONAL BROTHEL WORKERS.

In the larger part of such other years as we have observed, the annual return has been larger than that which has been collected in the preceding years. In the present year, there has been a decrease in the amount of money that has been collected. The increase in the number of workers has been due to the fact that the prices of the articles they manufacture have been raised, and that the wages of the workers have also been increased. This is due to the fact that the employers have been able to secure a higher price for the goods they manufacture, and that the workers have been able to obtain better wages for their labor.

Two Faced "Frightened of Labor.""A vehicle for bringing misery into the minds of the working class is being emphasized in the case of the Chamber of Commerce of New York. In order to keep the workers in despair, the Chamber of Commerce is engaged in a campaign to mislead the public. This is done by spreading false reports about the condition of the industry, and by encouraging the workers to believe that there is no hope of improvement.

REGULAR MEETING OF THE BOARD OF TRUSTEES.

Regular meeting General Assembly, February 1st. Don't forget!"
