Lessons of the Commune.

By no means a less significant is the whole question of the Commune of 1871, which in Paris during the early months of 1871 was so much the center of a revolutionary movement throughout the whole of Europe and which was so closely connected with the Commune in Spain. The Commune was a direct result of the political and social upheavals that followed the Franco-Prussian War. It was a radical experiment in urban socialism that aimed to create a new society based on collective ownership of the means of production. The Commune's failure, however, marked the end of the socialist movement in France for several decades, as it was crushed by the French army in May 1871. The lessons of the Commune, therefore, are not only those of radical socialism, but also those of political strategy and organizing for revolution.

Brains or No Brains.

The Nevada Miner Recognized the One Thing Lackin'.--"Is the Washington Capital or the Chicago Capital?"--"Brains or No Brains."--"Is the World New or Old in the Interest Class?"--By a Large indignant reader. "Use Them. Most as We Have Them."

Under the forming up of a million-dollar investment scheme, a New York trust has been cut off. This trust is supposed to have been cut off by the formation of a large syndicate, which at the time when its formation was announced, was supposed to have been formed for the purpose of buying up the stock of the New York trust. But this syndicate has now been cut off, and the New York trust is said to be in the hands of the syndicate.

The best is the way of old and old-fashioned and modern producers industry can produce it. The best is the way of old and old-fashioned and modern producers industry can produce it. The best is the way of old and old-fashioned and modern producers industry can produce it.

A Comrade's Welcome.

"The bean is good. Long live the bean."--By a Comrade. "O telling workers, all."

It is a fact that the New York Daily Graphic has been cut off. It is a fact that the New York Daily Graphic has been cut off. It is a fact that the New York Daily Graphic has been cut off.

Socialist Pointers

What they did last week we can infer from the following:

Three days after it was announced that the Wall Street revolution had ended, we are informed that the workers are back in business. The strike was brought about by the failure of the Employers' Club to come to terms with the workers. The Employers' Club is controlled by the big business men of the city.

We have no reason to believe that the Wall Street revolution was due to the action of the Employers' Club. The workers are now back in business and we shall see if the Employers' Club can hold the workers.

The Employers' Club is also reported to be in a state of confusion. The workers are now back in business and we shall see if the Employers' Club can hold the workers.

Wages are rising throughout the country, and the Employers' Club is reported to be in a state of confusion. The workers are now back in business and we shall see if the Employers' Club can hold the workers.

We have no reason to believe that the Wall Street revolution was due to the action of the Employers' Club. The workers are now back in business and we shall see if the Employers' Club can hold the workers.
"Religion" versus Socialism.

Many people outside the Socialist movement and many people affiliated with it have not yet thoroughly understood the nature of the movement. To many of these people the Socialist movement is a "religion," especially for those who have never heard of it before. However, there is a movement that has gained wide acceptance and can be called a "religion." The movement is also called "Socialism" and it is not generally known by all. The movement is the Socialist movement.

The Socialist movement is a movement that is dedicated to the overthrow of the capitalist system and the establishment of a socialist society. The movement is based on the belief that the current economic and social order is unjust and that a socialist society would be more just and equitable.

The Socialist movement is a movement that has gained wide acceptance and can be called a "religion." The movement is also called "Socialism" and it is not generally known by all. The movement is the Socialist movement.

If you are a Socialist and willing to support the movement, please sign up today.

And on This:

We are not making an appeal to the student body to support the Socialist movement, but we are making an appeal to the student body to support our movement. We believe that our movement is the movement that will bring about the change that we need in the world.

The Socialist Party of America, founded in 1870, is the oldest political organization in the United States advocating the principles of the Social Revolution, the establishment of Socialism through the democratic process.

We believe that the Social Revolution is a democratic revolution. It is not a crusade of the Socialists, but a crusade of the working people of the world. It is a crusade of the workers for the workers. It is a crusade of the people for the people. It is a crusade of the Socialists for the people, and the people for the Socialists.
