As the capitalist class never lost an opportunity to misrepresent the "public" in their selfish and insatiable thirst for more wealth, so they did in this instance, in order to prevent the distribution of the "Comintern" to the working classes. The agents of the Comintern, who are the best representatives of the working class, were hunted down by the police and the courts. They were arrested, imprisoned, and tortured. In the face of these intimidations, the Comintern defended its members, as they have always done, with the utmost courage and determination.

The MONOPOLY OF A MILLIONAIRE

Mr. Fighting S. Robbins, in a recent address to the employers of labor, stated that the monopoly of a millionaire is the only solution of the labor problem. He said that the working class must accept the dictatorship of the rich man, or they will never be able to solve the problem of wages.

The real solution of the labor problem is the abolition of the monopoly of a millionaire. The Comintern has always fought for the establishment of a socialist society, where the working class would have the power to determine the course of events.

The Comintern has always stood for the abolition of the monopoly of a millionaire, and for the establishment of a socialist society, where the working class would have the power to determine the course of events.

Final Stages of Capitalism.

By Ernest Untereiner.

We have been passing through the last act of the great drama of Capitalism. The last act is a tragedy. With a bewildering reality before our eyes, we must realize the true significance of our present situation. The character and the rhythm of the drama are too complex and intricate to be reduced to any simple analysis. The struggle is not between two nations, but between the capitalistic system and the working class. The victory of the working class will be the end of the drama.

WHO IS RESPONSIBLE?

By Mrs. E. W. Wood, Secretary of the Chicago Socialists.

The question of who is responsible for the sufferings of the working class is one of the most important in the history of mankind. It is a question that has long been debated, but seldom will the issue be more clearly defined than in the present situation. The working class is the victim of the capitalist system, and the capitalist is the culprit.

Final stages in the development of the working class.

The working class has been forced into the last act of the drama of Capitalism. The struggle is not between two nations, but between the capitalistic system and the working class. The victory of the working class will be the end of the drama.
