**SNAP SHOTS OF THE DAY**

In English Congress transactions a mile high, the Senate today voted to make it easier for a rich man to spend his money without exposing himself to the public eye. Opponents of the proposal, who were universal in the Senate, rejected it on the grounds that it would lead to more gambling and corruption. The measure was passed by a vote of 62-38, with the Senate on the register to be a majority of the House.

The organizer of the proposed gambling resort in the desert, where no one would be able to see his money being spent, said that the Senate vote was a victory for the rich man and a defeat for the public.

**Exploitation and Organization.**

Down the uncharted role of the Working Class, it is not only a case of killing the fatted calf, but also of killing the workers. The exploitation of the working class is a necessary part of the capitalist system. The workers are exploited by the capitalists, and the capitalists are exploited by the ruling class. The working class is the backbone of the capitalist system, and the ruling class is the backbone of the working class. The struggle for the emancipation of the working class is the struggle for the emancipation of humanity.

**We Have not Moved Yet.**

It was a very important day for me when I managed to get the amount of change so that I could afford to get my own food. I am glad that I managed to get it, and so are the people who paid for it. The money will be used for my education.
