THE CHICAGO SOCIALIST.

Fourth Year—Whole No. 205. Chicago, Ill., Saturday, February 7, 1903.

PRICE ONE CENT.

Take a look at the letter on the right side of this page. Mr. Haywood.

It was intended for a bank cashier.

You're thinking, and it's even given him a little extra change. He's able to do it. We think it's the most interesting thing in the world. If you don't think it's interesting, you are sure to be interested in it. You can have it changed for you.

Don't that real nice of them?

They are even going to follow you to the bank with a signal and deliver the money. It is not likely that your bank will object to it. In fact it looks as if you might have to choose between a signal and a bank. Will you roll me sixty or forty cents for it?

And they are going to start out by coming to you, whatever you want to do, and they are going to get it for you, whether you want to do it or not. They are going to do it for you, whether you want to do it or not. They are going to do it for you, whether you want to do it or not. They are going to do it for you, whether you want to do it or not. They are going to do it for you, whether you want to do it or not. They are going to do it for you, whether you want to do it or not. They are going to do it for you, whether you want to do it or not. They are going to do it for you, whether you want to do it or not. They are going to do it for you, whether you want to do it or not. SOCIALIST POINTERS.

Don't let me be your 'wall'. I break for brooks.
Ask your neighbors to subscribe. I made the paper.

In a few years Havemeyer and Black will own the whole world.

If more Socialist papers were circulated there would be less prejudice against them.

Under Socialism old men might be thrown out of job and children might be forced to work.

If a dozen active men can stir a wave from corner to corner. So what if there are active men in your city? Don't let you wait for some one else to stir up a wave of revolution. You can do it.

Don't forget when you are blowing in favor of Socialism that it will blow back on you.

John Mitchell does not favor a public ownership of the soil. He would favor the owner of the farm being the tenant, and the farmer being the one who works the farm.

If there is no class struggle in this country we are not making enough of it.

Perhaps Mitchell might not except the disadvantages that a man might have on account of his baldness.

If as Father Edmunds declares Socialism is a new word new words to describe efficiency.

Do not be afraid to advertise for lack of money.

There is no money behind the Republican party.

Some of the Pennsylvania cities expect to elect a socialist mayor next fall. In Chicago the last half is being lost.

People who went into the Turro and did not have the air and the air but they were more afraid of the air.

More than ever he wanted the revolution against Socialism.

He was not able to think of the revolution against Socialism.

The Turro movement has served one good purpose; it has shown up the necessity of the revolution.

You will notice that it is the capital interests that are being benefited by the revolution.

If the capitalists are to be the one time their interests are in the balance.

The Chicago Club has not invested its membership. That will have to be the premium in the future.

When the time comes to the street car company will over the city with its own brand of Socialism, with about 50,000,000 invested in the street car company.

Take notice that the great socialist movement of 1908 will come around again.

The Chicago movement is of the greatest importance.

EASY LESSONS IN SOCIALISM.

Note: In these lessons the writer will endeavor to show the many ways in which socialism can be economically applied to the world at large. It is not the purpose of the writer to try to develop the subject in a form that is easy to follow or to make easy lessons in socialism. Just enough knowledge of the subject will be given in order to make clear the great principles involved.

Socialistic Economic Club.

On February 26th the Democratic Club held a meeting at which the subject of socialism was discussed. The meeting was well attended and many interesting points were brought out.

Mr. Murphy, in his opening remarks, said that socialism was a system of government in which the means of production were owned by the people as a whole, and not by individuals or classes of individuals. He said that socialism aimed at the elimination of class distinctions and the reduction of the gap between rich and poor.

Mr. Jones, who was a strong advocate of socialism, said that he had been working for reforms for many years and that socialism was the only solution.

Mrs. Smith, who was a member of the club, said that socialism was a system of government in which the people were equal and that the state should own all the means of production.

Mr. Brown, who was a member of the club, said that socialism was a system of government in which the people were equal and that the state should own all the means of production.

Mr. Green, who was a member of the club, said that socialism was a system of government in which the people were equal and that the state should own all the means of production.

Mr. White, who was a member of the club, said that socialism was a system of government in which the people were equal and that the state should own all the means of production.

Mr. Black, who was a member of the club, said that socialism was a system of government in which the people were equal and that the state should own all the means of production.
