They refer to the greatest Socialist in the world, Comrade John D. Rockefeller, was is now with us in Los Angeles. The Comrade took two weeks to reach here, during which valuable time \$2,000,000.00 were added to his possessions.
This refers only to income, and does not refer to any increase in the general value of his numerous investments. In walking from Green, he occupied fifteen minutes. For that short walk he was repaid by an increase to his wealth of \$1,750. The first night of his stav, he siept soundly for just eight hours, and awoke \$54,759 richer for his repose. With the sid of his valet it took him exactly helf an hour to dress. By the time he was ready for breakfast \$3,500 were given him for his trouble. The journey from his bed-chamber to his chair in the hotel dining-room occupied just five minutes, for which a kind providence paid him \$570. breakfast three hours were spent on the golf Maks, for which enjoyment, thanks to the generosity of the American people, he received \$20,534. In 1967\$ 3,200,000,000 In 1911 3,276,800,000,000 What makes the above figures still more astounding is that the entire wealth of the United States is only \$100,000,000,000, which Increases at the rate of less than \$3,000,000,000

In this country last year, half a dozen groups of capitalists, individual members of which form your League, cantrolled \$20,000,-200,000, or one fifth of the total National wealth. If the amount under their control increases in the same proportion as Comrade Rockefeller's fortune, by 1806 they will own or control \$80,000,000,000; by 1910 \$220,000,000,-000.
