**WORKING-CLASS TICKET IN THE FIELD.**

**JUDICIAL CAMPAIGN ON.**

The approaching judicial election is important. The Democratic election can now be neared the fact that the workers have no power to have the election pass over their heads. I am sorry to see the Labor party not yet in position to keep that position. The Socialist party is proposing to annul any public utility. There is an opportunity now to take action on the labor movement. The Socialists, being the only political party that will support the movement, are the only party that can really do it.

**LABOR'S CRITICS.**

**By ANNIE C. MURSCHEID.**

"I believe in labor union rules," said the Chicago President. "But I think they ought to apply them equally on both sides." Formerly they were more strict in the South; now they are more strict on the North. There were difficulties in the South, and now there are difficulties in the North. The Socialists, being the only political party, have a duty to carry out these laws.

**OUR TRADE UNION FUND.**

There are still 150,000 unemployed in Chicago. To get 150,000 unemployed is a lot of money. To get 150,000 unemployed, we need to think big, think big. We need to think big. We need to think big. We need to think big. We need to think big.

**SPEAKERSHIP TO BE RETURNED.**

To the speakership of the weekly meetings and not doing justice to the masses, the Socialists, being the only political party, must do their duty.

THE CHICAGO SOCIALIST, MAY 8, 1903.

THE MEANING OF MAY DAY

All over the civilized world will workers be marching in processions on May Day and giving expression to their abiding sentiments of justice and freedom. Throughout the world, and especially in the United States, there is no day that evokes a stronger feeling of patriotism and a deeper sense of the right of all people to work and enjoy the fruits of their labor.

The MEANING OF MAY DAY

On this day we point out, as a reminder to those who are interested in labor and capital, that the history of human labor has always been marked by the struggle for justice and freedom. The early struggles for the right to work and enjoy the fruits of one's labor were fought by the working class against the ruling class. The struggle continues today, but the working class is now stronger and better organized than ever before.

The capitalist class is not able to compete with the working class in the struggle for justice and freedom. The working class is the most powerful class in society and it is only a matter of time before it overcomes the capitalist class.
