TRADE UNION NEWS

The Struggles of the Working Class Told in an Interesting and Condensed manner for Quick and Progressive Readers of the Chicago Socialist.

THE DECRETAL STRIKE.

The "decartes" of the International Harvester Company are back at work, with an increase in the wages that they get for the next batch. They have the right to expect a considerable increase in the wages of men reported as engaged in the struggle against members of trade unions in the Deering works and no barrier will be placed in the way of the organization of the men.

This promise would not excite so much fear as it would not be supposed to mean the better of the employers.

We suggest for the consideration of the administration to the Harvester.

Why should the International Harvester Company, the so-called "fourth estate" of the country, not be open to the same effects as the other great manufacturers? The management should be able to manage their business in a way that is not only for the benefit of the company, but for the benefit of the men who work for them.

LEAVES OF Absence.

Mr. H. L. Lunsford, president of the Chicago Federation of Trades and Labor, has informed the Socialist that he has gone on a leave of absence from the Federation for a few weeks. Mr. Lunsford has not given the reason for his leave of absence, but it is believed that he is in the process of organizing a new labor organization.

Another article in the paper tells of the decision of the Chicago Archangel and the Federation to support the Deering works. The Federation has decided to support the men of the Deering works in their struggle for better wages.

The decision of the Federation is not only in line with the policies of the other labor organizations, but it is also in the best interests of the working class. The Federation is not only fighting for the right to organize, but it is also fighting for the right to be fed and clothed.
