FEDERATION OF LABOR DOINGS

Federation Aroused—No Contracts to Prevent Sympathetic Strike—A Demand for Union Conditions for Street Car Men in Any Settlement of Franchises

A POLITICAL PARTY THAT HAS... NO FRIENDS

America, Oct. 22, 1901.

John Marshall once said of the Republican party, "No man pays for it as he should that did not make the fortune that the others do not."

The Republican party has been the fortune-makers of the country. It has made fortunes for them and taken none for itself. It has no friends except its leaders, and they are its enemies. It is a party of the rich and not of the poor. It is a party of business, not of labor. It is a party of capital, not of labor. It is a party of the bosses, not of the people.

The federation of labor is the opposite. It is a party of the people, not of the bosses. It is a party of labor, not of capital. It is a party of the workers, not of the bosses. It is a party of the poor, not of the rich. It is a party of the people, not of the class.

GUESSING FROM THE OUTSIDE

The Chicago Times recently had the following editorial:

"How is it that the outside world cannot see the great question the employers are fighting?"

The outside world cannot see the great question the employers are fighting because they are too busy fighting the employers. The employers are too busy fighting the employers to see what the outside world is doing.

The Times is wrong. The outside world can see the great question the employers are fighting. It is a question of whether the employers are to have the right to make and break contracts, or whether the employees are to have the right to make and break contracts.

Socialists Gain in Many States

There were more than 200,000 votes for the Socialist candidates in New York and Illinois, and in both states the Socialist candidates were elected to the Legislature. Class Consciousness and Class War

The terms at the limit of this conflict are not, and can not be, merely economic. They are political, and full of national and international conditions. In some cases they may be social, and even domestic, but by and large they are economic. This is especially true of the lower strata of society. For the lower strata of society are the ones who can not afford to lose their means of livelihood. They are the ones who are at the mercy of the ruling classes. They are the ones who are subjected to the will of the ruling classes. They are the ones who are the victims of the ruling classes. They are the ones who are the sufferers of the ruling classes. They are the ones who are the exploited of the ruling classes. They are the ones who are the oppressed of the ruling classes. They are the ones who are the victims of the ruling classes. The Growth of the Wheat-Plant.
By Mary Wood Stimson.
In the kingdom of heaven, as in the physical world, the cultivation of the wheat-plant is a definite expression of the development of the Christian character. In the Christian character, as in the wheat-plant, the seedling must be watched closely and tenderly until it has grown strong enough to withstand the various tests and trials of life. The wheat-plant needs water, sunshine, and air in order to grow; so the Christian needs to be guided and trained by the Holy Spirit in order to mature and develop into a full, strong, healthy, and useful member of the Body of Christ. The wheat-plant, when it has reached maturity, is ready to be harvested; so the Christian is ready to be used for spiritual and useful work, when he has grown to maturity, and has become strong and full of the Holy Spirit. The wheat-plant, when harvested, is used for food; so the Christian is used for the service of God and man, when he has become a useful and blessing worker.

WOMEN'S EDITION.
The Vacation for November which you have been expecting is here and the things we have ever published for females at this season, are now ready. The style of the periodical is of a very high order, and the subject matter is of the highest class. The Publishing House of the Woman's National Socialist Club, the only journal of its kind in the country, has been long in preparation, and the editors have labored hard to produce a work that will be of real value to the women of the country. The editorials, articles, and reviews are all excellent, and the book is a valuable addition to the literature of the day.

The book is 8 x 10 inches, and is a very fine job of printing. The book is well bound, and the paper is of the highest quality. The book is a great help to the women of the country, and is a valuable addition to the literature of the day. The book is a valuable addition to the literature of the day.
