STREET CAR STRIKE ON!

Three thousand five hundred men quit work on the South Side Car Line on November 6, 1926, and after being arrested for picketing were released on personal recognizance. The strike was called by the United Labor Union, a group of workers who are trying to organize the car line. The company has refused to recognize the union, and the men have been on strike for three weeks. They are asking $4.50 a week for an eight-hour day, plus all expenses. The company offers $3.50, which is not enough to support a family.

A LETTER TO THE EDITOR

Dear Sir,

I am a member of the South Side Car Line employees and I am writing to express my concern about the current strike on the line. The company has refused to recognize the union, and the men have been on strike for three weeks. They are asking $4.50 a week for an eight-hour day, plus all expenses. The company offers $3.50, which is not enough to support a family. I urge you to support the workers and their right to organize.

Sincerely,

[Name]

MANUAL LABOR AND BRAIN LABOR

One of the most important questions in Sociology is whether the future will see an increase in the number of hands or brains. A certain company has been interested in this question for some time. They have kept a record of the number of hands and brains that they employ. They have found that the number of hands is increasing, while the number of brains is decreasing. They have also found that the hands are more productive than the brains. They have therefore decided to discontinue the use of brains and rely entirely on hands.

THE ELECTIONS

In the elections, there were a total of 10 candidates running for the position of president. The candidates were divided into two main groups: one group favored the old system, while the other group favored the new system. The old system was based on the idea that the candidate with the most votes should win, while the new system was based on the idea that the candidate with the least votes should win.

THE STRENGTHS OF THE PARTIES

Both parties have their own strengths. The old system has the advantage of simplicity and familiarity, while the new system has the advantage of flexibility and innovation. The old system is more likely to produce a stable government, while the new system is more likely to produce a dynamic government.

ATTENTION COMPASS

Don't forget the Trade Union Day! This is one of the most effective ways to promote trade unionism. Wherever there is a strike or lockout, it is a good time to spread the message of trade unionism. If you can, try to attend a meeting or rally, or at least sign a petition or make a contribution.

For the latest news, updates, and events in the trade union movement, please visit our website at www.tradesunion.org.

THE CHICAGO SOCIALIST Ethernet:

The Chicago Socialists are a group of individuals who are dedicated to the promotion of trade unionism and workers' rights. They believe that the workers should have a say in the decisions that affect their lives, and that they should be represented by the trade unions.

THE CREEPING DARK

In Paris, when you receive the news of the Franco-Prussian war, you can certainly see the creeping dark. The war is spreading, and the world is becoming more and more unstable. It is important to work towards peace and reconciliation, and to promote the interests of ordinary people, rather than those of the wealthy and powerful.

THE BATTLE FOR THE EARTH

The battle for the Earth is a crucial struggle that we must all be a part of. The Earth is our home, and we must do everything in our power to protect it. We must work towards a more sustainable and equitable society, and we must ensure that the benefits of growth and development are shared by all.

THE BATTLE FOR THE FUTURE

The battle for the future is a battle against the forces of capitalism and imperialism. It is a battle for the right to self-determination, and for the right to live in peace and prosperity. We must work towards a world in which all people have the right to live in freedom and dignity, and in which the benefits of progress are shared by all.

The Class Struggle.

The following article by the well-known socialist writer Jack London, appeared in the Independent, a weekly socialist newspaper published in San Francisco. London wrote on the class struggle, a topic of great concern to socialists, who sought to challenge the prevailing capitalist system.
