RELIGIOUS ETHICS

By Ernest Untermann.

The denominations of the various sects have organizations for preparing for a great crusade toward the end of the present millennium. The leading clergymen, politicians, labor leaders, and the members of the various sects' organizations have been making speeches, giving interviews, and writing articles on the subject. The press, radio, and television have been filled with reports of the movements of the various sects. The people are being warned to prepare for the end of the world.

The sects are divided into two classes: the West and Central European, and the Eastern European. The West and Central European sects are mainly concentrated in the cities and towns of the Western part of the country. The Eastern European sects are mainly concentrated in the towns and villages of the Eastern part of the country.

The West and Central European sects are mainly concentrated in the cities and towns of the Western part of the country. The Eastern European sects are mainly concentrated in the towns and villages of the Eastern part of the country.

The West and Central European sects are mainly concentrated in the cities and towns of the Western part of the country. The Eastern European sects are mainly concentrated in the towns and villages of the Eastern part of the country.

The West and Central European sects are mainly concentrated in the cities and towns of the Western part of the country. The Eastern European sects are mainly concentrated in the towns and villages of the Eastern part of the country.
THE CHICAGO SOCIALIST, FEBRUARY 6, 1904.

THE COAL MINERS' STRIKE IN COLORADO.

Demands and Grievances.

Trinidad, Colo., Jan. 22, 1904.—The demand of the entire coal district is that the wages shall be paid the same as those paid by the Standard Coal Company. These grievances and demands are far more important than the strike. Payments are made for every week's work, but the amount paid is not sufficient. The miners have been employed in the same way for years, and are not used to striking. The miners have been employed in the same way for years, and are not used to striking. The miners are not used to striking.

The miners are not used to striking.

They have been employed in the same way for years, and are not used to striking. The miners are not used to striking. They have been employed in the same way for years, and are not used to striking.

The miners are not used to striking. They have been employed in the same way for years, and are not used to striking.

They have been employed in the same way for years, and are not used to striking. The miners are not used to striking. They have been employed in the same way for years, and are not used to striking.

The miners are not used to striking.

The miners are not used to striking.

THE SOCIALIST GOAL.

We seek justice and fight injustice. We seek labor and all that wages are paid for. We demand the full and equal recognition of the right of workers in the production and distribution of the coal. We demand that the coal strike be the beginning of all. The miners are not used to striking. They have been employed in the same way for years, and are not used to striking.

The miners are not used to striking.

They have been employed in the same way for years, and are not used to striking. The miners are not used to striking. They have been employed in the same way for years, and are not used to striking.

The miners are not used to striking. They have been employed in the same way for years, and are not used to striking.

They have been employed in the same way for years, and are not used to striking. The miners are not used to striking. They have been employed in the same way for years, and are not used to striking.

The miners are not used to striking.

They have been employed in the same way for years, and are not used to striking. The miners are not used to striking. They have been employed in the same way for years, and are not used to striking.

The miners are not used to striking.

They have been employed in the same way for years, and are not used to striking. The miners are not used to striking. They have been employed in the same way for years, and are not used to striking.

The miners are not used to striking.

They have been employed in the same way for years, and are not used to striking. The miners are not used to striking. They have been employed in the same way for years, and are not used to striking.

The miners are not used to striking.

They have been employed in the same way for years, and are not used to striking. The miners are not used to striking. They have been employed in the same way for years, and are not used to striking.

The miners are not used to striking.
THE CHICAGO SOCIALIST, FEBRUARY 6, 1904.

THE BOOMERANG OF THE SOPHIST.

A recent article of philosophical speculation which has drawn much attention and which is not uninteresting from a scientific point of view is that of Mr. W. S. Franklin, a young Englishman, who has recently published a pamphlet called "The Boomerang of the Sophist." Mr. Franklin's argument is that the theory of the Sophist, which is generally represented as a doctrine of progress, is in reality a theory of regression. He maintains that the theory of progress is based on a misconception of the nature of the world, and that the theory of regression is based on a correct understanding of the nature of the world.

A recent article of philosophical speculation which has drawn much attention and which is not uninteresting from a scientific point of view is that of Mr. W. S. Franklin, a young Englishman, who has recently published a pamphlet called "The Boomerang of the Sophist." Mr. Franklin's argument is that the theory of the Sophist, which is generally represented as a doctrine of progress, is in reality a theory of regression. He maintains that the theory of progress is based on a misconception of the nature of the world, and that the theory of regression is based on a correct understanding of the nature of the world.

WORK IN THE STATE.

Continuing his work, Charles L. Underwood has arrived in Chicago to continue his work in the state. He will be assisted by Mr. J. B. Page, who has been appointed his secretary. Underwood is one of the most active organizers in the state, and his work will be of great assistance to the movement.

The following is the statement of his work:

"In the state of Illinois, Mr. Underwood has done splendid work in organizing the Socialist party in the various cities. He has organized local councils in Chicago, Evanston, and other places, and has been very successful in winning over a large number of workers to the Socialist cause. He has also been successful in winning over a number of influential men in the state, and his work has been of great assistance to the movement."

TACTICS AND STRATEGY.

By Thos. Bernard.

"In my opinion, the most important tactical point in the Socialist movement is the need for a clear understanding of the nature of the state and the nature of the working class. The state is essentially a machine for the exploitation of the working class, and the working class must organize to overcome this exploitation."

For Municipal Elections.

1,000 Leaflets for $1.00

Subscriptions: 50 cents a year

WILSHIRE'S MAGAZINE

125 E. 33rd Street, New York.

Iroquois Theatre Fire!

Send us 10 cents and we'll mail you a magnificent Cartoon of this configuration. Artistically done by a noted artist, will be framed. Every headquarters and home should have one.
