THE UNION MAN’S “RIGHT” TO VOTE AS HE PLEAS.

BY EUGÈNE V. DEBS.

President Crippen and Governor Mitchell declare that a union man has a right to vote as he pleases. Little does Mr. Crippen know that he has a right to vote as he pleases. Yet the government is not the only thing that he has a right to vote as he pleases. He has a right to vote as he pleases in the selection of his representatives. He has a right to vote as he pleases in the selection of his judges. He has a right to vote as he pleases in the selection of his school board. He has a right to vote as he pleases in the selection of his postmaster. He has a right to vote as he pleases in the selection of his police. He has a right to vote as he pleases in the selection of his city council. He has a right to vote as he pleases in the selection of his county officers. He has a right to vote as he pleases in the selection of his state officers. He has a right to vote as he pleases in the selection of his congressmen. He has a right to vote as he pleases in the selection of his senators. He has a right to vote as he pleases in the selection of his president. He has a right to vote as he pleases in the selection of his president.

Municipal elections offer only partial political power to the voters and the realization of our political ideals.

In the modern state the composition of the electorate is the result of a series of compromises and the manipulation of electoral laws. The electoral system must be reformed to ensure the free expression of the will of the people.

CAPITALISTS DERAPATE.

THE INFAMIES AT TELLURIDE.

Since the Mine Wars ended in Telluride by the agreement of 1902, the miners have been working under a series of agreements which have not been in the interest of the miners. LABOR'S CRITICS.
BY ANNA C. MENDIBLE.

This is an appeal to The Chicago Socialist, May 5, 1904, and to re-
denoiminate the entire laboring class as "wage-earning." It is an appeal to
the laboring class to unite and strike against the capitalist class. It is an
appeal to the laboring class to organize and fight. It is an appeal to
the laboring class to demand the right to own the means of production.

who have been misled by the "wage-earning" theory, I have been called
in to give a lecture on the subject. I have been called in to give a
lecture on the subject of labor, and to show the fallacies of the "wage-
ed" theory.

Revising the Ten Commandments—Abstain

Employes Shall Hold No Meetings to Consider Their Own Rights.

The old-time honored Ten Commandments, which are used as a basis for legal and religious thought, have been updated to reflect modern times. The last commandment, which traditionally prohibits the taking of life, has been revised to prohibit the use of electronic devices during work hours. This is intended to promote productivity and reduce distractions.
