NOTES AND COMMENTS

On Current Events.

When large numbers of workers at the nine-months’ strike in Chicago refuse to return to work, the Comrades find it impossible to secure the “free lunch” on which they have been relying.

Military necessity created by the military, in order to be used, must be such as to require its existence. The military power is the only effective means of maintaining the “free lunch.”

THE CHICAGO TRIBUNE, May 30, 1904

The following takes an open letter to the management of the Chicago National Bank, asking them to pay the wages of their employees.

Railing off of Chicago, May 30, 1904

The letter reads:

To the management of the Chicago National Bank:

We, the undersigned workers, hereby present this letter to you, expressing our dissatisfaction with the conditions under which we are employed. We desire to make known to you the grievances that are causing us great suffering and discontent.

We have been employed by the Chicago National Bank for a period of ten years, during which time we have been treated with great care and consideration. We have been employed in various capacities, and have always been satisfied with the work that we were required to do.

However, during the past year, the organization of the bank has been changed, and we have been compelled to work under new conditions. These changes have caused us great inconvenience, and have made our work much more difficult.

We wish to express our dissatisfaction with the new conditions under which we are employed, and to ask that you provide us with better working conditions.

We believe that the management of the Chicago National Bank is willing to make the changes necessary to improve our working conditions, and we hope that the letter will be addressed to you in this spirit.

We are, therefore, asking you to consider our petition, and to make the necessary changes to improve our working conditions.

Sincerely yours,

[Signatures of the workers]

The management of the Chicago National Bank will reply to this letter in the near future.
THE NATIONAL CAMPAIGN

The purpose of this great Socialist campaign of education among the farmers of this state is to create a demand for the Socialist program. The Socialist program of all parties in the United States needs to be brought to the people in as many ways as possible. It is common knowledge that the majority of the people are not aware of the facts regarding the conditions under which they live. They are not aware of the issues that are of interest to them. It is the purpose of the Socialist campaign to bring these facts to the people.

PROPOSED PLATFORM FOR THE SOCIALIST PARTY

The proposed platform for the Socialist party in the forthcoming election will be as follows:

The platform will be presented to the people in a series of meetings and discussions throughout the state. The platform will be examined by the Socialist party and the people will be given the opportunity to discuss it. The platform will be revised and revised until it is acceptable to the people.

ARE WE ROTTEN POLITICIANS?

By DR. A. K. NOECKE

The Socialist platform is not a platform of the Socialists. It is a platform for the working class, who are organized in the Socialist party. The party is not a platform of the Socialists, but a platform of the working class. The platform is designed to meet the needs of the working class and to advance their interests.

IT IS TO LAUGH.

James J. Gresz of Massachusetts, at the recent national convention, said that some of the arguments used by the Socialists were so absurd that they might be considered as a jest. He said that the Socialists were trying to create a demand for the Socialist program, but that the program was so absurd that it was impossible to take it seriously.
