The task is so tremendous that no one but an aroused citizen, who is determined to strike from his limbs the shackles that bind, would for a single moment think of engaging in it. But there is no option for us or any of us. We must be or not be.

The Ballot is the Weapon—Class Caxons are the Form—It is Impossible for Some People to Live by their Own Labor Only.

Some people are too honourable and some they aren’t. Everyone should read this. It’s a great article.

Politics not for sale because the workers run this country.

Several hundred thousand dollars are being spend on the campaign.

The people in power are not interested in a good government. They are interested in a government that will make it easier for them to run the country.

The people of the United States should demand a government that will work for the people and not for the rich.

IS A RADICAL CAPITALIST PARTY POSSIBLE IN AMERICA?

BY A. M. SIMONS.

In a society already dominated by the industrial interests, it is important to consider the possibility of radical capitalism in America. The industrialization of society has led to the exploitation of workers and the concentration of wealth in the hands of a few. This process has been accelerated by the expansion of the capitalist system, which has led to the growth of large corporations and the concentration of industrial power. The result is a society dominated by the interests of the industrialists, who control the economy and the political system. This system is characterized by the exploitation of workers, the concentration of wealth in the hands of a few, and the concentration of power in the hands of the industrialists. The result is a society that is dominated by the interests of the industrialists, who control the economy and the political system.

The working class is suffering from a desperate shortage of food, clothing, and shelter. The working class is being exploited by the capitalist class, which is enriched by the labor of the working class.
