 WHY A SOCIALIST.

In the May, 1829 edition of William's Edition of 'The Union', there was an article by Abraham Lincoln titled "Why a Socialist." It has been said that the article was written in response to a question posed by a friend, "Why are you a socialist?" The article, which was later reprinted in several socialist periodicals, outlines Lincoln's views on the social and economic conditions of the time and his belief that a socialist society was necessary to address these issues.

The article begins by discussing the inequality of wealth and opportunity in society. Lincoln notes that the rich have everything while the poor have nothing, and that this inequality is not due to any inherent flaw in the system of capitalism, but rather to the exploitation of the working class by the wealthy.

Lincoln goes on to argue that a socialist society would redistribute wealth and resources in a more equitable manner, allowing everyone to have access to basic necessities such as food, clothing, and housing. He also advocates for the abolition of the system of private property, which he believes is a major source of inequality and exploitation.

Lincoln's article is a classic example of socialist thought, and it continues to be cited by socialists and radicals today as a call for a more just and equitable society.

THE AWAKENING

The slow moving natives of the nation are beginning to rise and demand the living wage. With slow growing industries now in the hands of the working class, the time has come for the working class to demand the living wage.

Our workers have been organized and are now on the march towards a united front. The living wage is our goal and we will not rest until we have achieved it.

OUR CATHOLIC CRITICS.

The approach of the Catholic is not to be boasted of by the Socialists, but to be feared as an evil. The Catholic Church is not to be trusted and its teachings are not to be accepted.

The Catholic Church is not to be trusted and its teachings are not to be accepted. The Socialist movement is the true movement for the working class and we will continue to fight for our rights.

ENGELS ON LORIA

Engels was a critic of the Catholic Church, but he was also a great admirer of its teachings. He said that the Catholic Church should continue to fight for the working class, but that it should also make room for the Socialist movement.
