THE CLASS STRUGGLE
The whole history of the world has been the history of the class struggle between the exploited and the exploiting.

July 2, by demonstration the workers of the factories of the South and Bay City, and the workers of all parts of the world, have broken into the class struggle, as the first step toward the realization of the class struggle.

The workers of the world will not be stopped by any barricade. They will fight for the union, for the solidarity of their class, and for the overthrow of the old order.

The workers of the world are united in their determination to overthrow the capitalist system and establish a socialist society. They are united in their determination to fight for the rights of the working class and to build a better world for all.

DEMOCRACY THE MASTER FORCE.

Perhaps the most notable result of the national election is the fact that it has established the fundamental principle of democracy. The people have chosen their government, and the government has chosen its people. The people's will is the law of the land, and the people's consent is the only foundation of government. The people have spoken, and the people's will is law.

THE SOURCE OF BRIEYERY.

Bribery charges in connection with labor troubles are nothing new. Labor leaders have no doubt sometimes sold out and betrayed their own principles and the interests of the men they are elected to represent. But as a rule these charges are set aside by the employers for the panic of the public and their own interests, and the troubles are continued labor troubles.

During the past year the Chicago Daily News has published a series of articles dealing with such cases. The following is a summary of the facts:

Albert Young has been charged with conduct in connection with the troubles at Chicago. He has been accused of allowing large sums of money to be paid to labor leaders in exchange for promises of action. In one case a sum of $50,000 was said to have been paid, but the sum has not been confirmed.

The Chicago News has also charged that a large sum of money was paid to Albert Young for his services in the settlement of the labor troubles in Chicago last spring. The sum is said to have been $50,000.
