MR. JAURES’ SPEECH THAT THE GERMAN KAISER PROHIBITED.

SOVIETISTS IN ACTION.

CLASS STRUGGLE UNIVERSAL.

CURRENT EVENTS AS SEEN THROUGH SOCIALIST LENS.

By Murray E. King.

THE INTERNATIONAL SITUATION.

The grave of international finance is being prepared by the disintegration of the Russian and German financial systems. Money is now flowing freely into the rest of Europe, and the money market of the United States is now in a better condition than ever before. It is not easy to say what will happen in future. But there is no doubt that the world will have to pass through a period of great instability, and that the working class will have to make its way in the midst of this chaos. The international situation is therefore of great importance.

The working class is the ruling class in the world, and it is the working class that will determine the future. The working class must, therefore, be vigilant and active. It must be ready to take advantage of any opportunity to advance its interests. It must be prepared to fight for its rights, and it must be prepared to sacrifice itself for the sake of the working class.

The working class has already made great progress in recent years. It has won the right to organize, and it has won the right to strike. It has also won the right to vote, and it has won the right to education. But the working class has not yet won the right to control the government. It must, therefore, continue to struggle, and it must continue to fight for its rights.

The working class must also be prepared to fight against the forces of reaction. The reactionaries are always trying to weaken the working class, and they are always trying to divide the working class. The working class must, therefore, be united, and it must be strong. The working class must also be prepared to fight against the forces of imperialism. The imperialists are always trying to weaken the working class, and they are always trying to divide the working class. The working class must, therefore, be united, and it must be strong.

The working class must also be prepared to fight against the forces of reaction and imperialism. The working class must, therefore, be united, and it must be strong. The working class must also be prepared to fight against the forces of reaction and imperialism. The working class must, therefore, be united, and it must be strong.

The working class must also be prepared to fight against the forces of reaction and imperialism. The working class must, therefore, be united, and it must be strong. The working class must also be prepared to fight against the forces of reaction and imperialism. The working class must, therefore, be united, and it must be strong.

The working class must also be prepared to fight against the forces of reaction and imperialism. The working class must, therefore, be united, and it must be strong. The working class must also be prepared to fight against the forces of reaction and imperialism. The working class must, therefore, be united, and it must be strong.

The working class must also be prepared to fight against the forces of reaction and imperialism. The working class must, therefore, be united, and it must be strong. The working class must also be prepared to fight against the forces of reaction and imperialism. The working class must, therefore, be united, and it must be strong.

The working class must also be prepared to fight against the forces of reaction and imperialism. The working class must, therefore, be united, and it must be strong. The working class must also be prepared to fight against the forces of reaction and imperialism. The working class must, therefore, be united, and it must be strong.

headache.

THE SCIENCE OF MEDICINE
Every pharmacy in the land
holds a stock of a certain
mixture of the ingredients.
Each ingredient is believed
to have its therapeutic
value, though the actual
value of each ingredient
remains unproved. The
pharmacist, therefore, is
merely a combination of
alchemist and chemist.
