Shall we have a series of Socialist Lectures within the Loop?

How many of the men in our communities are interested in the socialistic and democratic movement? How many are doing anything to advance the cause of the working class? How many are willing to spend time and money to further the interests of the working man? Does any of the men in our communities believe in the socialistic and democratic movement? What are the socialistic and democratic principles? What are the socialistic and democratic ideals? Do the socialistic and democratic principles and ideals agree with the principles and ideals of the working class? Are the socialistic and democratic principles and ideals in harmony with the principles and ideals of the working class? How can the socialistic and democratic principles and ideals be applied to the working class?
