THE ISSUE

The issue in this campaign, so far as the working class is concerned is: Shall the working class control the powers inherent in the city government? The Socialist Party advocates the collective ownership and operation of all public utilities, including street cars, but calls the attention of the working class to the fact that if they are to receive any benefit from such collective ownership they must control the public power that operates them. This can be done only by electing working class aldermen to the city council.

THE SECRET OF TRUST SUCCESS.

By C. A. Lamb.

When you were a child, did the name of the bank or trust company have any influence on you?

These days banks and trust companies are usually thought of as places where you put your money to work for you. They seem to be places where you can find a safe and sure way to earn interest on your savings. But do you know how it all works? Do you understand the principles behind these financial institutions?

When you deposit money in a bank or trust company, you are essentially lending it to the institution. The bank or trust company then uses this money to make loans to other people or businesses. These loans can be used for a variety of purposes, such as purchasing a home or starting a business.

In return for these loans, the bank or trust company charges interest on the borrowed funds. This interest is what allows the bank or trust company to earn a profit from the money it has borrowed from you. It is also what allows them to pay dividends to their shareholders.

There are many different types of banks and trust companies. Some are national, while others are local. Some are commercial banks, while others are savings and loan associations. Some specialize in personal banking, while others focus on business banking.

Despite these differences, the basic principles of banking and trust remain the same. Banks and trust companies are financial institutions that help individuals and businesses manage their money and make it work for them. They do this by providing a safe and secure place to save your money, as well as by lending it out to others to help them achieve their financial goals.
PROGRESS IN PRINTING PLANT

The equipment is beginning to move, and progress is being made. The machinery is being installed, and the plant is taking shape. The factory is expected to be completed in a few weeks, and the new plant will be in operation by the end of the year. The plant will be equipped with the latest and most modern printing presses, and the output will be increased. The new plant will provide more room for expansion and will enable the company to increase its production. The new plant is located in a convenient location with easy access to transportation, which will facilitate the delivery of goods to customers. The company is confident that the new plant will meet the growing demands of the market and will provide high quality printing products to its customers. The company is committed to providing excellent service and satisfaction to its customers, and the new plant will enable it to do so even more effectively.

GOMPERS AWAKENED AT LAST.

The labor movement has beeninvested with the spirit of a new and more vigorous life. The American Federation of Labor has been awakened, at last, by the call of the energetic National President, Samuel Gompers. The Federation has long been the center of union activity in the United States, and its influence has been felt throughout the country. But now, under the leadership of Mr. Gompers, the Federation is taking a more active and decisive role in the labor movement. This awakening is not only a great event for American labor, but it is also a signal that the labor movement is growing stronger and more influential every day.

PROTESTS FROM ALL QUARTERS.

The labor movement has been the subject of numerous protests and objections from different quarters. Some have criticized the Federation's policies, while others have supported them. But despite these protests, the Federation has continued to work towards the betterment of the working class. The Federation's new vigor and spirit have been evident in its recent actions, and it is clear that the labor movement is moving in a new direction.

INSPIRING MEETINGS EVERYWHERE.

The labor movement has been experiencing a series of inspiring meetings throughout the country. These meetings have been attended by thousands of workers, who have come together to discuss the issues facing their communities. The Federation has been organizing these meetings, and they have been a great success. The meetings have provided a platform for workers to express their concerns and to share their ideas for the betterment of labor.

WISDOM suggests the importance of smoking a good cigar.

The industrial labor movement.

The labor movement has been growing in strength and influence, and it is clear that it is becoming a more important force in American society. The Federation's new spirit and vigor have been a great inspiration to the labor movement, and it is evident that the labor movement is moving in a new direction.
