COLINGIA DE LE COLOR DE LE COL THE ILLINOIS CAMPAIGN OF 1906. Maine Medial Child Maine Maine

Since 1904 great events have occurred that have made tremendously for Socialism. Where a few years ago almost nothing was said of Socialism, now every paper, book and magazine is compelled to give the stirring changes that are making for Socialism extended notice. Where yesterday only a few people were thinking indifferently of the great economic changes that industrial development is working out, to-day unnumbered thousands are awakening to the new social conscience. Scientific Socialism as a fact in human equations is here.

How to make Socialism become a political fact and establish its right to make, define and execute laws in the interest of the great producing class is now the problem. The whole world is ready for it; America is suffering for it, and the State of Illinois is groaning for the relief that only Socialism can give.

There are untold thousands of people in the Prairie State and in the great city of Chicago who are defending the principles of Socialat calling it by some other name. These must have themselves revealed unto themselves.

The great trades unions of the country are going into "good man" They must be reached and taught the real truth of their economic interests. The mass of the workers must be educated in real

The Republican party will this fall be compelled to make the fight of its life for supremacy in the United States Congress. It will bable to put millions of money into the field, and its subsidized press will pour forth the vituperative screed of capitalist class deception. It will endeavor, as in other campaigns, to persuade the workers that their interests lay in perpetuating the wages system and its fierce

The Socialist party must occupy the field completely in the State of Illinois. It must enter every county. It must plant the banner of its organization in every one of the larger cities. Millions of copies of leaflets, books and newspapers must be circulated. Speakers must move forward over every part of the State. We must win supremacy in this great field of Illinois. Everything awaits our activity. No stone must be left unturned. At the very least calculation we must have five thousand dollars for the fall's campaign in Illinois.

Revolutionary leaslets are now in press. Others will follow. Placards advertising our ticket and pushing the campaign must find prominent places in every Senatorial and Congressional District in the

Our State platform must be freely circulated. A leaslet for the rural districts must be gotten out.

Brand's Park has been secured for a grand campaign rally and Fall Festival. All the great speakers of the country will be present on that day, Sunday, October 7th, 1906. Debs will be with us and also all of our local speakers.

Every one of the five hundred districts of Illinois must be covered on election day. Watchers and challengers that will fight for our rights must stand guard in her three thousand precincts.

One dollar contributed to the Socialist party campaign means twenty-five dollars' worth of added voluntary labor. The Republicans will spend more money in one congressional district than we will spend in the whole State, but we will carry on the only real campaign of the new Socialistic spirit, with all of its intense are and enthusiasm.

This is written to urge YOU to at once contribute toward the accomplishment of the greatest campaign ever carried on in the State of Illinois. There must be a contribution from every Socialist in Illinois. Here and now send in your pledge to Jas. S. Smith, 163 Randolph street, Financial Secretary Socialist Campaign Committee. Only by getting your contribution and adding it to that of your neighbor can the aggregate be brought to a total that shall make for success.

Many of our candidates will be elected this fall. The only thing that can possibly stand between us and the desired goal of doubling and trebling that number will be our inability to reach the voters of

ECHOES OF THE CLASS STRUGGLE.

What the Toilers Are Doing Through Their Union Organizations to Better Their Living Conditions in Their Attempt to Make Life Worth Living.

For several years the postal clerks in several American cities have maintained local unions and have been affiliated with the A. F. of L. post office employes in the six cities mentioned. About 300 of this number are employed in the Chicago post office, where there has existed a local club of clerks for several years.

The first and chief appeal of the clerks' union, it is said, will be in reference to the eight-hour day. The clerks during the last two years have sent many delegations to Washington in an effort to obtain for themselves the same benefits enjoyed by other government employes in the way of short working day. On each occasion the mission has proved a failure, principally because of the technicality which classes them under the civil service rules as "salaries public officials," instead of employes.

President Roosevelt took a stand a year ago, however, which set at rest all attempts of the clerks to intercede in their own behalf. The President issued at the time a famous order which forbade government civil service employes from seeking to obtain legislation for themselves except through the action of heads of departments.

Te will be interceting to watch the

It will be interesting to watch the struggle of the postal clerks in their effort to secure the "right" to organize for their own protection which other workers possess without question. At this point Mr. Harding looked pleased, but the end was not yet.

As twon as the resolution indorsing Young, the Democratic candidate in the Tenth Congressional District, was indorsed, another man srose from his seat and moved that the meeting also indorse George Koop "an old and respected member of No. 16," the Socialist candidate for Congress in the Seventh District.

This was bringing politics into the union that Harding had not reckoned on But the resolution passed with a hurrah. And still there was more to follow.

No sooner was Koop, the Socialist candidate from the Seventh District, indorsed that another member had the floor demanding that while they were in the indorsing business that No. 16 also indorse the Socialist Congressional candidate from the Ninth, "who is also an old-time and respected member of No. 16," Chus. La Breckon.

At this point Breckon got the floor and informed the members that he did not desire the indorsement of the union, but invited every individual member of the union who believed in the reineighes of Socialism to vote the Socialist ticket straight.

Against the Racine Bakers' Union
Just as we go to press this week we notice the following in the press dispatches.
These court decisions crippling labor's
economic power that are being handed
down by the judges in every State should
soon convince the organized workers that
nothing short of placing working class
judges on the benches can remedy this
evil. The Socialist party has the only
remedy for the injunction and raids on
the union treasuries:

Racine, Wis., Aug. 28.—The trades
council and members of the bakers' union
were enjoined to-day from using the "unfair list' in a decision made by Judge
Chester A. Fowler. The ruling was made
in the boycott suit for \$25,000 damages
brought by Baker Otto B. Schulus against
the trades labor council. Benjamin Dressen and others. The plaintiff was awarded \$6,000 damages. In thus depriving
union labor of one of its most powerful
weapons the court held illegal the contract
exacted by the union men and by means of
which they trad to enforce the closed
shop. The boycott was denoused as an
actionable conspiracy to accomplish a
criminal or unlawful purpose. Baker
Schultz is allowed to recover damages of
\$2,500 for the loss of profits from the
time of the commencement of the boycotting acts up to the time of the trial and
\$3,500 in damages for the amount of injury to his business and property in relation to its selling value.

SOCIALISM AND THE HELPLESS PEOPLE

BY WALTER THOMAS MILLS.

The following are some extracts from the speech delivered at Walton place and

It is said that it Socialism is to give to the producer all he produces, then the young, the aged, the diseased and the de-formed who cannot be producers must necessarily be dependent for their exist-ence upon those who are, and lennes So-rialism cannot "provide for the helpless people without humiliation and without disgrace," as it is claimed.

for helpless people now are obliged to promitted to provide a living either for them-selves or for the helpless ones dependent upon them, and hence Socialism would at least make provision for the helpless an easier task in that the working people would not be required to make million-aires out of those who will not help be-fore providing for those who cannot help.

Again it may be said that helpless perple are people, notwithstanding their helplessness, and simply because they are people they will be heirs, joint heirs with their able-bodied brothers, to all that na-ture has provided and to all that the race am Hearest, to mislead the workers of the fatte of Hillmois into supporting a movement attended by members. > The helpless people are not a part of the people for all of the time, but instead they are all of the people for a part of the time. All are helpless in childhood, all are helpless when stricken with discase or overtaken with old age. The relationship between the strong and the helpless is not a fixed relationship between some part of the people and all the rest. All of the people are helpless a part of their time and it is a misfortune beyond compensation that any one should be their time and it is a misfortune beyond compensation that any one should be strong for no part of his time. Socialism is a mutual arrangement between equals not a device by which the able-bodied may escape the burdens which in the nature of things it is their part to carry, neither is it a device by which the weak become the masters of the strong. It is co-operative. It is mutual. It is a simple "changing of work." It is a mutual insurance not only against accident and disease and the helplessness which must come with old age—It is a mutual insurance as well against the helplessness that may come to one through the follies, diseases and accidents of birth.

> It is not a question of how the weak may settle with the strong. It is a question which admits of no possible answer. For it is this. How shall the strong square their accounts with those who are weak? Disease, accident, inherited deformity and industrial incapacity are the result of social neglect, of unsanitary conditions, of industrial crimes arainst the motherhood and the childhood of the race. The helpless recaple are the upoducts of motherhood and the childhood of the race. The helpiess people are the products of society and to the producer belongs the product—the responsibility for its creation and necessarily the responsibility for society and to the producer belongs the preduct—the responsibility for its creation and necessarily the responsibility for its care. The helpless are not paupers. That they suffer neglect is not to their discredit. It is the disgrace of the strong who permit it. A disgrace so great that all the waters of all the "multitudinous controlled".

> The weak are not pumpers. Instead the strong are bankcupts. The strong are responsible for the conditions which make the coming of the weak inevitable. They are blind and palsied and helpless because of our wrongs; either that or they are weak through the age which has come

SOCIALIST LECTURE COURSE DOWNTOWN OPERA HOUSE

AND

A NIGHT SCHOOL IN THE STUDY OF SOCIALISM

By WALTER THOMAS MILLS

I.—THE LECTURE COURSE Arrangements have been made for a course of twenty Sunday morning December 2, covering a historic and scientific discussion of Socialism together with the consideration of a large number of topics of current economic and political controversy. Each lecture will begin with a twenty minutes' question box. These lectures will be given in a Downtown Opera House in Chicago.

II.—THE NIGHT SCHOOL Connected with these lectures and as supplementary to them a night school is being organized also to last twenty weeks, the first session to be held on Wednesday evening, December 5. This night school will cover a more careful study of "The Evolution of Capitalism," "The Evolution of Socialism," many questions of current political controversy, together with a series of lessons in "How to Work For Socialism," "The Matter of Organization," "The Work of a Canvasser, "How to Prepare a Speech," "How to Conduct a Question Box," "How to Keep a Note Book," "How to Organize a Campaign," and a thousand and one other things of the greatest importance in the effective doing of political works. importance in the effective doing of political work.

The Cost A plan has been adopted by which this course of lessons need work, and, besides, a reasonable compensation will be made for the work

The Plan

Admissions to the Sunday morning lectures will be free and a collection taken, but reserved seats will be sold for 15 cents reserved seat tickets will be furnished to those who wish to have them in lots of ten for any given lecture at 10 cents each.

The Reward Any one who will subscribe in advance for ten tickets each week for the twenty weeks will be given admission to the Wednesday night classes and by selling the tickets will get all their money back and \$10.00 for their services.

Less Work But More Service Any one who will secure a group of five subscribers for membership in the night school and will keep the number good throughout the course will be given regular admission to the night school without the selling of tickets themselves and without any other payment.

Reaching the Multitude These Sunday morning meetings will be a popular course of instruction in Socialism to some 10,000 residents of Chicago who, according to the plan, will attend the Sunday morning meetings more or less regularly. In the course of the season these meetings will reach many thousands of strangers temporarily in Chicago and who will learn of these meetings from the hotels where they will will be stopping and will be in attendance to learn something of Socialism, and will take the message back to 10,000 different neighborhoods throughout

The Special Study The Wednesday evening lessons will be inval-uable. They will be arranged for the express purpose of giving the greatest possible assistance to those who want to work for Socialism. After the course is over any one who has taken it will be able to answer anybody's questions and to be an effective worker anywhere in the Socialist movement. Students for this term's work are already listed from Washington, California and nearly every western state.

The Record
The Night School conducted by Comrade Mills in Chicago in the winter of 1900 and 1901 brought into the active work of the Socialist party in this city a larger number of those who have since proven capable party workers than any other single thing which has ever been undertaken. The average attendance for the whole term of that session was 80 members which overcrowded the hall then occupied. This term will provide for 200 only and no other provision than the one here outlined will be made for admission to this Night School. Idlers and curiosity hunters will not be

The party of Sweden is in very good condition financially and in membership and the peaceful settlement between Swe den and Norway must be attributed to a large extent to the influence of the Swelsh Socialists.

Switzerland.

The government of Switzerland is fast becoming Pominated by the capitalist class and the pulpit is surpassing the teacher. Russian methods are applied by the government against the working class There is a big strike on at Zurich and not only was the military called our, any and all street demonstrations were pro-libited, the trades culous copolined from picketing and in any way interfering with the manufacturers in the hiring of strike

breakers.

Many Socialists and trades union agita-tors who are not citizens of the republic of Switzerland are being deported. So the of Switzeriand are being deported. So the editor of the Socialist daily, Volksrecht. The soldiery, called out at the behest of the capitalists of Zarien, consists of the sons of rich merchants and farmers (exactly as in the United States).

The Socialists and trades unionists of Switzerland have passed strong resolu-tions against the high-handed action of the government, and it is to be seen whether Switzerland can be ruled by Cossacks or or whether the Socialist seniment is strong enough to save the name of the Swise republic from eternal disgrace.

France.

Labor of France is indignant over the bratal impudence of the mining company of Courrierss, which is bringing suit against one of our party papers, asking for an indemnity of \$150,000 because said paper, just as well as the bourgeois press published the mere facts on the causes of that horrible causstrophe which bereft over a thousand families of their supover a mousand ramines of their sup-porters. It will be remembered how glut-tonous greed of the company dismissed after a few days the volunteering Ger-man savings crew, because longer relief work might have curtailed dividence. Profits were at stake, let human lives perish. It will be remembered that three months after the accident bodies were re covered, still warm. A great many lives could have been saved had profits not been in the way. Labor will never forget this object lesson,—Lelpziger Volkszeitung.

On July 22 our Servian comrades held in the streets of the capital, Helgrade, a monster demonstration, with a parade of over 5,000 participants, in favor of uni-tersal and equal suffrage.—Arbeiter Zei-tang, Vienna, Austria.

Hungary.

During the fiscal year 1905-06 130,000 working people immigrated from Hungary to America.

Hungary can spend millions to get cap-italists to come to that country in order to exploit the working class, but cannot create conditions so that the latter can stay in the land, where they were born and ought to have a home.

RUSSIA A SEETHING CAULDRON.

Since the Czar dispersed the Douma at the point of the bayonet scarcely a day has passed without the cable dispatched announcing the assissination of a number of officials of the reactionary forces by the revolutionists. And as time passes the workers see in it only signs by the revolutionists. The Socialists in all capitalist countries are hopefully looking forward for the revolution. But to them revolution does not necessarily mean the destruction of either life or property, but it does mean a cessation of robbery by the idle, uon-producing class of the industrious tolling masses.

We suppose the church pillars who own the land and buildings that are running as disreputable hotels that are just at present attracting so much attention all believe that Socialism will break up homes and desiroy the fassily.

Will the Bryan boom be able to main that length of the support of the silver miners to finance it? Two years is a long time to live of the support of the silver miners to finance in that length of time.

It would be hard to convince the victims are yet the working class. Dun't kick at

It would be hard to convince the victims of the Milwaukse Avenue bank that the only place where the preducer is robbed under capitalism is at the factory, as slone as they were skinned there by the grait system. Capitalism, like the negroid system. Capitalism, like the negroid system, catches the worker coming and going.

Beyan and Hearst tell us they want to return to the days and conditions of Jefferson and Jackson. We Socialists want to go forward to the co-operative commonwealth, in which cach worker will be a joint owner of our wonderful wealth producing and distributing tools. Which proposition and policy appeals to your incelligence and interests, Mr. Workingman? It is again up to you to take your choice.

The Democrats in their convention at acked Socialism and charge its growth to the policy of the Republicans and francically appeal to the voters to return to the conditions of the past, as though a man could return to his childhood. The Democratic donkey appears to have less sense at each succeeding election. Follow their arguments to their logical constants and we would be returning to the or cart and the fiall and the hand tools used in the days of Jesterson and Jackson. Truly the Democratic party is a sack number and a full-fledged member of the down-and-out club. What must be the shape of a working man's head who will support such a party at this day?

NOTES AND COMMENTS.

The twentieth anniversary number of the Brauer Zeitung, printed in German and English, reached the office this week. It is a thing of beauty and intelligence, and every printed line and colored illustration bristles and rings with revolutionary sentiment. That the Brewery Workers have drawn their inspiration from the international revolutionary literature all the featured passages and it presentions ever annie evidence. One of instations give ample evidence. One of the special features of this twentieth jubice number is the presence of large and good portraits of Moyer, Haywood and Pettibone, with the following inscrip-

Rockland, Me., Aug. 18.—The public generally is aware of the fact that President Gompers of the American Federation of Labor, is pursuance of a plan adopted by the Eventive Council without consulting the affiliated unions, has come into the Se and Congressional District of this Stan for the alleged purpose of defeating the Republican candidate, Mr. Littlefield, on the ground that he is an enemy of labor.

In this district there is a candidate in the field who is a workingman and a union member, cominated by working-

in the field who is a workingman and a union member, cominated by workingness and clearly pledged to support inbor's demands. This is Walter Pickering, candidate of the Socialist party.

Does President Gompers support this candidate, the only union man in the field? Not a bit of it. He is giving his aid to Mr. McGillicaddy, candidate of the Republican party's Democratic twin, who is not a workingman, who does not owe his nomination to workingmen, and whose political organization is not pledged to political organization is not pledged to any of labor's demands, but has by its record shown itself utterly opposed to

Comrade Hobbs' Letter.

"Dear Sir-As you are coming to the Second District for the purpose of defeating Mr. Littlefeld, and of securing the election, as not say in your circulars, of tried, honest, sincere union men with the unblemisted union card in their possession, to Coarress and the State legislatures," will you kindly inform the public in your address at Rockland and elewhere what union Mr. McGillicuddy belong to? Has he a union card in his belong to? Has he a union card in his

possession?

"Is it not the expressed policy of your organization that all candidates for office shall be questioned as to their standing on 'labor's bill of grievances'? If you ask the three candidates for Congress in the Second District where they stand organized over these labor modifiers which stand upon these labor problems, which one of the three candidates now running for Congress in the Second District has a paid-up due card in his possession? Anburn is a member of organized labor with a paid-up mion card in his pos-session? Should not the union men of this district vote for a union man?

Searching Questions. "Is it not true that Messrs, Littlefield and McGillicuddy both supported the 10-hour law in this State? Can you tell where either of these gentlemen stand upon any other question of labor? Is it not true that Candidate Pickering is the only one of the three who stands square ly and honestly for every demand of the Federation of Labor?

"If you are sincere and honest yourself, Mr. Gompers, and your demands are sin-cere and honest, there is only one thing for you to do, and that is to advise the union men of the Second District to vote for Walter Pickering. Respectfully. "H. S. HOBBS."
