THE ILLINOIS CAMPAIGN OF 1906.

Since some great events have occurred that have made tremendous changes in the course of Socialism, now every paper, book and magazine is compelled to give some attention to it and speculate about its fate. Where yesterday only a few people were thinking of the great changes in the political system, there are now millions who are turning to political action and organizations. Scientific Socialism is no longer a fact in human affairs. It is a living thing that is growing and spreading. Scientific Socialism is not the mere utterance of empty words, but an organized and concerted action of men who have realized the great practical truth that it is the duty of any true Christian men to work for the good of mankind. The Socialistic section of the great American people is working in union for the good of the whole world, and the spread of this new life is being the cause of great changes in our political system.

THE SOCIALIST PARTY, which was formed by the Socialist party, now has a number of branches. Each branch has a local section which is doing its best to spread the Socialistic ideas among the masses. The Socialistic party is growing to be a great force in the political world. The Socialistic party, which was formed by the Socialist party, now has a number of branches.
