BRYAN, HEARST AND GOMPERS.

The three men who wielded such control at the convention of the state party, the three men who are the upholders and sponsors of the policies that have been in effect for the last several years, have met in Chicago. Mr. Bryan, Mr. Hearst and Mr. Gompers are all in attendance.

Mr. Bryan, the man of the people, Mr. Hearst, the man of the press, Mr. Gompers, the man of the labor movement—all are in Chicago to take part in the proceedings of the convention.

The political forces that have been upholding the policies of the state party, the forces that have been the backbone of the party, are all present to carry on the work.

The policy of the state party is one of the people, for the people, by the people. It is a policy that has been proved to be successful in the past, and will continue to be successful in the future.

The convention is a meeting of the people, a meeting of the workers, a meeting of the men and women of the state who are united in the cause of progress and development.

THE POLITICAL ROSTRUM.

By John W. Smith, News Editor.

The political rostrum is the platform from which the political leaders address the people. It is the place where they can be heard by the masses.

The political rostrum is the place where the people can be inspired by the words of the leaders. It is the place where the leaders can be held accountable for their actions.

To the Editor of The Chicago Socialist:

May I call your attention to the following issue of the Chicago Socialist. The front page of this issue contains an article which is highly objectionable. It is a denunciation of the organization and activities of the Socialist party. The Socialist party is a political organization, and its members are working for the advancement of the working class. The article is written by a person who is not a member of the Socialist party, and it is highly biased and one-sided. The Socialist party is working to improve the conditions of the working class by means of education and political action. It is working to establish a system of social justice and equality. The Socialist party is not working to undermine the existing social system, but to improve it.
