THE LAW AND THE MAN.

It is not for the law to make men righteous, but for men to make themselves righteous by the law.

When a man is brought before the law, it is not for the law to make him righteous, but for the man to make himself righteous by the law.

The law does not create righteousness, but it requires and demands righteousness from men.

The law is not the source of righteousness, but it is the instrument of righteousness, by which men are required to make themselves righteous.

The law is not the end, but the means, by which men are brought to righteousness.

The law is not the will of God, but the expression of the will of God, by which men are commanded to make themselves righteous.

The law is not the covenant of grace, but the covenant of wrath, by which men are required to make themselves righteous.

The law is not the total, but the means, by which men are brought to righteousness.

The law is not the dispensation of the gospel, but the dispensation of the law, by which men are commanded to make themselves righteous.

The law is not the instrument, but the motive, by which men are required to make themselves righteous.

The law is not the means, but the end, by which men are brought to righteousness.

The law is not the expression, but the covenant, by which men are commanded to make themselves righteous.

The law is not the will, but the commandment, by which men are required to make themselves righteous.

THE J. W. W. SITUATION.

The efforts of the J. W. W. to prevent the strikers from being paid have been frustrated. The strike has been settled, and the workers are now receiving their full wages. The company has paid for all the days of the strike, and the workers are satisfied with the arrangements. The strike was called on account of the low wages, and the workers were determined to stand firm until they received a fair wage. The company, on the other hand, refused to pay the strikers for the days they were out of work, and the workers were forced to take strike action in order to compel the company to submit to their demands. The strike was a success, and the workers are now receiving their full wages. The company has paid for all the days of the strike, and the workers are satisfied with the arrangements.
