WHY THERE IS RACE SUICIDE
By F. DUDESS TRODD

Not long ago a pastor in one of Chicago's department stores and a member of a famous church on the west side called the attention of the membership of his church to the tremendous amount of money being spent on automobiles, and the consequent waste of money. He then declared that it was time we all took a look at the matter and thought about it, and he brought home to his congregation the thought that we ought to take a hand in the matter.

The result was a series of anti-auto meetings held in various churches throughout the city, and the movement caught on like wildfire. The people of the city of Chicago have been forced to make several restrictions on the use of automobiles, and the city has been forced to enact several ordinances to limit the use of automobiles. The movement has spread to other cities, and the people of the country have taken up the cause of the anti-auto movement.

THE EXISTING ORDER
By L. C. GRUBB

The time is looking rather gloomy for the people of the world, as the news of the world seems to be getting worse and worse. There are many who fear that we are going to have another world war, and that it will be even worse than the last one.

In every age existing order has had its ups and downs. The time is looking rather gloomy for the people of the world, as the news of the world seems to be getting worse and worse. There are many who fear that we are going to have another world war, and that it will be even worse than the last one.
Tuberculosis Can Be Cured if Taken at an Early Stage—It Is Done at Running.

By MAY WOOD SIMONSEN

A household in the United States, every week in 200,000, is thrown into the depths of grief and despair through the loss of a member to tuberculosis. 

Tuberculosis is the most tragic of all known diseases because it is the only disease that you cannot cure if you wait too long. It is a disease that can be cured in the space of six months for the vast majority of cases which are affected through the ordinary conditions under which men and women live in this country, for the condition of the victim has already been greatly altered by the time the disease is discovered.

This is why we have, in Chicago, tuberculosis clinics, which are free to all, but which have practically been closed to the public during the last few years because the disease has not been given the attention it deserves. The Chicago Tuberculosis Association has been working for the past two years to establish a tuberculosis hospital in the city, and this hospital will be opened in October, 1906.

Tuberculosis can be cured if taken at an early stage. It is done at running. If you have the disease, go to the hospital now. The cure will take time, but it will be worth while.
A Fight to a Finish

The Chicago Socialist of December 8th has called for outside help in its fight against the Tule School. The letter from Murray Butler, of the Chicago University, who has been so active in the struggle for the Tule School, states that he has not had much success in getting the support of the public schools. He has determined that any school board has to be fought. He states that if the public schools will not support the Tule School the children will be left to the mercy of the public schools. The Chicago Socialist has been trying to get support for the Tule School, but has not succeeded. The letter from Murray Butler is a call for outside help.

Teddy's Message

The next issue of the Chicago Socialist will be devoted to the Tule School. The Socialist has been trying to get support for the Tule School, but has not succeeded. The letter from Murray Butler is a call for outside help.

Legalised Kidnapping

A few days ago the Supreme Court of the United States handed down a decision in the Matter of the President of the United States, that is legalised kidnapping. The Supreme Court of the United States has declared that the act of kidnapping is legal under certain conditions. The decision of the Supreme Court is a result of the legalised kidnapping case of the President of the United States. The Supreme Court has declared that the act of kidnapping is legal under certain conditions.

DO YOU REALIZE

The President is not only the head of the executive branch of the government, but also the head of the legislative branch. The President is responsible for the implementation of laws and policies of the government. The President is also responsible for the foreign policy of the United States. The President is also responsible for the appointment of judges to the federal courts.

Tolstoi on Freedom

Tolstoi believed in the freedom of the individual. He believed that the individual should be free to make his own decisions and to live his own life. He believed that the government should not interfere with the individual's right to freedom. Tolstoi believed that the individual should have the right to speak out and to express his own opinions. Tolstoi believed that the government should not control the individual's thoughts or beliefs.

Bosky on the Senate

Bosky believes that the Senate should be a body that represents the people. He believes that the Senate should be a body that is elected by the people. He believes that the Senate should be a body that is representative of the people. Bosky believes that the Senate should be a body that is elected by the people.
